APPENDIX A.

Report of the Sub-Committee appointed by the Council at its meeting held on 15th July, 1917 (vide Resolution No. 6.)

Present :

The Pro-Vice-Chancellor.

Babu Govinda Das.

The Hon'ble Pandit Madan Mohan Malaviya.

The Pro-Vice-Chancellor laid before the meeting the opinion of Dr. Tej Bahadur Sapru which he had communicated in a letter addressed to Babu Govinda Das.

The Hon'ble Pandit Madan Mohan Malaviya then observed, "I have carefully considered the proposals put forward by Babu Shiva Prasad Gupta in his letter, dated Baisakh 24, 1974. He suggests that 'in addition to the Annual General Meeting of the Court, there shall be one more ordinary general meeting in the month of April at which all matters connected with the Benares Hindu University can be discussed.' The existing Statutes make the holding of one general meeting compulsory; but they also provide (see Statute 16 (5)) that "special general meetings of the Court may be convened by the Council at any time." It seems to me that at the present stage of the University, these provisions are adequate to meet the requirements of the University. The Court is a large body, having 188 members at present. The Council to which all executive work, on the administrative and financial side, is entrusted consists, besides the two ex-officio members, viz., the Vice-Chancellor and the Pro-Vice-Chancellor, of thirty members, twenty-five of whom are elected by the Court and five by

the Senate. The Council meets and can meet as often as may be necessary. Under the Statutes, the Court can control the Council "by statutes and resolutions, and not otherwise." The provision for the holding of one compulsory meeting of the Court every year guarantees that the members of the Court shall have an opportunity at least once every year to review the decisions arrived at by the Council and to lay down such principles or instructions for its guidance as to them may seem fit. It is doubtful, in my opinion, whether at this early stage of our existence it would be right to ask members of the Court who are scattered over all parts of the country to bear the expense and trouble of attending two meetings of the Court every year. It is true that the University has now made a rule that the travelling and halting allowances of such members of the Court as may be willing to accept them will be paid by the University, but this will mean that the additional burden will in many cases be cast on the University funds. In view of the paucity of our funds, this should be done only if there is a necessity for it. And power has been given to the Council to decide whether such a necessity does or does not exist, and whenever it thinks that it does, it has power to convene a special general meeting of the Court.

"Babu Shiva Prasad Gupta has proposed a further additional statute to the effect that the Vice-Chancellor shall be authorized to call special general meetings of the Court in emergency and that he shall also call such meetings if fifteen members of the Court make a written request to him for the purpose. In my opinion it is not necessary, and in the case of the latter proposal not desirable, to add this statute, in view of the provision contained in the Statute 16 (5) to which I have already referred. So far as the Vice-Chancellor is concerned, it may safely be assumed that when he will consider it desirable to call a special general meeting of the Court, the Council will most probably agree with his view. For the rest, if at any time the members of the Council themselves think it proper to

call a special general meeting, they have the power to do so, even if the Vice-Chancellor should not agree with them. In my opinion the constitution has rightly left the responsibility of deciding when a special general meeting of the Court should be called to the Council, for owing to the knowledge which the Council will possess of the affairs of the University, it will presumably be in the best position to judge when this should be done. In view of the considerations I have noted above, it seems advisable to me that we should gather a little more experience of the working of the present Statutes and of the work done at the Annual General Meetings of the Court, before making the holding of a second general meeting of the Court compulsory. But it hardly needs saying that the greater the interest the members of the Court can be induced to take in the affairs of the University, the better it will prove for its welfare. And if there should be a general feeling among the members of the Court in favour of the proposal it should be given effect to by the enactment of the statute proposed."

Babu Govinda Das agreed with Pandit Madan Mohan Malaviya so far that the matter is for the Court to decide. The Pro-Vice-Chancellor entirely agreed with all that had been stated by the Hon'ble Pandit Madan Mohan Malaviya.

Babu Govinda Das agreed with the note sent by Dr. Tej Bahadur Sapru to the effect that if fifteen members of the Court make a requisition to the Vice-Chancellor to call a special meeting of the Court, stating the particular business for which the meeting is to be called, such a meeting should be called. He agreed with the Pro-Vice-Chancellor and the Hon'ble Pandit Madan Mohan Malaviya that it was not necessary to give power to the Vice-Chancellor to call a special meeting of the Court.

As regards the proposal to add another provision to Statute 16 (2), viz., that "the budget as framed by the Council shall be presented to the Court at its Annual General Meet-

ing and there finally approved," Statute 16(2) already provides that "at the annual meeting of the Court a report of the proceedings of the Council and of the University, together with a statement of the receipts and expenditure and the balance-sheet as audited, shall be presented by the Council to such meeting," and Statute 15 provides that the Court shall exercise control over the Council "by means of statutes and resolutions, and not otherwise." The budget is included in the proceedings of the Council which are to be laid before the Court. It is open to any member of the Court to move any resolution relating to any item of the budget or other proceedings of the Council. These proceedings are sent to every member of the Court and to all the registered donors of the University. Statute 33 provides that the notice of the Annual General Meeting shall be issued at least 30 days before the meeting, and statute 34 requires that any member of the Court who intends to bring forward any special business before the Court shall give notice of such business to the Secretary, at least 20 days before the date appointed for such meeting. It further provides that any member who intends to propose an amendment shall give notice thereof to the Secretary ten days before the date fixed for the meeting. In the opinion of the Sub-Committee these provisions are amply sufficient to enable any member of the Court to propose any amendment to the proceedings of the Council, including the budget. It is therefore not necessary to enact the statute suggested. The above consideration also disposes of the proposals contained in proposal No. 2 of Babu Shiva Prasad Gupta, excepting that contained in the last portion, viz., that no notice will be necessary for the moving of the amendments to the proposed resolutions, etc. As to this, attention is drawn to the provision contained in the Statute 34. It seems unnecessary at present to suggest the modification of the statute.

As regards the proposal to enact by statute that "the

members of the Court shall be authorized to ask questions of the Hindu University authorities," it is evident from what is contained in the rest of the proposal that what is meant is, that questions should be asked at meetings of the University Court. Proceedings of the Court, the Council, the Senate, the Syndicate and the Faculties are regularly supplied to every member of the Court. Statute 16 also specifically provides that a report of the proceedings of the Council and of the University, together with a statement of the receipts and expenditure and the balance-sheet as audited, shall be presented by the Council to such meeting. It further provides that a copy of the statement of receipts and expenditure and of the balance-sheet shall be sent to every member of the Court at least 7 days before the date of the Annual Meeting, and shall be open to the inspection of all members of the Court and Senate at the Office of the University during the year following such annual meeting, at such reasonable hours and under such conditions as the Council may determine. Members of the Court have under these provisions ample facility provided to obtain information regarding the affairs of the University. In addition to this, if any member wants any information which is not communicated to him in the manner above referred to, he is free to write to the Registrar for such further information. It may be presumed that in some matters the Registrar will of his own authority and discretion, and in others after obtaining permission from the Vice-Chancellor or the Council, as may be necessary, supply the information asked for, and that where he is not able or permitted to do so, he will communicate the fact to the member presumably with a statement which will satisfy him. In any case, where a member feels that the refusal of the Council, to supply the information asked for, is unreasonable, and wishes to press for the information, he can do so by moving a resolution at a meeting of the Court. In the opinion of the Sub-Committee the proposal to enact a statute regarding the right of

interpellation at meetings of the Court, might well stand over until we have gained a little more experience of the working of the University under the existing enactments.

APPENDIX C.

SHANTIKUNJA,

BENARES CITY.

19th September, 1917.

DEAR SIR,

At the risk of being deemed troublesome I once more appeal to the Building Committee of the Central Hindu College and land connected with it, to give me a small portion of land which is just between the Mahomedan Graveyard and my Girl School. I am not asking now for the full extent of land for which I made request before. I shall be extremely obliged to the authorities if they would kindly come and see the small piece of land which I required, it is not more than a square yard. Any time that you visit my new building I shall gladly show you how dependent we are upon that small piece of land for light and air. If it cannot be given to me, I shall be glad to have a loan of it, if I am permitted to build a wall. Hoping to be excused for my perseverance in troubling you,

Yours most sincerely,

FRANCESCA ARUNDALE.

3. The Registrar reported that at the meeting of the Board of Appointments, the Hon'ble Mr. V. S. Srinivasa Shastri, M. A. had retired by ballot (*vide* Statute 27 (2)).

Babu Bhagavan Das proposed, and the Hon'ble Pandit Madan Mohan Malaviya seconded, that Mahamahopadhyaya Dr. Ganga Natha Jha, M. A., D. Litt., be elected in his place.

Mr. Seshadri proposed the name of Professor N. C. Nag, M. A., and Mr. Rane seconded him.

Professor P. K. Dutt proposed the name of Professor Jadu Nath Sarkar, M. A., P. R. S., and Professor Adhikari seconded him.

After some discussion the name of Professor Jadu Nath Sarkar was withdrawn and, on votes being taken, Professor N. C. Nag, M. A., was declared to have been elected.

4. On the motion of Rai G. N. Chakravarti Bahadur, seconded by Mr. Seshadri, the agenda of the meeting of the Senate, to be held on the 29th October, 1917, was approved.

5. Mahamahopadhyaya Dr. Ganga Natha Jha moved that the Syndicate recommend to the Senate to take into consideration, as a matter of urgency, under Regulation 8 of Chapter I of the University Regulations, the desirability of passing the following transitory Regulation to enable the present students of the Central Hindu College, who were now studying the courses of the Allahabad University, to appear in the examinations of the Benares Hindu University at the ensuing examinations.

The proposal and the terms of the Regulation proposed were unanimously passed.

Transitory Regulation.

Notwithstanding anything to the contrary contained in these Regulations, the subjects of examination, the courses of study, the text-books prescribed, the tests or the standards of marks prescribed, for passing or taking a

place in the various divisions or classes in the Intermediate Examination and in the Examinations for the degrees of Bachelor of Arts, Bachelor of Science, Master of Arts and Master of Science (only Final in the last two examinations) of this University for the examinations of 1918 and 1919 (and, in case of candidates who may fail in the examinations of 1919, for their examination in 1920), shall be the same as at present laid down or prescribed by the University of Allahabad for the corresponding examinations of that University for subjects for which classes were in existence on the 1st day of October, 1917, in the Central Hindu College at Benares. This Regulation shall remain in force up to the date of the declaration of the results of the examinations of 1919 (and, in case of candidates who may fail to pass the examinations of 1919, up to the date of the declaration of the results of 1920, should they continue their studies and sit for the examination of 1920), and till then, the attendance of the present students of the Central Hindu College, which would have counted for the examinations of the Allahabad University, shall be reckoned to be attendance at the lectures in this University, for purposes of every examination of this University. Provided that the examinations of M. Sc. Previous (in Physics and Chemistry) of 1918 and M. Sc. Final of 1919, as also the M. A. Previous of 1919, shall be held in the courses prescribed for *this* University.

6. Babu Bhagavan Das raised the question whether the students of the Benares Hindu University can be and should be allowed to go up for the examinations of the Allahabad University. After considerable discussion, the sense of the meeting was that, it should be made known to the students that the Benares Hindu University will hold its own examinations in 1918, though the courses will be those of the Allahabad University. It should at the same time be also pointed out to them that, under section 16 of the University Act, the degrees, diplomas, certificates and other distinctions granted by this University are to be recognized by the Government to the same extent and in

the same manner as the corresponding degrees, diplomas, certificates and other distinctions granted by any other University incorporated by the Act of the Governor-General in Council. This University has no objection to the students of the College applying to the Allahabad University for permission to appear at the examinations of that University. It was for the latter University to pass such orders as it may think fit in each case.

The Hon'ble Pandit Madan Mohan Malaviya moved, and Rai G. N. Chakravarti Bahadur seconded, that the following resolutions be passed, *viz* :—

(a) That the fact that the Central Hindu College has become a College of the Benares Hindu University be notified to the students of that College ;

(b) That they be also informed that the Syndicate has recommended to the Senate the passing of the following Transitory Regulation (under Regulation 8 of Chapter I):—

Notwithstanding anything to the contrary contained in these Regulations, the subjects of examinations, the courses of study, the text-books prescribed, the tests or the standards of marks prescribed for passing or taking a place in the various divisions or classes in the Intermediate Examination and in the Examinations for the degrees of Bachelor of Arts, Bachelor of Science, Master of Arts and Master of Science (only Final in the last two examinations) of this University for the examinations of 1918 and 1919 (and, in case of candidates who may fail in the examinations of 1919, for their examination in 1920), shall be the same as at present laid down or prescribed by the University of Allahabad for the corresponding examinations of that University for subjects for which classes were in existence on the first day of October 1917, in Central Hindu College at Benares. This Regulation shall remain in force up to the date of the declaration of the results of examinations of 1919 (and, in case of candidates who may fail to pass the examinations of 1919, up to the date of the declaration of the results of 1920,

should they continue their studies and sit for the examination of 1920), and till then, the attendance of the present students of the Central Hindu College, which would have counted for the examinations of the Allahabad University, shall be reckoned to be attendance at the lectures of this University, for purposes of the examinations of this University. Provided that the examination of M. Sc. Previous (in Physics and Chemistry) of 1918 and M. Sc. Final of 1919, as also the M. A. Previous of 1919, shall be held in the courses prescribed for this University;

(c) That the attention of the students be drawn to section 16 of the Benares Hindu University Act which ensures that "the degrees, diplomas, certificates and other academic distinctions granted by the University, shall be recognized by the Government to the same extent and in the same manner as the corresponding degrees, diplomas, certificates and other academic distinctions granted by any other University, incorporated by an Act of the Governor-General in Council; and

(d) that, in view of the special circumstances of the case, if any student desires to apply to the Allahabad University to be permitted to appear as a private candidate at any of its examinations to be held in 1918, the Principal and the Registrar should forward the application to that University, with a note that this University has no objection to the application being granted.

The resolution was passed unanimously.

(c) Resolved that the question of separating नव्य and प्राचीनन्याय be referred to the Board of Studies in Nyaya.

7. Babu Bhagavan Das, in making a proposal recommending revised organisation of the Sanskrit Department of the University (*vide* Appendix A), addressed the meeting at some length. Mahamahopadhyaya Pandit Adityaram Bhattacharya, M.A., rose to observe that no notice was given of such an important subject, and as the meeting of the Faculty of the Oriental Learning had already taken more time than was due to it, and as the Faculty of Theology had to go through its agenda of work, the matter could not be fully considered at the stage. He further

observed that the lines on which the Faculties of Oriental Learning and Theology had proceeded in their work covered fully the four divisions of *Dharma*, *Artha*, *Kama* and *Moksha*. These ancient traditional divisions Babu Bhagavan Das has also accepted as the basis of his proposal for organization. He dwelt at some length in support of the statement by instancing what had already been done. The Hon'ble Pandit Madan Mohan Malaviya, in support of Mahamahopadhyaya Pandit Adityaram Bhattacharya's statement, observed that further developments would certainly be made in course of time as the funds of the University would permit.

Resolved that the proposal be circulated and brought forward at the next meeting of the Faculty for fuller consideration, with any note that Babu Bhagavan Das may send up along with the proposal.

GANGA NATHA JHA,
Dean of the Faculty of Oriental Learning.

APPENDIX A.

(Minutes of the Faculty of Oriental Learning :

28th October, 1917.)

मैं प्रस्ताव करता हूँ कि काशीविश्वविद्यालय के संस्कृत विभाग में अध्यापनक्रम इस प्रकार से बाँधा जाय कि चार विभाग अर्थात् धर्मशास्त्रविभाग, अर्थशास्त्रविभाग, कलाशास्त्रविभाग और मोक्षशास्त्रविभाग नियत किये जायें। और जितने शास्त्रों का अध्यापन किया जाय वह इन चार में बाँट दिये जायें। और विविध अर्थशास्त्र और कलाशास्त्र के पुनरुज्जीवन और उद्धार पर विशेष ध्यान दिया जाय। तथा आयुर्वेद और ज्योतिष जिनकी गणना अथवा कलाशास्त्र में अथवा धर्मशास्त्र में हो सकती है इनमें यन्त्रादिक द्वारा उत्कर्ष करने पर भी विशेष ध्यान दिया जाय।

‘राच्यविद्याविभागे’ सांप्रतमवांतरतया विभागत्रयमुद्बोधनीयम्—

(१) कलाशास्त्रविभागः, (२) अर्थशास्त्रविभागः, (३) मोक्षशास्त्रविभागश्च ।

(The first will correspond to the modern ‘Faculty of Arts,’ but will include some subjects which modern Faculties of Arts do not, and will exclude others which they do ; the second to the ‘Faculty of Science,’ pure and applied, with similar inclusions and exclusions ; the third is strictly the equivalent of the Faculty of Theology, the Science of God, *Paramátmá*, realisation of Whom is Moksha ; but the distribution of subjects of study, changed by circumstances, makes it take the place of the Faculty of Law, as a secular subject, open to all, while the Dharma-shástra-vibhága, strictly corresponding to the Faculty of Law, takes the place of the Faculty of Theology, or Religion, because it includes not

only 'human' but also 'divine' Law, and therefore some subjects to which all students are not admissible by the special conditions of the B. H. U.)

His Highness the Pro-Chancellor opened the proceedings by delivering the following address :—

MR. VICE-CHANCELLOR AND GENTLEMEN,

“I assure you that I can conceive of fewer disappointments to me than to have been deprived of the pleasure, through indisposition, of being in your midst last year; I feel extremely happy that it has been my good fortune to have been able to meet you to-day.

“It is a matter for regret that within its first year of existence the University has had to mourn the loss of four of its benefactors and supporters, Rai Bahadur Ram Charan Das of Allahabad, Rai Prag Narain Bahadur of Lucknow, Mahamahopadhyaya Shiva Kumar Shastri of Benares and Justice Saroda Charan Mittra of Calcutta. The first-named was a generous donor to our funds, the second, one of the earliest supporters of our University movement, the third, a Sanskrit scholar of great repute, and the last-named, a retired Judge of the Calcutta High Court who was expected to take a prominent part in the work of the University.

“Gentlemen, under the statutes it is our duty to provide appropriate buildings for the accommodation of the University. An extensive plot of land measuring about 1,300 acres at Nagwa has been acquired, and plans and projects for the necessary buildings are under preparation. But this will take time and the University is anxious to start work as soon as possible. In the meantime, however, the Government have been pleased to come to our rescue by kindly permitting us to do so in the Central Hindu College Buildings for which our heart-felt thanks are due to His Excellency the Viceroy, the Hon'ble the Education Member of the Government of India, and His Honour Sir James Meston, the Visitor of the University and Lieutenant-Governor of these Provinces. It is only right that we should assure them that as soon as the new University Buildings are completed, we will move into them without delay.

"Last year I ventured to put forward a few suggestions, and from the reception accorded to them I am persuaded that they have met with your approval. This encourages me to hope that in due course, as circumstances allow, steps will be taken to carry them out. The University is an infant but a year old and it must take time to develop into full maturity of manhood. I do not propose to trouble you with many suggestions this year, but a few simple ones which occur to me, I take the liberty of laying before you.

"I would suggest, though in making this suggestion I may seem to be going into detail, that in order that technical training may be stimulated and the country get the benefit of trained services of our men, the University should devise means for arranging with large business houses for the proper apprenticeship of such of its students as may take degrees in any of the technical subjects, such as, Agriculture, Engineering, etc., *i. e.*, subjects that relate to Commerce and Industry. A complete training in the Workshop, on the Farm or at the Desk would be essential. In short we should have men possessed of such theoretical knowledge of their subject and so trained in its practical application, under modern conditions, that they may at once command confidence and respect.

"*Gentlemen*, the field of knowledge is so vast that a limit to it is almost inconceivable. Knowledge is light and like the rays of the sun it illumines not only its possessor but shoots out in all directions, carrying warmth and sunshine, life and energy in its train. Not only that, if properly preserved, it becomes a part of the Common Storehouse of mankind irrespective of age and country. And what is more, by its use and spread, knowledge gains in volume and does not diminish. Speaking in general, the human mind performs two principal functions. One is receptive, the other is creative: the mind takes something from the common storehouse of already accumulated knowledge and it is given to some fortunate ones also to add

to the Common Store. And yet I may add a third function that is no less important than the other two ; and that is the faculty of sorting out and placing facts in their true relation to one another or, in other words, the faculty of accurate judgment.

“Knowledge is necessary for the material and moral progress of mankind but the value of knowledge will be more or less in proportion to this faculty of accurate judgment. It is, therefore, essential that great care should be taken to promote everything that would develop this faculty. And it is this faculty of accurate judgment that is greatly dulled, if not entirely blunted, by what is called “cramming.”

“It is a matter of common complaint, and I believe the evil is generally admitted, that the greatest defect of our existing educational system is conscious or unconscious encouragement of cramming. And unfortunately, it is not confined to any one part of the system but affects it in its entirety from the lowest educational institution to the highest. I would beg of you to exercise the greatest possible vigilance to fight against it and not to let it creep into the precincts of our University. The evil is admitted and it is for the experts to find proper remedies. Though not claiming to be an expert, I may venture to suggest a possible remedy that strikes me as the most efficacious. The examinations should not be tests merely of memory but rather of accurate judgment.

“This leads one to the consideration of the question of proper methods of imparting knowledge ; in other words, it means that the professorial and teaching staff should be such as to fulfil this great aim.

“*Gentlemen*, believe me there is nothing so important in an educational institution as the quality of the teacher, and you should spare neither attention nor money in getting together the best teaching staff that you can get. A thoroughly good staff should be your first aim. When

you have secured that you may devote your funds in other directions, but I will beg of you to place this in the forefront of everything else.

"While I am on the subject of the teaching staff, I may be permitted to say that having selected the best man, leave him free to organise the teaching in the subject of which he is the recognized master. Do not restrict him unnecessarily by courses, syllabuses, or text-books. Restrictions of this character, I am afraid, will not help the development of original thought or research. I regret the point did not occur to me last year, but since I occupy a position of some responsibility, I hope you will forgive me for bringing it to your notice to-day specially where I consider the best interests of the University are involved.

"Though I am aware that you cannot directly control the education in Secondary Schools yet you might be able to combat the evil of cramming in them also by making your examination of admission into the University such as to give the least possible encouragement to cramming. In short no stone should be left unturned to pull by the roots the evil that has such a benumbing effect upon the proper spread of knowledge.

"*Gentlemen*, I will also venture to draw your attention to the importance of Physical Culture. Sound mind in a sound body is an old and trite saying and full of elemental wisdom and though often repeated yet, unfortunately, mostly neglected. Physical well-being is as essential to moral and intellectual health as anything else. The ruined health and premature decay and, alas! the death of our students is the surest evidence of the neglect of this most essential part of education. Japan suffered from this a generation ago, but in hardly two decades, the Japanese have succeeded in turning out students from their educational institutions who are distinguished for their fine chests and lungs. Games not merely develop the body but help also to develop the character by fostering self-reliance.

quick judgment, the estimable quality of give and take, and also good manners.

"*Gentlemen*, one of the essential functions of a Residential University is the care and development of that bundle of qualities in its alumni that are designated by the generic name of manners. Manners are the salt of life. However learned a person may be, if he be wanting in the graces and charms of life, he would be hampered, it matters not what the profession or walk of life which he may select or in which he may be placed. Manners reflect themselves in a man whether he be moving or stationary, whether he be speaking, conversing or silent, whether he be host or guest, whether occupied by the formalities of his official position or at ease amidst his home surroundings, whether he be dealing with his superiors, equals or inferiors. A well-mannered man will be sought after everywhere and, while avoiding unpleasantness for himself, will spread pleasure all round.

"There is one baneful quality that should be specially guarded against. I refer to the defect of affectation, or a perpetual desire to create an impression of one's own importance. This is very demoralising. One starts by trying to produce false ideas of one's own importance among others and ends by believing in one's own importance. This does not only inculcate the habit of false pretences but also results in stagnation. Our students should be natural and simple and absolutely unaffected.

"I need hardly remark that manners are not best taught in the class room. It is while the students are at their games, or in the dining hall, or engaged in their various other activities outside the class room that those who have charge of them can inculcate in them good manners by precept and example and especially the latter. The influence of example is imperceptible yet powerful and too much stress cannot be laid on its importance.

"*Gentlemen*, our motto should be onward and yet again

onward ; not necessarily inscribed on our portals, but deeply engraven on the tablets of our hearts. Guided by the torch of knowledge and resulting wisdom and goodness let us take each step cautiously yet firmly, avoiding every false move yet never faltering in the onward march to the Promised Land.

“ Before I resume my seat, I might state that it is my conviction that although rational and well-informed criticism is healthy and productive of good results, acrid controversy can only retard true progress by diverting the mind and preventing concentration. Steady work, in a hopeful and generous frame of mind, with complete unity of aim alone can bring us to the ultimate goal, and such unity must be based upon a clear realisation of the duty we owe to the Government.”

The Vice-Chancellor then laid before the meeting a report of the proceedings of the Council and of the University together with a statement of the receipts and expenditure with the audited balance sheet for the period ending with the 30th June, 1917, (*vide* Appendix A.) and stated :—

YOUR HIGHNESSES, YOUR HONOUR, LADIES AND GENTLEMEN,

“ I rise now in compliance with the provisions of Statute 16 of the Statutes of our University to lay before you on behalf of the Council “ a report of the proceedings of the Council and of the University,” as also “ a statement of the receipts and expenditure and the balance sheet,” which have been duly audited by the Auditor appointed by you on the 12th of August, 1916. As you are aware, following the practice prevailing in other Universities in India, we have printed the minutes of each meeting and sent them out from time to time to the members of the Court, the Senate, the Faculties and the registered donors. You are, therefore, already in possession of what the Statute requires to be presented to you to-day. The presentation to-day is therefore merely a formal act done in

compliance with the provisions of the Statute. The minutes will soon be in your hands in the form of a bound volume of the record of the first year's work of the University. The other portion of the Statute refers to the statement of expenditure and receipts and the balance sheet which under the statute must be sent to every member of the Court at least seven days before the date of the annual meeting. Section 13 of the University Act requires that the accounts should be audited "once at least in every year at intervals of not more than fifteen months." The accounts, now presented, are for a period of 15 months, commencing 1st April, 1916, and ending 30th June, 1917, Pandit Mahadeo Prasad Acharya, the Auditor appointed by you, took charge of his duties soon after his appointment. Since then, he has been auditing the University accounts in all its departments at intervals of a month or two. The work has been an arduous one. The allowance for the work fixed by the University is perhaps sufficient only to cover his travelling and other out of pocket expenses. The work has been done by him more as a labour of love than of gain. He is entitled to our thanks for doing it.

"As this is the first Annual Meeting of the Court, it would perhaps not be out of place to lay before you a short summary of the work done since the Court met first in August, 1916. Before, however, doing so, I should like with your permission, to refer to the work of some gentlemen to whom the University is very greatly indebted for the very valuable services they have freely and ungrudgingly rendered to it. The first and foremost of them is our venerable Pro-Vice-Chancellor, Mahamahopadhyaya Pandit Aditya Ram Bhattacharya, M.A., to whom we are deeply grateful for so readily responding to our call to undertake the onerous duties of his office. We owe much to his constant and deep devotion and valuable counsels in the conduct of the affairs of the University during the year, and I would be failing in

my duty, if I do not take this opportunity of tendering him our most cordial thanks for all that he has done as a labour of love and devotion in the cause of education. To the Hon'ble Babu Moti Chand, C.I.E., our Hony. Treasurer, our grateful thanks are due for the careful and able manner in which he has discharged the duties of his office. He has amid his many other onerous duties acted as the chairman of the committee for the management of the landed estates of the University, and his considerable knowledge and experience have been of the utmost help to the University in that department of its work. Our thanks are also due to Babu Guru Prasad Dhawan, B.A., a zealous and devoted worker, to whom the University is much indebted for his labours in its service. There are other honorary workers, labouring selflessly in the service of the University, but I do not mention them, as I know that they would prefer not to be mentioned: I hope their noble example will be followed by many others. I thank them all for what they have been doing for the University.

"I now pass on, with your permission, to some of the salient features of this year's work which are likely to be of interest not only to you, but to the general public as well, who, I am sure, will welcome the report of continuous progress, which, I am glad to say, the University has been able to make.

"The most important event of the year was the issue by His Excellency the Viceroy and Governor-General of India in Council, of a notification under section 15 of the Act, declaring that on, and with effect from 1st October, 1917, the Central Hindu College of Benares shall be deemed to be a College maintained by the University. This College has thus become a College of the University as defined in section 2 of the University Act, and attendance at lectures given here and the classes maintained in the College, will qualify students now for admission to the various examinations of the University and the degrees

which the University is empowered to confer. The University will now for the first time exercise its functions as a teaching University. This is a memorable step in the progress of education in India, and by sanctioning it, His Excellency Lord Chelmsford has earned the deep gratitude of the entire Hindu community. Your Highness has already referred to this auspicious event in your address and has expressed on our behalf our sense of deep gratitude for it to His Excellency and also to the Hon'ble Sir Sankaran Nair, and to our esteemed Visitor, the Hon'ble Sir James Meston, who has honoured us by his kindly presence in our midst to-day, for the help given by them in this matter. I would like to say, however, that it is a matter of great satisfaction to us that this consummation, so devoutly wished for, has taken place within the period of administration of the present head of the Government of the United Provinces who, ever since he came into contact with the work of the University, has taken a deep interest in its progress. We all remember how largely His Honour contributed to the success of the grand ceremonial, the laying of the foundation-stone on the 4th February, 1916. He has been always ready to do all that he could to further the aims of the University, and I think, I may without any breach of confidence say at once that during the time that the University has been in existence there has not been a single matter, in which His Honour has declined to give me any help which it has been my duty to ask of him on behalf of the University. I may also be allowed to say in this connection that we owe a deep debt of gratitude to the founders of the Central Hindu College, and I am happy to see here Mrs. Annie Besant, with whose name the rise and progress of this institution is indissolubly connected, and many of her noble colleagues. I offer them my most cordial congratulations on the realization of their long cherished ideal. To the members of the Hindu community, the Princes and the people alike, as well as to the members of other communities, who have so nobly and spontane-

ously helped the University with their generous contributions, I tender my sincerest thanks and congratulations on the University having come into actual existence.

“ Before passing on to other matters I would, with your leave, refer to one point, arising out of the notification referred to above which deeply concerns both the students and the general public. That notification came into force on 1st October, 1917. So far as the Faculties of Theology, Oriental Learning and Law are concerned, no difficulty can arise, as the Central Hindu College had no classes in these subjects affiliated to any University. So far as these Faculties are concerned, the University will open its own classes now for the first time, on the lines laid down by the regulations. The College was, however, affiliated to the University of Allahabad in the Faculties of Arts and Science, and when the College re-opened in July last, it had classes teaching the courses prescribed by the Allahabad University and our students were preparing for the examinations of that University. Prior to the date the College re-opened, the Council had already moved the Government to consider the propriety of issuing the notification referred to above. The possibility of the Central Hindu College becoming a College of this University in the course of the current session was anticipated and the students seeking admission to the College in July last were apprised of it. The difficulty having been realised, to meet the case of students, who had already commenced their study of the courses of the Allahabad University, the Syndicate, at its meeting held on the 27th instant, passed a transitory regulation, and it has been approved by the Senate. The regulation runs as follows:—

“ Notwithstanding anything to the contrary contained in these Regulations, the subjects of examination, the courses of study, the text books prescribed, the tests and the standards prescribed for passing or taking a place in the various divisions or classes in the Intermediate Examination and in the Examinations for the degrees of Bachelor of Arts, Bachelor of Science, Master of Arts, and Master

of Science (Previous & Final) of this University for the examinations of 1918 and 1919, and in the case of candidates who fail in the examinations of 1919 for their re-examination in 1920, shall be the same as at present laid down or prescribed by the University of Allahabad for the corresponding examinations of that University for subjects for which classes were in existence on the 1st day of October, 1917, in the Central Hindu College at Benares. This Regulation shall remain in force up to the date of the declaration of the results of the examinations of 1919 and 1920, and till then, the attendance of the present students of the Central Hindu College, which would have counted for the examinations of the Allahabad University, shall be reckoned to be attendance at lectures in this University.

“Provided that the examinations of M.Sc. Previous (in Physics and Chemistry) of 1918 and M.Sc. Final of 1919, as also the M.A. Previous of 1919, shall be held in the courses prescribed by this University.”

“The transitory regulation will be now submitted to the Hon'ble the Visitor for his approval. On his according to his approval, the new regulation will come into force at once. Its effect will be that the students who were members of the Central Hindu College in October, 1917, will be able to pursue their studies in the Allahabad Courses for the first two years and will be examined by this University in them on the same lines, as in the Allahabad examinations. Failures of 1919 will have a further chance to sit for an examination under similar conditions in 1920 also. This, it is hoped, will remove all difficulties which were apprehended.

“I now pass on to the preliminary work done to enable the University to make a start in its work. The most important thing for establishing the University was the acquisition of site for various buildings. Among the conditions prescribed by Sir Harcourt Butler in his letter addressed to us in 1913 was the provision of a suitable site for the new University. I am happy to say that with the

help of the Local Government, we were able to acquire a plot of about 1300 acres, opposite Ramnagar, including the 45 acres acquired for laying the foundation stone. It was put in our possession on 22nd January, 1917. It has since been managed by a committee appointed by the University. Our thanks are due to Mr. Lambert, the Collector in charge of land acquisition, and his assistant, Pandit Sheokaran Nath Misra, for the considerate and tactful manner in which they have discharged their duties. I am happy to say that the whole land has been acquired without a single case going to Court, an event unique in the annals of land acquisition, and I may congratulate the Government on it. You can well imagine how difficult it is for a Zamindar or tenant to give up even an inch of land, and the University is grateful to the owners for the generous manner in which they have helped it in this matter.

“On 12th August, 1916, when I had the honour of addressing you on the occasion of the first meeting of the Court, the amount promised, including the valuation of the annuities granted by Indian States, came up to about 96 lacs, and the realisations to close upon 60 lacs. The amount promised has not risen since. The reasons are obvious. Owing to the war, it was considered inadvisable to send out deputations, as had been done in previous years, to obtain additional donations. But we have yet received some handsome donations in the course of the year, and some gifts, which had been promised, matured into completed transactions. I will first mention the establishment of the Chair of Ancient Indian History and Culture by the Hon'ble Maharaja Sir Manindra Chandra Nandi Bahadur, K.C.I.E., of Kasimbazar, who had promised a donation of one lac, but who very generously raised the amount to enable Government Promissory Notes of the face value of Rs. 1,72,000 being purchased for the endowment of the chair. We are extremely grateful to him for his generous donation. He has been from the very commencement a staunch and liberal supporter of the

University movement, and it is but appropriate and fitting that the chair which will commemorate his name should have as its objective, the investigation of problems of Ancient Indian History and Culture. Mr. S. V. Shanghavi, M.A., LL.B., of Bombay, representing a Board of Trustees, has made a gift of a sum of Rs. 2,350 for the institution of a prize to be named the "Swamiji Shree Madhusudanand Saraswati Shankar Vedant Prize" on terms settled between him and the University. Through the intervention and help of one of our foremost helpers, Seth Narottam Morarji Gokuldas of Bombay, the benefits of the Ganesh Balwant Limaye scholarships have been made also available to the Maharatta students of our University. The Mahant of Tarakeshwar who had promised a donation of a lac has executed a deed of trust securing an income of Rs. 3,500 a year chargeable upon immovable property, which is to be spent in giving scholarships and prizes specified in the deed of trust for the benefit of students of the Faculties of Oriental Learning and Theology. It is worthy of note that the largest donations that have been made since our first meeting in August, 1916, are for the encouragement of the study of, and investigation and research in, the sciences and culture of Ancient India and its religion and philosophy. The Hon'ble Raja Hari Har Prasad Singh

Amawan has also executed a gift of property valued at Rs. 50,000. A Marwari gentleman who has not permitted his name to be published has made a gift of Rs. 25,000 in cash, with a promise of further help. This has enabled us to build the new school building and to remove the C. H. School to it, and thus remove one of the difficulties in the issue of the Notification. Before leaving the subject of the finances of the University, I may draw your attention to the fact that the audited accounts now before you show that the value of the Capital Stock and Assets of the University to-day has reached the sum of one crore seven lacs and seventeen thousand rupees. An examination of the various statements compiled and the accounts

appended (vide appendix A) will show how that amount is made up, and for what purposes various sums have been given.

“The cost of the buildings required for the colleges in the five Faculties already sanctioned with the necessary laboratories, hostels, residences for professors and other administrative buildings, has been roughly estimated by the Chief Engineer, Rai Bahadur Ganga Ram, at between 35 and 36 lakhs—a very large sum to be called upon to pay. The actual buildings required now will cost 12 lakhs. If we are to start the other Faculties mentioned in the statutes, the cost of constructing buildings, etc., will be very large and the figure may run up to a crore of rupees. What we propose to do now, subject to your approval, is to start only so much of the work as is absolutely necessary for us to commence our work. We have consulted our engineer to ascertain whether and to what extent the cost of constructing these buildings during the war will be greater than what it would have been before the war. I am advised that so far as the hostels and staff quarters are concerned there will be no appreciable difference. The hostels as designed do not require any steel girders for the roof and the staff quarters also require but comparatively few of them. According to their calculations the cost of reinforced concrete roofs will be less than the cost of roofs with girders in pre-war times, and timber beams are decidedly cheaper. They are also of opinion that in the main college buildings and laboratories timber and reinforced concrete can be used. As to labour and bricks they find that they are decidedly cheaper now as no great public works are going on anywhere in the country. Therefore they propose to build an Arts College and a Science College, consisting of a chemical laboratory and a physical laboratory each of which is estimated to cost Rs. 3 lakhs. We have received great help from the famous chemist of Calcutta, Dr. P. C. Ray, from Dr. Mitter and from members of our staff in the planning of the laboratories. If we want good and

strong buildings, we will have to spend the money mentioned above. It is no economy to build a very cheap building to be pulled down later. Besides these buildings, we propose to build hostels, professors' quarters, etc. All this would cost between 12 and 13 lakhs. The accounts which are before you will show that excluding the amount which must be set apart according to the University Act as the reserve fund, and the investments for chairs, scholarships, prizes, medals, and provident fund, there is roughly speaking a sum of about 10 lakhs only invested in Government promissory notes of about the same face value available for building purposes. The present value of these notes is about 7 lakhs. We have arranged with the Bank of Bengal to overdraw our account to the extent of six lakhs if necessary at an interest of $5\frac{1}{2}$ per cent. per annum on the actual amount overdrawn for the time being at any time. We get Rs. 35,000 a year as interest on these Government Promissory Notes and for the full amount of six lakhs, if ever overdrawn, we shall have to pay Rs. 33,900 a year on account of interest. As a matter of fact the amount overdrawn is considerably reduced by payment from our income, and the balance due is not large. Taking every thing into consideration I think that we can safely go in for a building scheme costing up to 12 or 13 lakhs. There has been a great deal of misapprehension outside with regard to the work of the University. If there is any doubt it is for us to clear it, and that is why I have taken the opportunity of stating what has been done so far.

"I will now turn to the work done by each Faculty of the University during the year. Under the law we are, at present, authorized to have only five Faculties, *viz.*, those of Theology, Oriental Learning, Arts, Science (pure and applied) and Law. The act also provides for the establishment of the Faculties of Technology, Commerce, Medicine and Surgery, Agriculture etc. as soon as the Visitor is satisfied that sufficient funds are available for the purpose.

We are anxious to establish Faculties of Technology, Agriculture and Commerce as soon as possible. They await only the realization and collection of the money required for them.

“The Regulations for the first five Faculties have already been prepared under the orders of His Excellency the Viceroy and Governor-General in Council. The Faculty of Theology is under the Statutes in charge of the religious instruction of the Hindu Students of the University, and Statute 65 empowers it to organise studies in religion and the examinations thereon. The Regulations for examinations in Theology and the courses of study have already been passed, and at its meeting held yesterday, the Faculty has appointed a committee to organize religious worship and instruction in hostels. I need not deal with this matter at greater length. We must wait till the Faculty has formulated its proposals on this important subject. In the Faculty of Oriental Learning, there are three parallel courses of study prescribed. In each of them Sanskrit and an Indian Vernacular form compulsory subjects of study. In the first of these alternative courses a student may take up the courses in various branches of Sanskrit learning which are prescribed by the Regulations. This is for those who wish to pursue the study of Sanskrit on lines now prevailing. But care has been taken to provide that instruction in these subjects should be imparted on the most rational lines and that the pupils should receive a real education which will fit them for their work in life. It is for example proposed in teaching them astronomy to impart to them a knowledge of the discoveries made in the West and to familiarize them with the use of the telescope and other modern astronomical instruments. In teaching them mathematics, it is proposed to make them familiar with the advance made in mathematical science in the West. The object is to blend what is best in the East with what is best in the West in the education of our Pandits. The

second parallel course is one in which apart from Sanskrit, instruction is also given through the medium of the vernacular in History, Economics and other subjects which form part of the Arts course in our Universities. The third alternative course is that in which instruction in Sciences like Physics, Chemistry, Botany, etc. will be imparted through the medium of the vernaculars. Students may also take English or Ayurvedic medicine as optional courses. There has been a strong body of opinion in recent times in favour of imparting all instruction in our colleges through the medium of the vernaculars. The advocates of this policy will now have an opportunity of observing how the experiment will work in the College of Oriental Learning. I am aware that there are many who doubt that there will be any students willing to take up these alternative courses. But the additional cost involved in making the experiment is but small. For the English side, in Arts and Science, we have to make provision for instruction in all these subjects. We would thus have the necessary laboratories and the staff already, and all that will be required in addition would be the appointment of additional lecturers who would impart instruction through the medium of the vernacular. If there are no students in the vernacular classes in science, their services will be utilized for work in the English Department. It is of course not possible at present to say whether, and if so how many students in this Faculty will be attracted towards these alternative courses. The scheme, however, is an experiment which it is worth our while to make, and we hope it will be a success. The further development of these alternative courses of study will depend upon the demand that may arise for them, and we hope that the experiment now undertaken, which is a new feature in our educational system, will be a success.

“I will now refer to the work of other departments—the Faculties of Arts and Science. For them we have tried to get a good and strong staff. His Highness has most

appropriately laid great stress on the importance of securing good teachers, and I hope that if we spend money more freely in this department, you will not grudge it. Take the Science side. In Chemistry and Physics we have not only arranged to provide teachers to teach the ordinary courses but also to carry on research, which is a very important matter. It is research in science that has enabled foreign nations to make the great progress in science which they have made. Unless we make our students not only learn what has been discovered but also to learn to discover we shall never succeed. We must therefore inculcate among our students a spirit of keen research which alone can make our country what we desire it to be. Side by side with research we have arranged for practical instruction in the application of science to the affairs of life, and you will find in the room over there some samples of what we can do in the way of manufacturing articles. We have commenced to collect Indian mineral products, and I hope our Visitor will help us to secure from the Government of India a gift of the collections of the Geological Department. Prof. Nag is utilizing them in the manufacture of valuable chemicals for which there is much demand in our laboratories.

“We have thus, in the Faculty of Science, endeavoured to provide for instruction, in the application of Science to Industrial processes. When the Faculty of Technology comes to be established, some of the chairs in Applied Science can easily be transferred to it. You will thus see that we have gone as far as we could at present. This is perhaps much in advance of what other Universities in India have hitherto attempted to provide. You must also remember that under the provisions of our Act, the Visitor must be satisfied that the funds in hand are sufficient, and you cannot expect him to permit the opening of a new Faculty by starving the existing Faculties. It has been suggested that the difficulty might be got over by securing the services of Honorary

Professors who will be content with merely a bare living wage. No one would be happier than myself to secure the services of qualified teachers on these terms, but you must remember that we have to maintain not merely an ordinary College but a University. To make a good beginning we have to attract the best men available, either for love or for money, to give our University the status and reputation that it must possess. My own experience and that of most of my colleagues is that we cannot get men of the high qualifications required and in the numbers necessary at the present stage of our work without attracting them by the offer of suitable salaries. A moment's glance at the correspondence we have had so far on the subject will show that it is but a rare thing to secure men of the class we require without giving them salaries which they are elsewhere earning or are able to earn. When our own students have completed their education and join our work, it is possible, as in the Fergusson College, that we might at any rate fill the second rank of professors on much more favourable terms. We might even get a Paranjpe to take his place in the front rank of professors. We must, however, wait till we get our man. One Paranjpe will not meet the requirements of a whole University. I would, therefore, ask my friends who have been advocating a reduction of expenditure in the Faculties of Arts and Science in order to establish other faculties, to take into their serious consideration the practicability of the suggestions made by them. After all the final decision as to the sufficiency or otherwise of the fund in hands for the purpose lies in the hands of the Visitor. I would strongly urge upon them the necessity of continuing their efforts to secure the funds required and not to relax their endeavours and rely merely upon dividing the loaf between as many Faculties as they would like to create. I may be permitted to mention that our friend, the Hon'ble Pandit Madan Mohan Malaviya, to whose untiring devotion and earnest work the University

owes its existence, persuaded the Council to engage the services of that distinguished scholar and scientist, Dr. Mann on a salary of Rs. 2,000 p.m., but unfortunately he could not be persuaded, even with the help of Pandit Madan Mohan Malaviya's earnest advocacy, to put out his roots from where he was and to replant them in our sacred city. I may note that the Jodhpur Durbar has endowed a chair of Technology carrying a salary of two thousand rupees a month. It is only necessary to renew our efforts and collect more money to make the establishment of the Faculty of Technology an accomplished fact.

We have also amongst us strong advocates of the establishment of the Faculties of Agriculture and Commerce. While we have some nucleus in hand, which when further supplemented by additional funds, may make the establishment of a Faculty of Technology possible, we have none so far for these two Faculties. We have however endeavoured to ascertain the lowest sum necessary for the establishment of these Faculties. I believe with Rai Ganga Ram Bahadur, whom I am glad to have here amongst us, that the future of India must depend a great deal upon the development of agriculture. I also believe that our ryots with the resources available to them are not in a position to avail themselves of the improved appliances necessary for success in agricultural pursuits. Take for example, the question of the sugar industry. Its success in India is partly a question of agriculture, partly of science in actual manufacture, partly of politics in providing cheap rates for the transport of raw materials to manufacturing centres and of finished products to markets. We also want prohibitive tariffs for the support of nascent industries and countervailing duties to prevent the inroads of bounty fed manufactures from other lands. I would therefore strongly urge the establishment of an Agricultural College, but I fear here again the one poor loaf that we possess cannot support all the calls upon it. The Faculty of Commerce is

no less important, and I am glad that a project for creating it has been recently put forward. But here again I would urge upon the supporters of that scheme to join hands with us in collecting funds for it. Success is more likely to be attained by united efforts than by dissipating our energies in divided channels.

"I have recently heard a question, "Why establish a Faculty of Law and why not transfer the funds required for it to some other Faculties". I may be permitted to say at once that the Faculty of Law is expected to be a self-supporting one and to cost the University practically nothing. It would provide for students at least one opening in life which however crowded still supports many. If money could be saved by abolishing that Faculty I personally would have no objection to adopt that course for the present. I know that in some of our private or aided colleges the substantial amount of savings from the fees of law classes is an important addition to income to meet the expenditure of other departments. If you abolish the Faculty of Law you also deprive yourself of the income derived from it. There is nothing to be gained by accepting the suggestion. You know perhaps that our University has so far made no provision for opening a Law College.

"I have also heard a suggestion that we should drop the Faculty of Arts or Oriental Learning or Theology and confine our efforts to establishing Faculties of Technology and the like. The suggestion is indeed a desperate one. The Faculties of Oriental Learning and Theology constitute two characteristic features of the Benares Hindu University. Instruction in religion is a cardinal point of our scheme. Many persons have contributed their money for the support of education in these departments. I doubt very much whether the University would have been able to collect the amount it has but for these two characteristic features. To attempt to abolish them now is a counsel of despair. I know that the establishment of a Faculty

of Technology was also one of the planks upon which many of our supporters took their stand. But even for a Technological Department some general education, such as the Faculties of Arts and Science supply, is a necessary foundation to form the basis of University instruction. We are asked to open a Technological Institute for the University and not merely an Industrial School. It would therefore be necessary to maintain some institution for the necessary preliminary education needed for advanced work in Technology. You will then see that apart from other considerations, even for proper technical education in the University, the Faculties of Arts and Science must be maintained. The supporters of this proposal must also bear in mind that they propose to give up what they asked for and got from the Government and they now wish in substance to open instead a Technological Institute. I, as the Vice-Chancellor of the University, can only carry out what we have obtained already under the Act, and in addition try with your active co-operation for the more that we want. I cannot, I regret, join the band of despairers who would pull down the apartments that exist in their academic home in the hope of building others, which can only come into existence, if permitted by the constituted authorities. The fact that the exigencies of war and other like circumstances have not enabled us to collect up to this time, the full amount required for the establishment of the other faculties proposed, is no ground for demolishing what we have already got but is really a ground for redoubling our efforts to obtain that which is not yet in our hands. With our friend the Hon'ble Pandit Madan Mohan Malaviya amongst us—long may he live—and with the cordial help and co-operation of those ardent and enthusiastic spirits who have so strongly urged the establishment of these additional faculties, the time is not far distant when by the grace of Providence we shall be able to realize in a concrete form the aim and object we have in view."

(1) The address being over, the Vice-Chancellor stated that there was a small matter which he wished to place before the meeting, and that was the fixing of the time for the next annual meeting of the Court. His Highness the Pro-Chancellor had suggested that owing to the falling of the Dashehra festival in the month of October, it was inconvenient to him and to many others to attend the meeting of the Court in that month. He had however been able to arrange to come that day. It was suggested that the month of November was suitable for the meeting of the Court next year. The Vice-Chancellor was of opinion that that month could very well be fixed for the annual meeting of the next year. A formal notice of this proposal had already been given and he would therefore recommend to the Court that its next annual meeting should be held in November. Whether any permanent change was needed might be left over for the present until more experience was gained.

The suggestion was unanimously accepted and the month of November was fixed for the next annual meeting of the Court, the exact date and time in that month to be fixed by the Council.

The meeting was then adjourned to re-assemble immediately in the old School Hall.

(2) When the Court re-assembled, the minutes of the meeting of the Court held on the 18th February, 1917, which had been printed and circulated amongst members, were taken as read, and on the motion of the Hon'ble Pandit Madan Mohan Malaviya, B.A., seconded by Pandit Baldev Ram Dave, they were confirmed.

(3) The Hon'ble Pandit Madan Mohan Malaviya, B.A., then moved that Major-General His Highness Maharaja Sir Madho Rao Scindia Bahadur of Gwalior, G.C.S.I., G.C.V.O., LL.D., A.D.C., to His Majesty the King Emperor, be re-elected Pro-Chancellor for the next year. He said that they were very grateful to His Highness

for having accepted their request before and he hoped that His Highness would be pleased to accede to their request to continue to be their Pro-Chancellor for the next year. He need not dilate on the encouragement that had been given by His Highness to the cause of education in his State. His interest in education, particularly technical education, was well-known to all and they could not do better than to request His Highness to continue to be their Pro-Chancellor.

The Hon'ble Babu Sukhbir Singh seconded the motion and it was unanimously carried with acclamation.

(4) Rai Krishnaji then moved that the consideration of items Nos. 7 to 15 (both inclusive) on the agenda paper be taken up after all the other business before the Court was disposed of. He said the items, which he asked the members of the Court to give their consideration first, were those relating to questions of policy and he, therefore, thought they should be considered by them before they balloted for the retirement of members.

Babu Jnanendra Nath Basu, B.A., LL.B., seconded the motion.

The Hon'ble Pandit Madan Mohan Malaviya, B.A., LL.B., observed that the course suggested by Rai Krishnaji was not desirable. Item No. 6 and the succeeding ones were items which must be gone into first as they related to the constitution of the Court and the Council. They could not be allowed to stand over in preference to others which might be important from other points of view.

The Hon'ble Pandit Gokaran Nath Misra, M.A., LL.B., supported the Hon'ble Pandit Madan Mohan Malaviya B.A., LL.B.

Babu Bhagavan Das, M.A., said that the balloting out and re-election of members should be postponed till the end, in order that all the members present might be able to attend the business with the fullest interest.

Dr. Ganesh Prasad wished to endorse very emphatica

what had been said by the Hon'ble Pandit Madan Mohan Malaviya. The result of postponing the items relating to the election of officers and members of the Court would be that in case, the consideration of other questions was not finished, a number of gentlemen present would not find it convenient to attend afterwards to consider them and the constitution of the Court would remain incomplete and without all its officers. That was a serious difficulty.

Rai Krishnaji in reply urged the necessity of considering the matters of principle while the meeting was full, and as all the members present would not find it convenient to remain to the last, he thought that, that was a reason why the important questions relating to the policy of the Hindu University should be considered first.

The motion was put to the vote and lost.

(5) The Hon'ble Pandit Madan Mohan Malaviya, B.A., LL.B., moved that Mahamahopadhyaya Pandit Adityaram Bhattacharya, M.A., be re-elected Pro-Vice-Chancellor. He said that some gentlemen had done him (the Speaker) the honour of proposing him for the Pro-Vice-Chancellorship. The proposal was made perhaps under the impression that they would not be able to persuade Mahamahopadhyaya Pandit Adityaram Bhattacharya to continue in office. He was happy to be able to inform them that at their earnest request he had kindly agreed to help them on for another year. He need not dwell there on the many advantages of having him there to guide and advise them. It was a matter of grateful satisfaction that he had agreed to continue to be their Pro-Vice-Chancellor.

The Hon'ble Pandit Gokaran Nath Misra, M.A., LL. B., seconded the motion.

Mahamahopadhyaya Dr. Ganganatha Jha, M.A., D. Litt., then withdrew the notice he had given of his intention to move that the Hon'ble Pandit Madan Mohan Malaviya be elected Pro-Vice-Chancellor.

Babu Govinda Das said that he had given notice of an amendment by suggesting two alternative names, one of

them being that of Babu Bhagavan, Das M.A. When he had proposed that name, he, (the speaker) had not been able to consult Babu Bhagavan Das. In his opinion the Pro-Vice-Chancellor should be a nominee of the Vice-Chancellor. He, therefore, withdrew the name of Babu Bhagavan Das M.A., and moved that Rai Bahadur Gyanendra Nath Chakravarti, M.A., LL.B., be elected Pro-Vice-Chancellor.

Rai Bahadur Gyanendra Nath Chakravarti, M.A., LL.B., said that since Mahamahopadhyaya Pandit Adityaram Bhattacharya, M.A., had agreed to continue to be their Pro-Vice-Chancellor, he did not wish his name to be proposed as he did not like his name to be brought forward in competition with the name of his venerable Guru.

Babu Govinda Das's motion, therefore, dropped.

The motion of the Hon'ble Pandit Madan Mohan Malaviya was then put to the vote and carried unanimously.

(6) Babu Guru Prasad Dhawan, B.A., then moved that the Hon'ble Babu Moti Chand, C.I.E., be elected Honorary Treasurer for the next year.

Babu Madan Mohan Khanna seconded the motion and it was carried unanimously.

(7) Babu Guru Prasad Dhawan, B.A., moved that Pandit Mahadeo Prasad Acharya be re-elected Honorary Auditor for the next year.

The motion was seconded by the Hon'ble Pandit Gokaran Nath Misra, M.A., LL.B., and carried unanimously.

(8) The Vice-Chancellor, then, stated that under Statute 14 (4) one-fifth of the total number of the members of the first Court in each of the groups of class III mentioned in that Statute retire by ballot at the end of each year for the first four years. Under Statute 14 (2) ten persons were appointed by him under clause (c) of section 14 (1) Class III. Under ordinary circumstances the retirement by ballot would have been of two members but owing to the death of Mahamahopadhyaya Pandit Shiva Kumar Shastri, there was already one vacancy. The retirement

by ballot should, therefore, be of one member only. On a ballot being taken, Dr. Sir Gooroodass Banerji, Kt., M.A., Ph.D., LL.D., was declared to have retired by ballot.

(9) The Vice-Chancellor then mentioned the names of fifteen persons who were elected by the Court last year to represent Hindu religion and Sanskrit learning under Clause (d) of the said Statute, three of whom were to retire by ballot. The ballot was then taken and the following gentlemen were declared to have retired by ballot :—

1. Pandit Bulakiram Shastri of Ajmer.
2. Pandit Bhimsen Sharma of Sanskrit College, Calcutta.
3. Sashtri Hathibhai Harishankar of Jamnagar, Kathiawar.

(10) The Vice-Chancellor, then, stated that of the ten persons elected by the Court last year under Clause (e) to represent the Jain and Sikh communities, owing to the death of Rai Bahadur Seth Chaganmal of Ajmer, there was already a vacancy so far as the Jains were concerned. He observed that the ballot should be confined to the representatives of the Sikh community. On the ballot being taken, Major-General Bakshi Puran Singh of Kapurthala was declared to have retired by ballot.

(11) The names of the ten persons elected by the Court last year under Clause (f) to represent the learned professions were then read out and the ballot taken. The following two gentlemen were declared to have retired by ballot :—

1. Babu Jwala Prasad B.A., C.E., Superintendent of Works, Benares Hindu University.
2. Major Banana Das Basu, I. M. S., (retired) of Allahabad.

(12) The next item of business was the balloting out of one-fifth members of the Court who were elected last year by the Court under Clause (g) of the Class III of Statute 14 (d). When their names were read out, Mrs. Annie Besant pointed out that at the time the Central Hindu College with all its properties was handed over to the Hindu University Society, it was distinctly understood that the

old trustees of the Central Hindu College who were members of the Court were to be life members. If, by ballot, she was to retire, her re-election was, as the Statute, then stood, impossible. She thought it was unfair to her and a breach of the faith on which the Central Hindu College and its properties were made over to the University.

The Hon'ble Pandit Madan Mohan Malaviya said that there was no doubt that at one time it was understood that Mrs. Annie Besant and a certain number of the Trustees of the Central Hindu College were to be made life members and it was so provided in the draft of the bill that was prepared, but when it was submitted to the Government of India many changes were made in it, and the bill, as it was eventually passed, did not contain that provision. There was no help in the matter and so long as the statutes remain unamended, they should proceed according to them.

The Vice-Chancellor expressed his regret at his not being able to lay before the meeting a full and complete statement of facts upon the question referred to by Mrs. Annie Besant as owing to the recent transfer of the University Office from Allahabad to Benares; it was not easy to lay hands upon the papers on the subject. He, therefore, tried to lay before the meeting only such facts as he could state from memory subject to such correction as a reference to the record might necessitate. So far as he remembered, it was in 1911 when the promoters of the several schemes for a University met together that it was agreed amongst them that in the first governing body of the University, Mrs. Annie Besant and representative trustees of the Central Hindu College were to be life members. This draft was considered for several days at the meetings held at Allahabad and in the amended draft it was provided that Mrs. Annie Besant and such and so many trustees of Central Hindu College as the Board might elect were to be made life members. When

the Hindu University Society was formed Mrs. Annie Besant was elected a Vice-President of the Society. There was, later on, a split amongst the members of the Theosophical Society which led to the resignation of some of the members of the staff of the Central Hindu College, and although Mrs. Annie Besant was formally a President of that body, yet she was for all practical purposes out of it. In the meantime, she also resigned the Vice-Presidentship of the Hindu University Society.

There was no condition that Mrs. Annie Besant or any other trustee of the Central Hindu College was to be a life member of the University Court in the terms proposed in December, 1913, by the Board of Trustees of the Central Hindu College for the amalgamation of that College with the Hindu University Society. Those terms subject to slight modifications were accepted by the Hindu University Society and the two Societies were duly amalgamated. Before the bill was introduced in the Legislative Council, a draft of the bill was printed and sent to all the members of the Society and to some important personages throughout India for opinion and criticism, and a meeting of the Hindu University Society was held in January, 1915 at which Sir Gooroo Dass Banerjee presided. At this meeting the provisions of the bill were considered in detail and certain conclusions were arrived at. At that meeting a sub-committee consisting of the Hon'ble Pandit Madan Mohan Malviya, Mahamahopadhyaya Pandit Adityaram Bhattacharya, Babu Bhagavan Das and the speaker was formed to meet the Education Member of the Government of India and to settle with him finally the provisions of the University Bill, the Statutes and the Regulations, as far as possible on the lines settled at the meeting. The draft settled at that meeting of the Society did not provide life-membership in the University Court to the Trustees of the Central Hindu College. About the end of March, 1915, the Hindu University Bill was introduced into the Legislative Council. It

was published in the Gazette of India and reprinted by the Hindu University Society. Before the end of April, a copy of this reprint was sent to all the members of the Society and others taking interest in the University and opinions were invited thereon. Even then there was no complaint, that the bill did not provide life-membership for the Trustees of the Central Hindu College. Mrs. Annie Besant was probably not in the country. The Vice-Chancellor said that if under the circumstances when there was no condition of life-membership for the Trustees of the Central Hindu College in the terms of amalgamation of the Central Hindu College Society with the Hindu University Society, when there was no suggestion of the kind at the different stages at which the draft was considered, when a certain draft was approved at a meeting of the Hindu University Society on the lines of which an Act was to be passed, and when the Act was actually passed, as far as possible, on those lines, it was hard to accuse those who tried to do their best of unfairness or breach of faith. As the Statutes then stood there was no remedy but to proceed with the business as indicated in the Statutes.

Babu Bhagavan Das said that if by chance the name of Mrs. Annie Besant was balloted out, a serious situation would arise and he therefore suggested the postponement of the balloting out of members till such time as the Statutes were amended.

Mrs. Annie Besant observed that her object in laying the matter before the Court was that she might not be understood to have acquiesced in the provision of the Statutes.

Bhai Sardul Singh suggested that the difficulty pointed out by Mrs. Annie Besant might be avoided if four of the members elected under Clause (g) of Class III of Statute 14 (1) agreed to vacate their seats and thus render retirement by ballot unnecessary.

Babu Jnanendra Nath Basu, B.A., of Rajnagar Darbhanga,

Babu Govinda Das of Benares,

Babu Kali Charan Mitra, B.A., of Benares and

Babu Durga Prasad, B.A., of Benares,

volunteered to resign their seats and they were allowed to do so.

(13) The Vice-Chancellor, then, observed that the retirement by ballot amongst the thirty members of the Court elected under Clause (b) of Class III of Statute 14 (1) by the registered donors of Rupees five hundred or upwards remained to be done. He said that Professor D. K. Karve, M.A., and Lala Munshi Ram, now known as Swami Shraddhananda, had resigned their seats and therefore only four members had to be balloted out. On the ballot being taken, the following persons were declared to have vacated their seats :—

1. Professor Jadu Nath Sarkar, M.A., P.R.S., of the Central Hindu College, Benares.
2. Lala Lajpat Rai, Vakil of Lahore.
3. Dr. Brajendra Nath Seal, M.A, Ph.D., of Calcutta.
4. Pandit Sankata Prasad Bajpai, B.A., of Kheri.

(14) The Vice-Chancellor said that the retirement of the members of the Court by ballot under Statute 14 (4) was now over and the next item of business was to fill up the vacancies thus created in the membership of the Court. Of these 6 would be filled up by election by the registered donors of Rs. 500 or upwards and two by the Senate. The remaining vacancies were to be filled up by the Court.

The Hon'ble Pandit Madan Mohan Malaviya, B.A., LL.B., proposed that

1. Shastri Hathibhai Hari Shankar of Jamnagar.
2. Pandit Bhimsen Sharma of Sanskrit College, Calcutta.
3. Mr. Deshikachariar.

be elected members of the Court under Clause (d) of Class III of Statute 14 (1).

Mahamahopadhyaya Dr. Ganga Nath Jha, M.A., D. Litt. rose to a point of order and enquired whether a member was at liberty to propose a name, of which he had given no notice, for the membership of the Court. If no notice was necessary he would propose the names of

1. Mahamahopadhyaya Pandit Parmeshwar Jha of Darbhanga.
2. Pandit Durga Prasad Drivedi of Jaipur.

in addition to the name of Shastri Hathibhai Hari Shankar of Jamnagar for election as a member of the Court under Clause (d) of Class III of Statute 14 (1), and Mahamahopadhyaya Pandit Hara Prasad Shastri said that he would second the proposal.

Babu Mangala Prasad, M.A., said that twenty days previous notice was essential under Statute 34 if any person was to be proposed a member of the Court.

Babu Bhagavan Das observed that Babu Gur Prasad Dhawan, B.A., had given notice for re-election of the retiring members and his proposal could be considered.

Babu Ajit Prasad, M.A., LL.B., said that if Babu Mangala Prasad was right, no one could be appointed in place of those who were dead as no proposal was made to represent the Jain Community in place of Rai Bahadur Seth Chhaganmal of Ajmere who had died.

The Vice-Chancellor ruled that notice was necessary if any person was to be proposed as a member of the Court.

Babu Bhagavan Das, M.A., suggested the desirability of adjourning the meeting for a short time to enable the members to give timely notice of their proposals.

The sense of the meeting was against the suggestion.

Babu Gur Prasad Dhawan, B.A., proposed that

1. Shastri Hathibhai Hari Shankar of Jamnagar.
2. Pandit Bhimsen Sharma of Sanskrit College, Calcutta.
3. Pandit Bulakiram Shastri of Ajmer.

be re-elected under Clause (d) of Class III of Statute 4 (1).

The Hon'ble Pandit Madan Mohan Malaviya, B.A., LL.B., seconded the motion and it was carried unanimously.

(15) Babu Gur Prasad Dhawan, B.A. proposed that

Major-General Bakshi Ram Singh.

be re-elected as a member of the Court under Clause (e) of Class III of Statute 14 (1). Rai Salig Ram Thapar Bahadur seconded the motion and it was carried unanimously.

(16) Babu Gur Prasad Dhawan, B.A., proposed that

1. Babu Jwala Prasad, B.A., C.E., and
2. Major B. D. Basu, I. M. S., (Retired)

be re-elected members of the Court under Clause (f) of Class III of Statute 14 (1).

The Hon'ble Pandit Madan Mohan Malaviya, B.A., LL.B., seconded the motion.

Babu Mangla Prasad, M.A., proposed that the Hon'ble Dr. Deva Prasad Sarbadhikari, M.A., LL.D., C.I.E., of Calcutta, and Babu Gauri Shankar Prasad, B.A., LL.B., of Benares, be elected members of the Court under Clause (f) of Class III of Statute 14 (1).

Babu Mahadeo Prasad, M.A., LL.B., seconded the motion.

On the ballot being taken, the following gentlemen were declared duly elected members of the Court under Clause (f) of Class III of Statute 14 (1).

1. The Hon'ble Dr. Deva Prasad Sarbadhikari, M.A., LL.D., C.I.E., of Calcutta.
2. Babu Jwala Prasad, B.A., C.E., of Benares.

(17) Babu Gur Prasad Dhawan, B.A. proposed that the following gentlemen be re-elected members of the Court under Clause (g) of Class III of Statute 14 (1).

Babu Jnanendra Nath Basu, B.A.,

Babu Govind Das, of Benares,

Babu Kali Charan Mitra, B.A., of Benares.

Babu Durga Prasad, B.A., of Benares.

The motion was seconded by the Hon'ble Pandit Madan Mohan Malaviya, B.A., LL.B., and was carried unanimously.

(18) Mr. Makanji J. Mehta, B.A., LL.B., of Bombay, asked permission to take up the proposal standing in his name out of order as he was to leave the station that evening. This was agreed to and item number 17 on the Agenda Paper was taken up.

Mr. Makanji J. Mehta, B.A., LL.B., of Bombay moved that the following words in Agenda No. 17 be omitted:—

“And to report as to what funds have been provided for the purpose.”

The Vice-Chancellor ruled that unless there was a formal motion before the Court on which the proposal of Mr. Makanji J. Mehta could be taken as an amendment, his motion in the form in which he moved could not be taken into consideration.

(19) On the motion of Rai Salig Ram Thapar Bahadur, seconded by Sardar Bachan Singh, a committee consisting of

His Highness Maharaja Ripudaman Singh Malvandar Bahadur,
F.R.G., M.R.A.S., of Nabha.

Bhai Arjun Singh Sahib of District Ludhiana.

Rai Bahadur Lala Salig Ram Thapar of Lucknow.

Sardar Bachan Singh of Nabha.

Sardar Puran Singh of Kapurthala.

Dewan Lila Ram Singh of Hyderabad (Sindh.)

Bhai Sardul Singh of Delhi (convener)

was appointed to consider and make definite proposals for the religious instruction of the Sikh students of the University and to report about the funds that had been provided for the purpose.

(20) On the motion of Pandit Sital Prasad Brahmachari, seconded by Babu Ajit Prasad, M.A., LL.B., a committee consisting of

Makanji, J. Mehta, Esq., B.A., LL.B., of Bombay.

Babu Nihal Chand, B.A., of Benares.

Babu Ajit Prasad, M.A., LL.B., of Lucknow (convener)

and the mover was appointed to consider and make definite proposals for the religious instruction of the Jain students of the University and to report what funds had been provided for the purpose.

(21) On the motion of the Hon'ble Pandit Madan Mohan Malaviya, seconded by Pandit Baldev Ram Dave, the meeting was adjourned to the following day to meet at 12 noon.

54. Munshi Mahadeo Prasad, M.A., LL.B.

(1) The Vice-Chancellor said that under Statute 19 (1) Class II, five members of the Senate were elected by the Court. Under Statute 19 (3) one fifth of the number had to retire by ballot and the Senate declared the retirement by ballot of Sir Gooroodas Banerji.

Babu Gur Prasad Dhawan, B.A., moved that Sir Gooroodas Banerji, Kt., M.A., Ph. D., LL.D., of Calcutta, be re-elected to the vacancy in the Senate under Statute 19 (1) Class II (a).

The Hon'ble Pandit Madan Mohan Malaviya, B.A., LL.B., seconded the motion and it was carried unanimously.

(2) The Vice-Chancellor said that the Court would now

proceed to ballot for the retirement of one third or as nearly as may be of the members of the Council elected under Statute 17 (1) (ii) and to elect members in place of those retiring by ballot. The number of members of the Council was 30. Of these five were to be elected by the Senate and 25 by the Court. Of the 25 to be elected by the Court, five were to be from among persons resident in provinces other than the United Provinces. Under the Statute, one-third of the total number of members should retire. One-third of five would be *one* or *two*. If they took *two*, one of the members would have to retire before his time. In view of this difficulty and in view of the language of the Statute, he would suggest that they should interpret the Statute in favour of the member retaining his seat. In that view the nearest approach of five would be one. If they interpreted the Statute in that way, of the members elected by the Senate and by the Court from among persons resident in other provinces, two should retire one from each set. Rai Nihal Chand had resigned the membership of the Council. Therefore, they had to ballot now for the retirement of five in the one case and one in another.

Rai Nihal Chand said that he might be allowed to withdraw his resignation and he was allowed to do so.

The undermentioned gentlemen were then balloted out:—

1. Sardar Bachan Singh of Nabha.
2. The Hon'ble Dr. Tej Bahadur Sapru, M.A., LL.D., of Allahabad.
3. Munshi Iswar Saran, B.A., of Allahabad.
The Hon'ble Maharajah Sir Rameswar Singh Bahadur, G.C.I.E., of Darbhanga.
5. Rai Gyanendra Nath Chakravarty Bahadur, M.A., LL.B. and
6. Babu Govinda Das.

Babu Gur Prasad Dhawan proposed that the six retiring members be re-elected to the Council under Statute 17 (1) (ii). Pandit Sankata Prasad seconded the proposal.

Babu Mangala Prasad, M.A., proposed that the Hon'ble

Mr. C. Y. Chintamani be elected a member of the Council under Statute 17 (1) (ii).

Rai Krishnaji seconded the proposal.

Rai Gyanendra Nath Chakravarti Bahadur, M.A., LL.B., proposed that Babu Jnanendranath Basu, B.A., Babu Jwala Prasad, B. A., C. E., and Dr. Mahendra Nath Ohdedar, be elected members of the Council under Statute 17 (1) (ii).

Rai Ganga Ram Bahadur, M. C. V. O., seconded the proposal.

Babu Govind Das proposed that Babu Shiva Prasad Gupta be elected member of the Council under Statute 17 (1) (ii).

Babu Durga Prasad, B.A., seconded the proposal.

Pandit Baldev Ram Dave proposed that Babu Gur Prasad Dhawan be elected a member of the Council under Statute 17 (1) (ii).

The Hon'ble Pandit Madan Mohan Malaviya, B.A., seconded the proposal.

Bhai Sardul Singh said that he wished to draw the attention of the Court in this connection to one point, before votes are taken. Sardar Bachan Singh had retired by ballot, and if he was not re-elected, there would not be any representative of the Sikh community on the Council.

Votes were then taken on the various proposals with the result that the following gentlemen were declared duly elected :—

1. Sardar Bachan Singh.
2. The Hon. Dr. Tej Bahadur Sapru, M.A., LL. D.
3. Rai Gyanendra Nath Chakravarti Bahadur, M.A., LL.B.
4. The Hon. Mr. C. Y. Chintamani.
5. Babu Govinda Das.
6. Babu Gur Prasad Dhawan, B. A.,

ADITYARAM BHATTACHARYA,
Pro-Vice-Chancellor.

At this stage His Highness the Pro-Chancellor arrived and took his seat.

(3) The Court then balloted for the retirement of one of the gentlemen elected from among persons resident in provinces other than the United Provinces. On the ballot being taken, Mr. V. R. Pandit of Nagpur was declared to have retired by ballot.

(4) On the motion of Babu Gur Prasad Dhawan seconded by Pandit Baldev Ram Dave, Mr. V. R. Pandit of Nagpur was unanimously re-elected under Statute 17 (a).

(5) Babu Gur Prasad Dhawan proposed that the resignation of Babu Bhagavan Das, M.A., of his membership of the Board of Appointments be not accepted and that he be asked to reconsider it.

The Vice-Chancellor pointed out that owing to his resignation no ballot had taken place. The only method in which he could be brought on the Board of Appointments again was by proposing his re-election.

Babu Gur Prasad Dhawan, B.A., then proposed that Babu Bhagavan Das, M.A., be re-elected to the Board of Appointments, under Statute 17 (1) (iii.)

Pandit Baldev Ram Dave seconded the proposal.

Babu Bhagavan Das said that he would like, with the permission of the Vice-Chancellor, to make a statement with regard to this matter. He was asked by the Council in February last to prepare a note on the question of the recruitment of the Staff, how it should be recruited, under what conditions, what should be the period of probation, etc. He accordingly prepared a note on the subject and to the best of his recollection, after stating certain general considerations, he mentioned six definite proposals. Out of these proposals forming one organic scheme only two had been somewhat cursorily discussed by the Council and the others remained yet unconsidered. It was under those circumstances that he found his position on the Board delicate. He could not make up his mind to vote on matters coming before it in the absence of settled principles on which appointments should be made. That

difficulty still remained unsolved. In view of this difficulty he begged his friends not to press for his re-election.

The Vice-Chancellor said that Babu Bhagavan Das was a member of the Finance Committee then and he believed he was still on it. A note containing certain proposals showing what the total cost was likely to be of providing for the departments the University could undertake under the Statutes, was prepared. In December, 1916, Babu Bhagavan Das very kindly sent him a note asking for the consideration of certain proposals. Owing to his absence from the meeting of the Finance Committee it was postponed to enable him to come and discuss the matter in the meeting. That was partly done at a subsequent meeting at Benares. The meeting was then adjourned to meet at Allahabad. They discussed the matter and arrived at certain conclusions. Then there was another meeting in January when they were considered again. The proposals then came up before the whole Senate which came to a decision on only two points and there were some points that were still to be considered. His impression was that the points remaining undecided had no bearing on the points for decision before the Senate. They were subsequently considered by the Council. If anything remained undiscussed there was no bar to their being placed before the Council again. He (the Vice-Chancellor) thought that the Board of Appointments had nothing to do with it. It was the Finance Committee, the Senate and the Council that had to do with it. He had no objection to place such portion of the scheme as he desired at the earliest meeting of any of those bodies. He hoped that this statement would satisfy Babu Bhagvan Das, and that he would have no grievance.

Babu Bhagavan Das said that he was perfectly willing to take up the service of the Board again as soon as what the Vice-Chancellor was pleased to call a "grievance" was remedied. Till then he should be more or less in the unfortunate position of an obstructionist as far as the

Board of Appointments was concerned. If his note had been fully discussed and a final decision had been arrived at by the Council he should be constitutionally bound by that decision, whatever might be his own views. But so long as his "grievance" was unremedied he would not be in a position to be of effective service to the Board.

The Vice-Chancellor said that he was quite willing to do whatever he could. At that moment there would be no meeting of the Finance Committee or of any other body and so his grievance could not be remedied that day. All that he could say was that the matter would be laid before the meeting.

Babu Bhagavan Das :—If you will add to that a time limit, I will agree.

The Vice-Chancellor said that he would see that the proposals were laid before the meeting before December.

The Hon. Pandit Madan Mohan Malaviya dealt with the various proposals made by Babu Bhagavan Das and explained the action taken by the Finance Committee on them. As regards grading, the Committee made certain changes in the proposals. As regards honorary workers the University had some honorary workers and hoped to get more.

B. Bhagavan Das :—There are only two honorary workers on the educational staff—Prof. Bhattacharya and Prof. Shama Charan De. So far as I am aware the new regime had not secured a single honorary worker on the educational staff.

Pandit Malaviya said that they might have failed to get workers but the principle was conceded. As regards the terms of service they adopted his suggestion. They got Professor Sarkar for five years.

The Vice-Chancellor said that six proposals were made by Babu Bhagavan Das. One was about the declaration to be made by a member of the staff before undertaking his duties. That was accepted by the Council. The second was about the graded service and remuneration. He

had proposed three grades (1) Rs. 100 to Rs. 200 (2) Rs. 200 to Rs. 400 (3) Rs. 400 to Rs. 600. The Council considered his proposal and came to the conclusion that the grades should be (1) 100-10-200 (2) 200-10-300 (3) 300-20-500 and (4) 500-50-750. His third proposal related to the method of recruitment and indicated that it was to be by advertisement, etc. That method was followed. The fifth proposal recommended "short term contracts." The Council had adopted a form of contract of engagement which every member of the Staff would have to execute. Under it a term of the member of the staff engaged in India was one year and for others two years subject to the conditions mentioned in the agreement. As for the last suggestion about Honorary Professors, there can be no gain-saying it, and the Council had adopted it by securing a number of Honorary members on the staff. Their work had yet to be defined. All the proposals were fully considered and to a large extent they were adopted.

Babu Bhagavan Das said that it was very easy to explain away, but the fact was that his proposals had to be considered. He understood the Vice-Chancellor to say that the matter would be settled before December. If his friends were desirous that he should be on the Board of Appointments and if the Vice-Chancellor would kindly give him hopes that his notes would be fully considered in all its bearings, he was at their service. Otherwise there were many who could do the work better than he could.

The Vice-Chancellor said that he had already said that he would call a meeting. He wanted to know before which body B. Bhagavan Das wanted the matter to be placed.

Babu Bhagavan Das :—Before the Council.

The Vice-Chancellor :—Then it could be placed before it on Sunday next.

Pandit Malaviya did not think that the Vice-Chancellor should bind them to a particular meeting.

Pandit Hirday Nath Kunzru wanted to know if Babu Bhagavan Das had finally withdrawn his resignation after the statement of the Vice-Chancellor.

The Hon. Mr. Chintamani asked the Vice-Chancellor to let them know whether the resolution under this head would be that B. Bhagavan Das had withdrawn his resignation, or that he was re-elected, or that he was re-elected on such and such conditions. After the resolution had been put before the meeting so much discussion had taken place that they wanted to be enlightened on the exact proposal on which they would be asked to vote.

Babu Bhagavan Das :—I pray that some other gentleman be appointed in my place.

Babu Mangla Prasad, M. A. proposed that Sir Gooroo Das Banerji, M.A., LL.D., Ph. D., of Calcutta, be elected under Statute 27 (1) (iii) as a member of the Board of Appointments in the place of Babu Bhagavan Das.

The Hon. Pandit Madan Mohan Malaviya, B.A., LL.B., seconded the proposal.

Babu Gur Prasad Dhawan, B.A., proposed that the Hon. Pandit Gokaran Nath Misra, M.A., LL.B., be elected a member of the Board of Appointments under Statute 27 (1) (iii.)

Pandit Chedda Lal, B.A., seconded the proposal.

Babu Shiva Prasad Gupta proposed that the Hon. Dr. Tej Bahadur Sapru, M.A., LL.D., be elected a member of the Board of Appointments under Statute 27 (1) (iii.)

Rai Gyanendra Nath Chakravarti Bahadur, M.A., LL.B., seconded the proposal.

Sir Gooroo Das Banerji, Kt., M.A., Ph.D., LL.D., of Calcutta, was eventually elected, having secured 35 votes.

(6) On the motion of Rai Ganga Ram Bahadur, M. V. O., seconded by Babu Jnanendra Nath Basu, B.A., the consideration of item No. 15 on the Agenda was postponed till after the consideration of the proposal of Babu Shiva

Prasad Gupta contained in item No. 19 (1) on the Agenda Paper.

(7) Pandit Baldev Ram Dave then moved that the proviso to sub-section 5 of Statute 17 of the University be amended by substituting the word "Council" for the expression "Court" wherever it occurred in the proviso. The motion was subsequently withdrawn when it was pointed out that the proviso of the Statute so far as the matter of the proviso posed amendment was concerned would become extinct as soon as the next annual meeting of the Court was over.

(8) The proposals, of which notice had been given by Dr. Radha Kumud Mukherji, fell to the ground as the mover was absent.

(9) Babu Shiva Prasad Gupta moved the following resolution :—

"That no paid Government servant shall be appointed as the President or responsible official of any committee, sub-committee or Board under the Benares Hindu University."

The mover, who spoke in Hindi, said that no Government servant should be the permanent president of any University body including the Board of Studies and Faculties.

Babu Bhagavan Das, in seconding the resolution said that this University was a people's and an unofficial University and in such a University what he might not insignificantly describe as "unofficialism" should have a fair and free chance for experiment and "officialism" should stand beside benevolently looking at it, extending a helping finger only when the struggling baby made an exceptionally bad tumble. That was all that was meant by the mover. Absolutely no opposition of any kind to official ways and methods was meant. By "responsible official" the mover meant the official who was in charge of guiding the policy of any department of the University. Executive subordinates might be selected from among Government servants.

The Vice-Chancellor:—Does any one guide the policy except the body itself?

Babu Bhagavan Das said that ordinarily in practice the head of the body did to a great extent guide the policy. His influence was felt by every member. The policy of the Hindu University in all its departments should be guided by non-officials.

The Vice-Chancellor:—By Government servants do you mean British Government servants alone?

Babu Bhagavan Das:—Yes, not of the States.

Mrs. Besant, who opposed the resolution, said that in this matter she should continue the old policy of the Central Hindu College. There they did not make any distinction between Government officials and others. They tried to choose the best men and in that choice they took into consideration not only the man's knowledge and capacity but also his patriotism and devotion to the country. That seemed to her to be a good policy if they were not to assume a Government servant was neither a man nor a patriot. In the Central Hindu College they had received the best advice from Rai Gyanendra Nath Chakravarty Bahadur during all those years. Because he was a Government official was he not to be put in a place where his talents would be useful to the country. She quite realized the danger of official grooves but they should remember that those gentlemen appointed as presidents or responsible officials of committees or sub-committees were appointed by the University bodies themselves. It was not as though Government were to appoint them. If that be the case she confessed she should have sided with the mover and said that that would be officialising the University. On principle she objected strongly to limiting their choice of men. Just at that moment when great political changes were on the threshold it seemed unwise to suddenly introduce a restriction that they in the Central Hindu College had never made, even when they had reason to introduce it. A Government servant,

however strong a politician he might be, must not enter the political world and she thought it would be hard on him if the educational sphere also was closed to him.

Dr. Ganesh Prasad opposed the resolution. He asked who were to be considered as Government servants? Were they to include among Government servants a man like Dr. P. C. Roy? Were they to include special constables also? The resolution said that Government servants should not be presidents or responsible executive officials of any committee of the University. These things conveyed no definite meaning to any one. Take the Board of Studies for instance. There they had no Chairman or Executive official. Of course, there was the convener, but he did not guide the policy of the Board. Take again the Faculties. There they had deans and he asserted in the presence of two deans that none of them could legitimately claim to be the leading members of any of the bodies. They had no higher status than any member. He asked the meeting to go a little higher and to take the case of the heads of the University. If they adopted the resolution what would be the result? They would be hampered in their selection of the best men. In India, as in many other countries, the number of experts was very small and if among that small number of experts they went on differentiating between Government servants and retired Government servants and others they would bring in a great deal of disorganization in the University.

Babu Govinda Das said that he wished to correct an error into which Mrs. Besant was led. Rai Gyanendra Nath Chakravarti Bahadur's advice was available to them in the Central Hindu College but he had never been given a controlling hand.

Dr. M. N. Ohdedar in further opposing the resolution said that he did not understand what was the main object with which Mr. Gupta brought forward this proposal. As far as he understood (he was stating this subject to correction) there were five or six Government servants who

were at present connected with the University. If the Court or any other body elected one or more of these Government servants as members of a committee, they could not tell to them, thus far and no further! If they appointed any one of them as a member of a committee and told him that he could not be the president of that committee, did they think that his self-respect would allow him to continue there? Was it just, was it fair, that they, should be asked to join the University and then told that they had no confidence in them, that they did not trust them, that they would not give them any responsible office? What did this resolution mean? It means that they had no confidence in these Government servants. If they had no confidence in them, they could not expect them to take interest in the meetings of the Faculties or committees of which they were members. This proposal was nothing but an insult to the Government servants who were connected with the University and he, therefore, humbly but emphatically opposed it.

The Hon. Pandit Malaviya, who spoke in Hindi, said that they had the right of electing any one they liked as heads of departments. As long as they had that right he did not think there was any necessity for this resolution. It was superfluous. If the resolution was passed they would never elect Sir Asutosh Mukherji as their Vice-Chancellor in future. He hoped that the mover would withdraw the resolution.

The mover in the course of his reply said that in the Central Hindu College they had Government servants but they were never presidents. In some matters the University had to differ from the Government and in such cases Government servants would find themselves in a difficult position. Generally they could not speak plainly and freely. He however withdrew the resolution.

(10) Babu Shiva Prasad Gupta next moved :—

That so long as all our educational requirements are

not fully defined and the plans of the buildings required to meet the same are not settled so long the actual work of construction shall not be commenced. Further that a special meeting of the Court shall be summoned at an early date for the full and proper discussion and decision of the requirements stated before.

The Hon. Mr. Chintamani suggested that before the mover proceeded further he would like to ask whether it would not be convenient for them to take up along with this resolution one or two other resolutions on the Agenda which related to the same subject.

The Vice-Chancellor said that they would be taken up along with Mr. Gupta's proposal.

Babu Shiva Prasad Gupta in a Hindi speech explained his views and urged that the University should observe economy in the construction of their buildings and instanced with approval the policy pursued in Japan in this matter.

Babu Bhagavan Das, M. A., moved the following amendment :

That this Court requests the University Council to draw up a full prospectus of the aims and objects of the Benares Hindu University and the means by which they should be endeavoured to be realised in the shape of (a) the colleges which should be established (with estimates of the initial and annual costs of each and the successive order in which they should be started, (b) the tone and ideals which should be fostered, (c) the nature of the religious instruction which should be given, and (d) the kind and quality of the staff which will be needed and the methods by which it should be secured ; further that this prospectus be brought up before a meeting of this Court to be held in April, 1918, for discussion and sanction with such modifications as may appear necessary ; also that until such a prospectus has been sanctioned by this Court no expenditure should be incurred on any work such as new appointments, buildings, etc., which is not

absolutely indispensable for the carrying on of the work of the Benares Hindu University.

Babu Bhagavan Das said that as a member of the Court and Council and also of the Senate and Syndicate he must confess that he personally was yet in the dark as to what exactly they intended doing. There was no doubt that printed minutes occupying hundreds of pages had been sent out; but so far as he was aware no scheme in any completeness had been discussed as to what colleges they intended to start and in what order they were going to start them. It appeared from what the Vice-Chancellor had said that all their settled income would be taken up for the development of the Central Hindu College on its arts side and science side, for schools, and for the addition of a department of applied science. He was a layman in this matter and he was perfectly willing to abide by the decision of experts. If a committee of experts was called that those were the only things they could start with the funds in hand, he would be satisfied; but until then there would be an uncomfortable feeling in his mind that they could do much more with the money they had than what they were doing. Under the old regime the Central Hindu College taught 400 students at a recurring cost of Rs. 40,000 a year. If they doubled the cost they would probably secure all the expansion they required on the arts and theoretical science side. Then they would have some money which they could utilize for starting agricultural, technical and commercial colleges on a very small scale. The public were led to believe by Malaviyaji and other leaders that their University would be a complete Panchanga baby. It was not usual that the limbs of a baby would develop one at a time. They would grow simultaneously. He understood from Rai Ganga Ram Bahadur and from the note sent by Mr. Higginbottom that a sum of Rs. 30,000 or Rs. 40,000 was sufficient for starting a college of agriculture. This was however, a matter for experts and if

committee of experts satisfied the Council that it was utterly impossible to do anything of the kind with the present funds he would be satisfied. He proposed that this should be done and meanwhile, all expenditure which was not absolutely indispensable only should be stopped.

Rai Krishnaji seconded the amendment.

Pandit Baldev Ram Dave moved the following amendment :—

That this Court is of opinion that the necessary University buildings at Nagwa should be completed as soon as the present war conditions permit to enable the University being transferred to that side as soon as practicable and that the Council be asked to take all such steps as may be required to give effect to this resolution and that the present Central Hindu College premises be used for the accommodation of the Central Hindu School as reconstituted under Statutes 72 to 81 of the University as soon as the necessary buildings at Nagwa are ready.

He said that they might draw up a prospectus but they should go on with the building work as the present buildings were not sufficient for their purposes.

Babu Govind Das seconded the amendment.

The Hon. Pandit Madan Mohan Malaviya said that he was in sympathy with the object of his friend, Babu Shiva Prasad Gupta. He was as anxious as his friend that they should economise. They should also recognise what the conditions were under which the University work had to be done. If his friend's proposal was accepted, the result would be that the building work would be delayed and they would not be able to make the progress they should. His proposal stated that as long as their educational requirements were not defined so long actual work of construction should not be commenced. Their educational requirements were fully defined when the University was incorporated. In order to carry out the objects defined in the Act they required money and they could only carry them out in course of time. The mover spoke on the

need of economy. He, the speaker, would be glad if they could get cheap buildings. They laid their suggestions before Rai Bahadur Ganga Ram, the Chief Engineer, and asked for advice. It would be bad economy to build *kucha* buildings with *kucha* bricks and such other *kucha* materials; so they decided not to build *kucha* ones. If the Court felt that it would not be real economy in the long run to use such material, they would have to accept Rai Bahadur Ganga Ram's estimates. As regards his friend's suggestion that the building work should not be commenced, he would ask the Court not to accept that. For goodness' sake let them not postpone the building work. It was proposed to build only a few buildings and he hoped that additions would be made to them later on. The institution was to be planted in the form of a seed and if properly watered and nurtured by sun-shine, it would expand into a mighty tree with many branches giving its shade and fruits to a large number of people. They could not have the whole tree at once. Personally it was a matter of regret that they could not start the faculty of technology now. When the Act was under discussion he fought for it until they arrived at a stage at which they had either to accept the position as it was or to give up the idea of a University. It was due to the persistence of those interested that in the Act it was stated that the faculties of technology, agriculture, commerce and medicine might be added as soon as the visitor was satisfied that funds were available for the purpose. Now they had not got large funds. Of the funds now available they had to spend some portion on the maintenance of the school, on the administrative side, etc. They were trying to get annual donations to start these new faculties. Let them all work together; let them not say that the child had no arms; let them recognise that the child could develop gradually. Let them try to get more money. The great difficulty was to get more money. Efforts were being made to get

more money to start a faculty of technology. Mr. Higginbottom and Mr. Pearson had been asked to select a site for the agricultural college. They were only waiting to get money. They could never have a complete University. They would always be adding to it department after department. With regard to the proposal of Babu Bhagavan Das that they should have prospectus, they could certainly do so but let them go on with the building work. They knew that the Government allowed them to start work on the present premises on the understanding that they would move to Nagwa as soon as the buildings were ready. They would remember that when Sir Harcourt Butler visited that place two years ago, he did not approve of their proposal to start the University on the Central Hindu College premises. It took them two years to get the sanction of the Government to the proposal. There was an apprehension that if they were once allowed to start work there, they would stick to that place. Therefore they should not postpone the building work. Further the Council passed a resolution on the 22nd October, assuring the Government of India that they would move to Nagwa as soon as the buildings were ready. He asked the meeting to accept Pandit Baldev Ram Dave's amendment.

Mrs. Besant said that there was a feeling in the country that too much money was being allocated to buildings. The feeling of the people was that the simplicity of the old educational system ought somewhat to be revived, and that it was not well that they should follow blindly western methods, especially in boarding houses. She agreed with Pandit Malaviya that it was ridiculous to have *kucha* buildings. They should build their buildings with good materials; but she did not see any reason why they should not proceed with their buildings slowly instead of rapidly. She could not believe that the Government would insist on a rapid construction of the buildings. There was a feeling that their ideals were somewhat

forgotten in favour of gorgeous buildings and that too much was expended on the machinery of education instead of on education itself. Therefore she thought that the prospectus suggested by Babu Bhagavan Das should be issued. If that was done she was sure that money would come in. She would ask them to do such work which would make them popular in the country and useful to the boys. She said that they should give instructions in Science, etc., in manner, useful to the boys in life.

At this stage His Highness the Pro-Chancellor expressed a desire to leave the meeting.

The Hon'ble Pandit Madan Mohan Malaviya proposed a vote of thanks to His Highness and expressed the meeting's deep gratitude to him for the honour he had done them by gracing the annual meeting with his presence, and for the interest he had been taking in this work.

The Vice-Chancellor endorsed the remarks of the Hon'ble Pandit and said that his friend had anticipated him.

The Pro-Chancellor thanked the meeting for their appreciation and said that in addition to his formal duties as Pro-Chancellor he was always ready to do whatever he could for the University.

M. SCINDIA.

Pro-Chancellor.

His Highness then left the meeting.

Rai Bahadur Gyanendra Nath Chakravarti said that he would mention for the information of Mrs. Besant, certain facts which would show that they had not been altogether oblivious to the point of view she placed before them. The facts were these. Their syllabus as drawn up by the Faculty of Science, differed materially from the syllabuses of the other universities. They could not make a wide departure from the existing syllabuses because they had to deal with undergraduates who were not trained under the modern system which they proposed to adopt in the Hindu University. But they adopted certain modifications which were only an earnest of further

modifications. Dr. Roy had given them his ideas in drawing up not only the syllabus but in drawing up the plans of buildings. As regards the question of buildings he need only say that the buildings that were proposed to be built immediately were those which were absolutely necessary. They were going to have an arts college. They were not indulging in any kind of extravagance in the construction of the building. It was a plain building for which plans were prepared by their Chief Engineer. They were going to have one building for the College of Chemistry and another for the College of Physics. In addition to these they were going to have a hostel for the boys that was all that was proposed for the present.

The Vice-Chancellor said that there were three proposals before the Court for its consideration. The first was in the name of Babu Shiva Prasad Gupta which stated that so long as their educational requirements were not fully defined and the plans of buildings were not settled, so long the actual work of construction should not be commenced. If the resolution was accepted they must first define their present and future requirements. How could they do that? Their requirements would go on increasing every day. If to-day they wanted a college for four thousand boys, to-morrow their requirements would increase and they would require a college for more students. Take the Central Hindu College for instance. Originally it was only a college teaching up to intermediate. The requirements then were only those of that standard. After sometime when the requirements increased, B.A. classes were opened; and a little later B. Sc. classes were opened. Experience thus showed that their University must grow slowly but steadily as time passed and as the demands for education increased. If, as the resolution stated, they were to define first all their requirements, present and future, the work of the University would be long delayed, and perhaps the staff that was

appointed would have to be dismissed. As regards the proposal of Babu Bhagavan Das that the University should draw up a prospectus, he had every sympathy with him. As a matter of fact they had been doing that and he did not in the least oppose that suggestion. As regards the third proposal, he asked the Court to accept it as a practical measure and to allow the work to be proceeded with. The plans were ready; the bricks were ready and contractors were ready; in fact everything necessary to begin work was ready. If at this moment they passed the resolution of B. Shiva Prasad Gupta they would have to stop the work. That would mean a great loss. Babu Bhagavan Das's proposal did not prevent them from proceeding with the work. It only said that work which was not absolutely indispensable should not be commenced. They might draw up a prospectus as suggested by Babu Bhagavan Das, but let them not stop the work. He, therefore, asked the meeting to pass the resolution of Pandit Baldev Ram Dave.

Rai Ganga Ram Bahadur said they might safely leave the question of buildings to them. Mr. Jwala Prasad and himself would spend every pie of the amount allotted to buildings as their lifeblood. The mover of the resolution referred to Japanese buildings and offered to give Rs. 2,500 to any engineer who should go to Japan to see how they were constructed. If the mover would kindly add Rs. 2,500 to the coffers of the University he (the speaker) would give him all the information necessary without going to Japan. The nature of the buildings depended largely on the climatic conditions of the place where those buildings were constructed. Could they adopt Simla specifications at Benares? They had to take into consideration the climatic and other conditions of the two places. He would take this opportunity of saying that in their statutes all non-productive Faculties were put first and all productive Faculties were relegated to the dim and distant future. They should make a beginning in impart-

ing agricultural instruction. They need not begin the theoretical part, but they should begin at once practical demonstration work. They could start work on a small scale for less than Rs. 40,000. He was looking at the soil here the other day and he felt that he could gladly exchange his land with the land here. Here they were lacking in knowledge and that knowledge they could give by demonstration work. For agricultural work they need not go in for expensive buildings.

Dr. P. C. Roy said that there was a great deal of truth in what Mrs. Besant said about simplicity of educational life. He was a Hindu and he believed in the ideal of plain living and high thinking. Personally he did not believe in luxurious life. But they must have laboratories where they could teach the people science and the buildings must be costly in proportion. They had heard a good deal about artificial indigo which flooded the Indian market before the war. He did not know whether it would bewilder them or not if he assured them that it took a German firm about 15 years to successfully manufacture artificial indigo and that they spent more than a crore of rupees in experiments alone. If they read the scientific journals of England, they would find that all experts in England were bitterly complaining that the statesmen in that country were very parsimonious in spending money on science. Every day they found Germany going ahead of England and France in science because it had the monopoly of scientists. Germany had been able to hold on so long in the wars against the combination of the allies because it had the combination of chemists, physicists and engineers. They should remember that after the war their country would be exploited by foreign nation; for industrial purposes, therefore they should take time by the forelock. If they wanted to start real industries based on science the best brains of the country must be requisitioned and they must produce a race of scientists trained as future captains of industries. There should be

no shilly-shallying in this matter. Whatever step they took it should be taken with a good purpose. In this matter economy would be costly in the long run. Therefore he appealed to them to push forward the construction of the buildings which their engineers planned. There should not be any delay in the matter. They could not afford to waste a moment. As for money, so long as Pandit Malaviya was alive there need be no fear. He would see the Rajas and get money. He sacrificed his income and even health for this institution. May God grant him long life.

Rai Krishnaji said that they were confident that Rai Ganga Ram Bahadur and Mr. Jwala Prasad would try their level best to construct the buildings at as little cost to the University as possible. But there were certain circumstances which would tend to raise [the expenditure *e.g.*, the general rise in the price of materials and labour. They had already incurred a not altogether unavoidable loss in the depreciation of Government paper. As regards the undertaking given to the Government about the completion of the buildings he did not think that the Government in view of the present rise in prices, would tell them that the buildings must be constructed immediately. They had very few colleges in the country that taught agriculture and he thought it would be well if they spent a portion of the money available on the opening of such a college.

Babu Mangla Prasad said that the mover and Rai Krishnaji spoke about the depreciation of securities. When the money was invested no one knew that this war would come. Even when the war broke out there was no depreciation in the beginning in 1914-1915. There might have been a depreciation of a couple of rupees or so. If to-day there was a fall in the price the next day there would be a rise. They were only concerned with interest.

Babu Shiva Prasad Gupta after replying to the questions raised in the discussion withdrew his resolution

in favour of the amendment moved by Babu Bhagavan Das and suggested that in that amendment after the words "April, 1918" the following words be added: "or an earlier date if possible."

Babu Bhagavan Das accepted the amendment.

Pandit Baldev Ram Dave's amendment was put to the vote and carried by a large majority.

It was then suggested that the proposal of Babu Bhagavan Das should be put to the vote in two parts.

Mr. Chintamani remarked that the latter part of the amendment was not consistent with the amendment of Pandit Baldev Ram Dave which was carried.

Babu Bhagavan Das said that his amendment was not inconsistent with it.

Pandit Malaviya suggested the omission of some words in the amendment.

Babu Shiva Prasad Gupta said that in that case he would withdraw his withdrawal and press his resolution.

Mr. Chintamani wanted to know whether there were any rules governing the procedure to be adopted at the meetings.

The Vice-Chancellor said that there were no rules, but those of common sense.

Babu Bhagavan Das said that he would cling to the wording of his resolution and would press it.

The Vice-Chancellor asked Babu Bhagavan Das to let him know to avoid misunderstanding afterwards whether he wanted the amendment to be put to the vote in whole or in parts.

Babu Bhagavan Das said that he wanted it to be put to the vote, as a whole.

Mr. Chintamani said that he wanted it to be recorded in the minutes that he protested against Babu Bhagavan Das's whole proposal being put to the vote after Pandit Baldev Ram's amendment had been voted upon in view of the fact that the latter part of B. Bhagavan Das's proposal

covered the same ground as, and was not consistent with, the resolution which the Court had just accepted.

Babu Bhagavan Das said that he also wanted it to be recorded in the minutes that his proposal did not conflict with Pandit Baldev Ram's proposal.

Babu Bhagavan Das's amendment was put to the vote and lost.

Babu Shiva Prasad Gupta's original resolution was also put to the vote and lost.

(11) The Hon Mr. Chintamani proposed that the Hon. Pandit Madan Mohan Malaviya be elected president of the Central Hindu School Board. He said that it was utterly superfluous to utter one word in commending the proposal to the Court.

Rai Iqbal Narain Gurtu, M.A., LL.B., seconded the proposal.

Babu Govind Das withdrew the motion on the subject of which he had given notice.

The proposal was put to the vote and carried.

(12) At this stage the Hon. Pandit Madan Mohan Malaviya said that the sitting should be concluded. This was agreed to.

1. The minutes of the meetings of the Council, held on the 27th & 28th October, 1917, were read and confirmed. The minutes of the meeting held on 30th October, 1917, were read. Mr. Jwala Prasad placed the plan of the hostel prepared in accordance with the resolution passed on 30th October, 1917, before the meeting. He had also arranged to put up as a specimen a compartment of a room of the exact size and dimensions passed at the last meeting, which each student would occupy to enable the members of the Council to form a better idea of the accommodation intended to be provided. Pandit Ohhedalal was of opinion that the space available for each student was too small and recommended that the space which should be available for each student should be, as nearly as may be, 12 ft. \times 8 ft. The proposal was approved by all

the members present. The members present also approved of the suggestion that the partition walls need not be more than 7 feet high. The Superintendent of Works, who was present, stated that the above suggestion could be easily carried out if the depth of each room was fixed at 24 feet. Subject to the above modifications, the minutes of the meeting held on the 30th October, 1917, were confirmed. It was resolved to request Mr. Jwala Prasad to revise the plans and estimates in the light of the above suggestions and place them before the next meeting of the Council.

2. The consideration of letter No. 436 dated, 20th October, 1917, from the Assistant Engineer, Benares Hindu University, to the Superintendent of Works was postponed to the next meeting.

3. Read letter of Dr. Gananath Sen Kaviraj, dated 29th October, 1917.

Resolved that Dr. Gananath Sen Kaviraj be informed that a complete and detailed scheme of the Ayurvedic College Hospital, Museum etc. is required to enable the Council to judge how much money will be needed for the purpose and to try to collect funds for it. The Council will be thankful if Dr. Gananath Sen Kaviraj will kindly prepare the plans and estimates required.

4. The Registrar reported that the Board of Appointments at a meeting held that morning, had recommended the appointment of Dr. P. C. Roy, C. I. El., D. Sc., Ph. D. as the University Professor of Chemistry.

Resolved that the recommendation be accepted.

5. Read the draft of the scheme of the Mahadeo Prasad Misra Endowment drafted by the Registrar, and the letter of Mr. Kanahyalal, dated 19th October, 1917, suggesting some alterations in it.

Resolved that the suggestions regarding the inscription on the medal be accepted, but as regards the making over of the unspent balance to the Kanya Kubja High School, Cawnpore, the donor should be informed that this condition was not among the original conditions ac-

cepted by the Council, and he should be requested to let the unspent balance remain with the University, so that a larger number of scholarships be available after some time from the income of the aggregated amount.

6. Read the letter of Mahamahopadhyaya Dr. Ganga Natha Jha, dated 13th October, 1917, regarding the grant of one hundred stipends to the students of the Faculties of Oriental Learning and Theology.

Resolved that Mahamahopadhyaya Dr. Ganga Natha Jha be asked to kindly place his proposal before the Council, when he is himself present.

7. Read a letter dated 22nd October, 1917, from Seth Swarup Chandji Hukum Chand of Indore and another dated 22nd October, 1917, from Mr. M. L. Jaini of Indore.

Resolved that they be sent to the New Central Hindu School Board.

11. The Registrar asked the permission of the Council for the purchase of an iron-safe.

Resolved that the Registrar be asked to submit an estimate of its cost.

12. The proceedings of the Building Committee, held

on 25th September, 1917, with two notes of Mr. Jwala Prasad, dated 25th September, 1917, were laid before the Council.

Resolved that the papers be referred to the Central Hindu School Board.

13. Resolved that the consideration of the note prepared by Babu Bhagavan Das embodying definite proposals on the various points referred to in resolution 2 of the meeting of the Council, held on the 18th February, 1917, be postponed to the next meeting.

14. Babu Bhagavan Das said that he had certain points to bring to the notice of the Council. As it was getting dark and the Council had already sat for more than three hours, he was requested to hand over his resolutions to the Registrar to be placed before the Council at a later meeting (vide Appendix A).

APPENDIX A.

(Resolutions proposed by Babu Bhagavan Das at the meeting of the Hindu University Council on 4th November, 1917, and postponed for consideration at the next meeting).

1. That summaries of the proceedings of the various bodies of the Hindu University be published periodically in the Central Hindu College Magazine excepting those specially marked as *confidential* by the body concerned, or by a superior body; as well as a monthly abstract of accounts showing totals of Receipts and Expenditure under main heads; that the Editor of the Central Hindu College Magazine be instructed to give facilities to such members of the Hindu University Court, the Senate and other bodies as may require them, for bringing before the public their views on matters pertaining to the welfare and the progress of the Hindu University;

and that members of the Court, the Senate and the Faculties be supplied with copies of the Magazine free, provided not more than one copy shall be sent to a person who may be a member of more than one body.

2. That the Vice-Chancellor be requested to arrange through the Senate and Faculties, in such fashion as may be permissible, that the various courses of study may be better co-ordinated, those which appear to be too heavy, lightened and moderated, and all made more purposive; also that in the Faculties of Oriental Learning and Theology, a serious attempt is made to receive and extend those branches of learning which have a direct bearing on daily life and also offer obvious points of contact with modern science and therefore present special opportunities of investigation and research in the light thereof, *e.g.*, Vaidyaka, Jyotisha, Artha-Shastra and various Kala-Shastras.

3. (a) Resolved that this Council, adhering to the terms of the Government of India circular on the subject, has no objection to any members of the Benares Hindu University, not *in statu pupillari*, exercising their rights as citizens and British subjects in respect of working for the uplift of the country in any department of the national life, along constitutional and law-abiding lines of loyalty to the British Crown and the Indian people, and in a manner consistent with the calmness and dignity of their educational vocation.

(b) That this Council has no objection to the students of the various colleges of the Benares Hindu University attending (but not taking active part in the work proper of) public meetings having for their object the uplift of the country as above, for the purpose of deriving therefrom object-lessons in the sciences of history, economics, politics, sociology, religion, &c.

4. That a Sub-Committee be appointed to draw up a full prospectus of the aims and objects of the Benares Hindu University, and the means by which they should be endeavoured to be realised, in the shape of (a) the colleges which should be established (with estimates of the initial and annual costs of each and the successive order in which they should be started, (b) the tone and ideals which should be fostered, (c) the nature of the religious instruction which should be given; and (d) the kind and quality of the staff which will be needed and the methods by which it should be secured; and such other important and relevant matters;

Further that this prospectus be brought up before the meeting of this Council as early as possible, and after such modification as the Council may think fit be presented to a meeting of the Court, to be held in April, 1918, for discussion and sanction with such modification as may appear necessary;

Also that until such a prospectus has been sanctioned by this Court, no expenditure should be incurred on any

work, such as new appointments, buildings, etc., which in the judgment of this Council is not absolutely indispensable for the carrying on of the work of the Benares Hindu University.

5. That this Council should pay special attention to the question of establishing colleges of Commerce, Technology and Agriculture, at the earliest possible date and send up to the meeting of the Court in April, 1918, as full details as possible on the subject, in connection with the prospectus mentioned above, after consultation with the office-bearers of the U P. Chamber of Commerce, Cawnpore and of Agricultural Colleges and other institutions, and such other Bodies and experts as it may think fit.

APPENDIX B.

Proposal by Babu Bhagavan Das.

That, as the Benares Hindu University originated in the missionary spirit, has taken for nucleus the Central Hindu College which originated likewise, has been built up like its nucleus by public charity for philanthropic purposes, and expects to grow and expand in the future by the same charity ;

That, as it cannot continue to receive that charitable help unless it also continues to be animated by the same spirit ; as it ought to avoid the ways which, however befitting and suitable for wealthy, commercial or non-missionary institutions, are not becoming for it with its extremely limited funds, very many requirements and non-commercial character ; and as it ought in any case to avoid whatever might even look like waste of public charitable funds ;

That as appeals for abatement of full market-rates and for even free gifts of all kinds, which, coming from wealthy, commercial or non-missionary bodies would be properly condemned as undignified and even mean and miserly, but coming from such an institution as the Hindu University—if it be animated by the true, missionary spirit, as it ought to be (though it has already lapsed therefrom in some respects, most regrettably) would come not only without shame but as a just and righteous request for philanthropic help ;

And that, as the expenditure of Rs. 2,800 on the mere setting of question-papers, for the purpose of examining in 1918 only some 20 candidates for the M.A. & M.Sc., Previous & Final all included, as was indicated at the previous sitting of the Syndicate, seems to be exceedingly disproportionate and might well be regarded by the general public as wasteful;

Therefore be it resolved that the examiners selected be informed of the circumstances and be requested to be good enough to give their assent to the total amount of the examination-fees realised being regarded as honorarium for setting the question-papers and being divided equally between those papers, as much more being presented to them by the University out of its other funds for valuing the papers and holding the *vivâ voce* and practical examinations.

APPENDIX C.

Mahamahopadhyaya Dr. Ganga Nath Jha's Note.

So far as regards the recommendation that 'Vyakarana' and 'Sahitya' should be separated at the 'Shastri' stage, my impression was that what the Faculty intended was that the course in 'Sahitya' should have more of 'Sahitya' and less of 'Vyakarana' and that 'Vyakarana' should have more of 'Vyakarana' and less of 'Sahitya'; and all the members were averse to having any such course in 'Sahitya' as would be entirely devoid of 'Vyakarana' or *vice versâ*. If my impression is correct, no change in the Regulations would be necessary; as the common name 'Vyakarana-Sahitya' would enable the Faculty to prescribe two alternative courses—(a) one with a larger modicum of 'Vyakarana' and a smaller one of 'Sahitya', and (b) another with a larger modicum of 'Sahitya' and a smaller one of 'Vyakarana' and it is only the latter course that the Faculty is anxious to secure.

If we change the Regulations and have 'Vyakarana' and 'Sahitya' as two entirely different subjects, then we open out the possibility of a course of 'Vyakarana' entirely devoid of all 'Sahitya', or one of 'Sahitya' entirely devoid of all 'Vyakarana'; both undesirable.

I would, therefore, have some such resolution as "In view of the fact that the Regulations as they stand make it possible to have two alternative courses of 'Vyakarana-Sahitya'—one in which Vyakarana forms the predominating element, and another in which Sahitya forms the prominent factor,—there appears to be no necessity for making any change in the Regulations."

APPENDIX D.

*Pro-Vice-Chancellor's remark on Mahamahopadhyaya
Dr. Ganganath Jha's Note.*

The record of the proceedings of the annual meeting of the Oriental Faculty, held on the 28th October, 1917, has the following resolution (*vide* Resolution No. 6 (a)).

“Resolved that Kavya Sahitya and Vyakarana should remain united in the Madhyama but should be separated in the Shastri Examination and the Senate should be asked to alter the regulation accordingly.”

There is no record of any other proposal as finds mention in Dr. Ganganath Jha's Note.

If the correctness of the recorded resolution be questioned the point can be raised at the Faculty of Oriental Learning when the proceedings have to be confirmed by it.

I may here note the reason for the adoption of the resolution as it stands.

The alternative courses in Vyakarana in the Madhyama having been adopted (*vide* proceedings of the Faculty of Oriental Learning Resolution No. 6 (a)) by the Faculty, the demand for the separation of Vyakarana from Sahitya was no longer found necessary in that examination. But in the Shastri Examination a different decision forced itself on the Faculty. The Science of Grammar and Philology has developed so greatly in Sanskrit that the subject requires to be separated from Sahitya in the Shastri.

And the subject of Sahitya also has so comprehensive literature of its own that there should be a separate group for it.

And the same reasons must have weighed with the Board of Studies of Sanskrit in the Faculty of Arts in forming two separate groups of Vyakarana and Sahitya

for the M.A. Examination. Why should there be any opposition to the resolution of the Faculty of Oriental Learning which recommends a similar formation of separate groups in the Shastri Examination of the Oriental Faculty? The examination for the title of Acharya conducted by examining bodies outside the University have also fixed separate groups and not one combined group. And the reason is simple. We cannot do justice to the two subjects by combining them.

We ought not to compel the scholar whose taste lies for poetry, drama and rhetoric to go through the abstruse controversial niceties of the Sabda Shastra (Science of language) as treated in the higher texts and commentaries. Such knowledge of grammar as is needed, the scholar has already acquired in the Madhyama stage.

There is provision also for the Vyakarana student of an ordinary course of literature and he will not be devoid of it (*vide* Minute Book No. 4, page 8, under the heading of Sanskritè), as has been apprehended.

What has been deemed desirable and therefore recommended is the giving the Shastri scholar a higher course of grammar and a higher course in Sahitya without hampering his progress in the field he chooses.

Alternative courses in Vyakarana in the Madhyama having been allowed by the Faculty of Oriental Learning, such students as have read Vyakarana other than the Siddhanta Kaumudi for the said examination and would like to proceed for the Shastri in Sahitya will find it impossible to do so if any combined course in Sahitya and Vyakarana be allowed to stand as it is or modified as suggested in the note.

Finally I beg to state the reason why such a combined course was framed in the beginning.

It was to conform to the wording used in the regulation, *viz.*, "A course of grammar and literature."

In English a grammatical text-book or two, thrown in

the course of literature would serve the purposes of conforming to the wording of the regulation.

Such a combination of grammar and literature in the rudimentary and lower stages is mutually helpful to both subjects and they would be combined without much difficulty.

But in Sanskrit the study of grammar occupies the best part of the life of many a scholar with the immense mass of commentaries and annotations. It may be observed *en passant* that what holds good in English may not hold equally good in Sanskrit. For example--In the M.A. Examination in English there are nine groups. But no one has suggested a separate grammar group. But in the M.A. Sanskrit of the Arts Faculty a separate grammar group has been framed.

To provide a regulation course of "Grammar and Literature" the combined group was framed resulting in the course as it stands on page 8, Minute Book No. 4, the very sight of which is calculated to scare away scholars from the study of Sahitya in the Oriental Learning of the Hindu University.

To make the study of Vyakarana and Sahitya acceptable the separation has been recommended.

APPENDIX A.

Copy of a letter No. 436 dated the 20th October, 1917, from the Assistant Engineer, Benares Hindu University, to the Superintendent of Works Benares Hindu University.

I have the honor to submit herewith 3 lists of houses in the villages of Gariwanpur, Bhagwanpur and Naria, which have not been repaired by the occupants. The lists of the remaining villages will be submitted as soon as they are ready.

It has been found that the material in most cases has been removed by the occupants. I had personally been to some of the villages and have informed the villagers that they would be responsible for the University property in case of any loss.

In my opinion the Superintendent of University Estate may be asked to take note of these and of other villages too and should take necessary steps to prevent the owners from dispensing with the materials and should also take steps to see that the occupants keep the houses in good condition. At the same time all persons leaving the houses for good should inform him of the date of their departure so that the charge of the house may be taken from the occupant.

I think it would be better if village chaukidars appointed by the University Estate should be ordered by the Superintendent of Hindu University Estate to make regular reports about such cases for they live on the spot and will be best persons to know as to what is going on there.

APPENDIX E.

NOTE.

At the last meeting of the Syndicate, it was decided to charge a rent of Rs. 2 per mensem from those students who require a separate kitchen for themselves. I am much indebted to the Syndicate for giving the Pro-Vice-Chancellor, power to remit the amount in any case he may consider proper and to allow the student the free use of a kitchen. As I was present at the meeting and know what passed in course of the discussion, I will be guided by the views of the Syndicate on the subject. I should, however, like to leave on the record my own views of the grounds and principles upon which this concession should be made by the future Pro-Vice-Chancellors. The Benares Hindu University has for its object the promotion of general and religious education. Its object is to impart not only education in arts and sciences, but also to train up our young men in the Hindu religion. It is an educational body and while it will be happy to promote social reform by disseminating education, it of course cannot directly act as an advocate of social reform. There are among the higher castes of the Hindus many, the members of which can partake of food cooked by members of their own community or by members of special caste. There is considerable practical difficulty in such cases in obtaining the services of Brahmins for the purpose and students who wish to follow their own usages have very often to prepare their own meals and for that purpose they require a kitchen for their own use. They may not be in a position to afford even Rs. 2 a month in addition to their usual fees for the said purpose. It is to meet this difficulty that the Pro-Vice-Chancellor has been empowered to remit the fee for the use of a separate kitchen. Grateful

as I am for the concession which will be valued and appreciated by many Hindu students, I would like to place on record this note as showing the grounds on which it was made.

ADITYARAM BHATTACHARYA,
Pro-Vice-Chancellor,
Benares Hindu University.

This was finally adopted by the Council. It was also decided to build one Superintendent or Warden professor's quarters in the 3rd story for each set of 50 students and the various skeleton designs for the College of Science, Hostels, Kitchens and other subsidiary buildings as prepared by me were approved and I was directed to prepare detailed plans and estimates. The estimate of Arts College for Rs. 3,60,000 with an allotment of Rs. 3,30,000 by a reduction of Rs. 30,000 on account of decoration work being given up was sanctioned.

2. In accordance with these important decisions, I prepared various necessary plans and went to the Honorary Chief Engineer to finally discuss and get them approved by him after necessary modifications. I am glad to report that the Honorary Chief Engineer generally approved of these proposals and the various necessary elevations were prepared under his guidance from the architectural point of view. These plans as finally approved by the Honorary Chief Engineer were received by me on the 10th of January, 1918, and are now put up for formal sanction to start work.

3. The Arts College as slightly modified to suit Mr. Lishman's lay out has been laid on the ground as also the hostel block while two 2nd class and three 3rd class residences are being started for the P. W. D. Officers and office to begin with. The religious ceremony of the foundation of

the Arts College was performed on the 23rd morning under the guidance of our revered Pro-Vice-Chancellor. It will be seen from the plan of hostels that the total accommodation is nearly 900 as compared to 600 originally contemplated. The Honorary Chief Engineer insists upon building the whole block and has requested me to ask for sanction of the whole. Definite instructions on this point are now necessary as the work is now being started. The total estimate of this building is roughly estimated to be Rs. 6,80,000 and the cost can be split up as follows :—

	Rs.	a.	p.	Rs.	a.	p.
8 Halls at	9,000	0	0	72,000	0	0
896 students' rooms at	500	0	0	4,48,000	0	0
16 Superintendent or Warden Professors' quarters at	5,000	0	0	80,000	0	0
Stair case, Shekher and Co.	80,000	0	0
Total	6,80,000	0	0

4. The detailed plans of the two blocks of the College of Science are being made out after which the estimates will be prepared.

5. In order to push on these large works simultaneously, it is now absolutely necessary to purchase more tramway line and wagons. I am glad to report that I have been able to arrange for their purchase at practically pre-war price. The total cost of 80 wagons and one mile of line now being purchased will be Rs. 24,000 but the University will effect a saving of nearly Rs. 15,000 in the construction of works even now proposed for being forthwith started while without this facility for cartage of materials, it would have been impossible to proceed rapidly with the work of construction.

6. The various tenders received for the Arts College are put up for consideration and decision of the successful tenderer.

7. I have received a letter from the Postal Town Inspector to say that a Hindu University Post Office will be

opened from the 1st of March, 1918. The letter in question is put up for instructions as also a design for a combined Post and Telegraph Office in accordance with the rules of Postal Department. It is probable that the Town Inspector will ask for a building for which the postal authorities are prepared to pay rent.

8. An unexpected occurrence has taken place during this interval, namely, on the 7th of January, 1918, the door and window leaves and chaukhats prepared for four blocks of single storey hostels that were prepared by the Contractor Babu Lakshmi Narain of Dhanbad, were practically all burnt to ashes on account of fire in their temporary shed.

9. In accordance with the resolution dated the 30th August, 1917, of the Council, I consulted our Pro-Vice-Chancellor and several learned Pandits through him about the University Seal and have prepared several other designs which are put up for consideration.

10. The accounts of the New Central Hindu Collegiate School building and subsidiary works whose consideration was deferred in the last meeting are now put up for approval.

11. The draft for purchase of land near Kolua School is also put up for approval.

MINUTES OF THE MEETING OF THE COUNCIL.

No. 18.

SUNDAY, THE 3RD MARCH, 1918—12 NOON.

present :

1. Mahamahopadhyaya Pandit Adityaram Bhattacharya, M.A.,
Pro-Vice-Chancellor, in the Chair,
2. Pandit Baldev Ram Dave,
3. Rai Gyanendra Nath Chakravarti Bahadur, M.A., LL.B.,
4. The Hon'ble Pandit Madan Mohan Malaviya, B.A., LL.B.,
5. Raja Suraj Baksh Singh,
6. The Hon'ble Babu Moti Chand, C.I.E.,
7. The Hon'ble Pandit Gokaran Nath Misra, M.A., LL.B.,
8. The Hon'ble Mr. C. Y. Chintamani,
9. The Hon'ble Dr. Tej Bahadur Sapru, M.A., LL.D.,
10. Pandit Ramavatara Sarma, M.A.,
11. Babu Gur Prasad Dhawan, B.A.,
12. Pandit Manohar Lal Zutshi, M.A., and
13. Professor Nagendra Chandra Nag, M.A.

1. Before the proceedings of the meeting commenced, the following condolence resolution was moved from the *Chair* and passed, all members standing :—

“The Council places on record its sense of profound
“sorrow at the sudden and sad death of the Hon'ble Sir
“Sundarlal and of the great and irreparable loss which the
“University has sustained thereby. It further records its

“deep gratitude for the distinguished ability, wisdom and devotion with which he laboured to bring the University into existence and as its first Vice-Chancellor to organise it and place it on a sound basis. The Council requests the Pro-Vice-Chancellor to convey its deep and respectful sympathy to Lady Sundarlal, Pandit Baldev Ram Dave and the other members of the family in their bereavement.”

2. Raja Suraj Baksh Singh proposed that in future the anniversary of Sir Sundarlal's death should be observed in all the educational institutions connected with the Benares Hindu University and should be called Sir Sundarlal Day. The Hon'ble Pandit Madan Mohan Malaviya, while agreeing with the idea of instituting Sir Sundarlal Day, suggested that a statue at the entrance of the Senate House of the Benares Hindu University would be a fitting and appropriate memorial. The Hon'ble Dr. Tej Bahadur Sapru said that Sir Sundarlal was not only a great lawyer but a great Hindu lawyer, and he would therefore suggest the foundation of a Chair of Hindu Jurisprudence in the Benares Hindu University to be called Sir Sundarlal Chair of Hindu Jurisprudence. Raja Suraj Baksh Singh explained that his suggestion did not clash with the other suggestions and he urged that whatever other memorial might be raised, the institution of Sir Sundarlal Day should not be lost sight of. After some informal discussion the following resolution proposed by the Hon'ble Mr. C. Y. Chintamani was carried unanimously :—

“Resolved that a Sub-committee consisting of :—

The Hon'ble Pandit Madan Mohan Malaviya, B.A., LL.B.,

Raja Suraj Baksh Singh,

The Hon'ble Babu Moti Chand, C.I.E.,

Rai G. N. Chakravarti Bahadur, M.A., LL.B.,

The Hon'ble Dr. Tej Bahadur Sapru, M.A., LL.D.,

The Hon'ble Pandit Gokaran Nath Misra, M.A., LL.B., and

Pandit Manohar Lal Zutshi, M.A.

"be appointed, with Rai G. N. Chakravarti Bahadur, M.A., LL.B., as *Convener*, to consider, ascertain opinion and report to the Council upon the most suitable form of memorial that could be raised to the Hon'ble Sir Sundarlal, Rai Bahadur, Kt., C.I.E., B.A., LL.D., in connection with the Hindu University."

3. As the minutes of the meetings held on the 16th, 23rd and 24th December, 1917, and the 27th January, 1918, had not been received from the Press, and could not be consequently circulated to members, it was resolved to postpone their confirmation to the next meeting.

4. The five resolutions of Babu Bhagavan Das, M.A., (*vide* Appendix A of the minutes of the meeting of the Council, held on Sunday, the 4th November, 1917), were then taken up.

Resolution No. 1, was read and discussed. As regards the publication of the proceedings of the various bodies of the Hindu University, the Council was of opinion that while the proceedings of the Court, and the Senate should be open to the Press, the publication in the Press of the proceedings of other bodies like the Council, the Syndicate, the Faculties, etc., which were in the nature of Executive committees, was not desirable except when any one of these bodies for certain special reasons, deemed such publication of its proceedings, in whole or in part, necessary. As for the publication of the monthly abstract of accounts, the Council, in view of the practice of the publication of donation lists monthly and of full and complete accounts of the University annually, deemed it unnecessary. The publication of monthly receipts and expenditure, it was thought, might present an incomplete view and hence be misleading. Regarding the publication of their views by the members of the Court, the Senate, etc., in the Central Hindu College Magazine, the Council did not see any necessity for giving instructions to the Editor in the sense suggested. The free distribution of the Central

Hindu College Magazine to the members of the Court, the Senate, the Faculties, etc., was considered by the Council, to be unnecessary and unbusinesslike.

The Chairman pointed out that as resolution No. 2 dealt with purely academic questions, the proper body to consider it was the Senate and not the Council, and hence he ruled it out of order.

It was pointed out by the Hon'ble Mr. C. Y. Chintamani that resolutions 3 and 5 were on the Agenda of the last meeting of the Court as proposals XII, XIII and XV (item 21), and were still undisposed of by that body, while resolution No. 4, which was on the Agenda of the last meeting of the Court as proposal No. XIV (item 21) and was moved as an amendment to resolution No. 2 (item 19) of Babu Shiva Prasad Gupta, had been rejected by that body, and under these conditions, the Court being the superior body, it was not competent to the Council to consider these resolutions. The objection was accepted by the Chairman and the three resolutions were ruled out of order.

5. Read the report of the Uniforms Sub-committee (appointed according to resolution No. 5 of the Council, dated the 23rd December, 1917).

Resolved that the report (*vide* Appendix A) be adopted.

6. Read the letter of the Superintendent of Works, dated the 14th December, 1917, regarding a servants' latrine to be built in the compound of the staff quarters.

Resolved that the building of a one-seated servants' latrine at a cost not exceeding Rs. 50 be sanctioned.

7. Read the report of the committee appointed by the Council to consider the organization of the Central Hindu College Magazine, with reference to paras 65 to 69 of the Audit Note of last year (*vide* the minutes of the Council, dated the 16th December, 1917).

Resolved that the arrangement of the contents as suggested in para (1) of recommendation No. III of the

report (*vide* Appendix B) be accepted and the size of the Magazine might be allowed to extend to four forms of thirty-two pages as suggested in para 2 recommendation No. III.

8. Read the letter of Babu Gur Prasad Dhawan, B.A., dated the 26th January, 1918, asking for a monthly grant of Rs. 150 for the Central Hindu College Girls' School.

Resolved that the Hon'ble Dr. Tej Bahadur Sapru, M.A., LL.D., and Pandit Baldev Ram Dave, be requested to advise the Council as to whether in view of the fact that this Girls' School was a part of the old Central Hindu College, the funds of the Benares Hindu University can be used to support it.

9. Read letter No. 34/VIII of the Vice-Principal of the Central Hindu College, dated the 29th January, 1918, regarding the appointment of Mr. H. B. Malkani, M.A.

Resolved that the appointment of Mr. H. B. Malkani, M.A., as an Assistant Professor of English, be sanctioned from 25th January, 1918, on Rs. 100-10-200, on one year's probation.

10. Read the letter of Mr. Birbal Sahni, dated 19th December, 1917, requesting that he may be empowered to spend a sum up to £20 in order to purchase certain laboratory requisites and books for the Botany Department.

11. The Registrar placed before the Council, resolution No. 14 of the Syndicate, passed at a meeting of that body held that very morning.

"Read the application of certain students of the

Central Hindu College, Benares, dated the 31st January, 1918, praying for exemption from payment of fees for the months of May and June 1918. In view of the fact that the rule regarding the realization of fees for the months of May and June, 1918, from the students of the 2nd year, 4th year, and 6th year classes, was made in the middle of the session (*vide* the minutes of the meeting of the Council, held on the 16th December, 1917), the Syndicate recommends that it should come into force only from July, 1918, and since fees would be charged for 12 months from July next, the Syndicate further recommends that students joining the Central Hindu College from the commencement of the next session, after having appeared at an examination of the Benares Hindu University, be exempted from the payment of fees for May and June, 1918."

Resolved that the recommendation of the Syndicate be accepted.

12. Read the letter of the Superintendent of Works, dated the 30th January, 1918, asking permission for the construction of a tiled shed for drinking water and a workshop for Manual Training in the Central Hindu School.

Resolved that the rental asked for be paid and Babu Gur Prasad Dhawan be requested to get the necessary documents executed.

16. The Registrar placed before the Council the notes of the staff of the Central Hindu College and of the Teachers' Council of the Central Hindu School, containing

certain objections against the form of agreement for Service.

Resolved that the notes be referred to a sub-committee consisting of the following gentlemen for consideration and report.

2. The minutes of the annual meetings of the Faculties of Oriental Learning and Theology, held on the 28th October, 1917, at 12 noon and 2 P.M. respectively, were read and confirmed.

Read the letter dated 26th November, 1917, from Babu Bhagavan Das Saheb, M.A.

Resolved that his resignation from convenership of the Boards of Studies in Purana and Itihas appointed by the Faculty of Oriental Learning in its meeting held on 28th October, 1917, and from the membership of the committee appointed by the Faculty of Theology (*vide* Resolution No. 6 of the meeting held on 28th October, 1917) to look after religious instruction in the Boarding Houses of the Benares Hindu University, be accepted. It was further decided that Itihas and Purana are included in History and Geography partially. A separate Board for Itihasa and Purana was really dissolved under Resolution No. 9 of the meeting of the Faculty of Oriental Learning, held on 17th February, 1917. A reference to it, again after that date, is due to a mistake.

4. Read the applications dated 11th and 14th October, 1917, from the students, Ranavira Sanskrit Pathshala and from a number of students who have passed the Tirth Examination of the Province of Bengal and Behar, together with Pro-Vice-Chancellor's note thereon.

Resolved that the applicants be informed that efforts are being made to remedy their grievances.

5. The report of the new Ranavira Sanskrit Pathshala Committee, dated the 27th November, 1917 (*vide* Appendix F of the meeting of the Syndicate, held on 28th November, 1917) referred to these Faculties (*vide* Resolution No. 16 of

the meeting of the Syndicate, held on the 28th November, 1917) was considered and it was resolved as follows:—

- (i) That the new Ranavira Sanskrit Pathshala Committee be informed that the 22nd July, 1918, had been fixed for the Praveshika Examination (*vide* Syndicate Resolution No. 3 of the meeting held on the 27th January, 1918).
- (ii) That the course in Laghu Kaumudi be limited to the end of Churadi (चुरादि) for this year only for the students of Veda for the Praveshika Examination.
- (iii) That the new Ranavira Sanskrit Pathshala Committee be authorized to select the portion of the Mahabharata to be read in Hindi.
- (iv) That simple addition, subtraction, multiplication, division, simple fraction and rule of three be read.
- (v) That the new Ranavira Sanskrit Pathshala Committee be authorised to name definitely the text book of Bharatvarsh ka Itihas (भारतवर्ष का इतिहास)
- (vi) That the interpretation of the term “may also offer any one of the following subjects” on page 58 of para 5 of the Regulations be referred to the Syndicate for the interpretation of the term ‘may’ whether it applies to the whole group or to one of the subjects.
- (vii) That the Registrar be requested to prepare a Prospectus in Sanskrit stating the date, courses of study and other conditions of holding the Praveshika Examination by the end of March, 1918, and to send it to the principal cities of Sanskrit learning in India.

6. Read the reply of the late Vice-Chancellor, the Hon'ble Dr. Sir Sundar Lal, Kt., C.I.E., B.A., LL.D., with reference to resolution No. 5 of the meeting of the Faculty of Theology held on the 28th October, 1917, and resolved

that the Senate be requested to move for such change in the regulations as to meet the wishes of the Faculty as regards increase of number of members.

7. Before taking up the question of the separation of Kavya-Sahitya and Vyakarana and the notes of the Pro-Vice-Chancellor and Mahamahopadhyaya Dr. Ganganath Jha, the letter dated the 25th February, 1918, from Mahamahopadhyaya Dr. Ganganath Jha (*vide* Appendix A) was taken into consideration and it was resolved that since all the members present confirmed the resolution No. 6 (a) passed at the annual meeting of the Faculty of Oriental Learning, held on the 28th October, 1917—on the subject of separation of Sahitya from Vyakarana in the Shastri Examination, the question need not be further considered in this meeting.

8. It was pointed out that the whole of the Panchatantra could not be taught during the short time that remained for the Praveshika Examination, it was, therefore resolved by the Faculty that for the next examination the first two Tantras of the Panchatantra be considered as the course prescribed.

9. The consideration of the item No. 9, *viz.*, the question of the separation of नव्य and प्रचीन न्याय was postponed for want of the report of the Board on the subject.

The meeting was then adjourned to meet at 3 P. M., on 12th March, 1918, for consideration of the remaining items on the Agenda.

Dean of the Faculty of Theology,

Under the circumstances, how far it will be right and fair for the meeting to take up such controversial topics as have the aspect represented perhaps by myself alone, it will be for the meeting itself to judge.

Yours truly,

APPENDIX C.

To

THE VICE-CHANCELLOR,

BENARES HINDU UNIVERSITY,

BENARES.

SIR,

At the last meeting of the Council, it was decided to create a fairly large number of scholarships or stipends in order to draw students into the Oriental and Theological Faculties, these stipends being made available not only for those who will study in the Colleges for the University Courses but also for those who wish to appear in the Samskrit Matriculation or Pravesika Examination. It is understood that many of these stipends are in the nature of a temporary expedient and will drop out when the Benares Hindu University Examination attains a reputation equal to that of other similar examinations and gains popularity. In this connection it is worth while enquiring if any attempts have been or can be made in order to draw within the sphere of University influence such institutions as already exist in Kashi for the imparting of Samskrit Education of a cultural character. I know at least two such Colleges which, if approached in the right way, would be willing to fall in with any scheme that may be worked out by the University. Both these institutions are situated at Nagwa and form already the *nucleus* of a decent Samskrit University. It is true that they do not come up to the standard of modern requirements in the matter of buildings and equipment but approximate more closely to the old ideals of rigid simplicity and austere monasticism. All the same, one of these has an Endowment which provides for the housing and feeding of over a hundred students and the other, although not equally lucky in the matter of a sumptuous Endowment, has a

couple of hundred resident pupils most of whom are provided with meals also. Education of an elaborate and varied description is imparted free of cost, each institution having a staff of five Professors. Clothing is also supplied gratis as far as funds permit. Students from both these institutions appear at the public Examinations of the United Provinces, Bengal, and Bihar and obtain distinction. I have been given to understand that there are several other institutions of this character scattered over the different quarters of the holy city and seem to be only awaiting the extension of a helpful and guiding hand in order to crystallise into Colleges which could form integral parts of and add lustre to the infant University. To my mind, it seems to be eminently desirable that these centres of Oriental Learning which are at present but stray sparks fitfully lighting up the darkness that is threatening to envelope the Ancient Lore should be organised into a planetary system deriving their light and life from the central sun of the Benares Hindu University and shining in their orbs with a resplendence which will make the intellectual firmament of Kashi at once the object of admiration and the source of inspiration. There may be—probably are—practical difficulties in the way of adopting the above suggestion but these difficulties should not prove insurmountable if all these institutions are animated by a common desire of reviving interest in Oriental Studies by inculcating study and research. All these schools will probably not be run on the same lines and indeed from the point of view of economy it is not desirable that they should. But in order to secure the maximum of efficiency, careful co-ordination may also be necessary, due weight being given to the characteristic features of each School. Research work on Western lines involving comparative methods would probably be confined to the University College which will naturally command the best talent and most liberal resources. It cannot, therefore, be repeated too often that this College in order to fulfil its true purpose and perform its legitimate

function, should be something more than the Samskrit Pathshalas which exist already and maintain a high reputation for learning. The University College should, instead of being only one more addition to the number of Pathshalas, undertake the work of establishing the height and depth of Oriental Learning in the eyes of Occidental scholarship by pursuing methods which the latter can understand and appreciate. It is only thus that an abiding and permanent interest can be created not only in the minds of people outside India but in those of our own people accustomed to Western methods of research and scholarship. It is this important and vital function which should distinguish the University College from the Pathshalas which, lacking in resources to undertake this ambitious work, will nevertheless gain in dignity and popularity as the result of the labours of the University College. Not being a Samskrit scholar myself, it is not without hesitation that I have taken the liberty of inviting your attention to this aspect of University work, but I feel so strongly that some bold and comprehensive steps are necessary in order to bring back life into the dry bones of Oriental Learning that I beg of you to refer the whole question to the Faculties of Oriental Learning and Theology so that they may consider whether it is not practicable to devise some scheme on the lines shadowed forth in this letter. It is needless to add that the creation of a public interest in the idea is essential to its realization.

I beg to remain,

Sir,

Your most obedient servant,

(SD.) G. N. CHAKRAVARTI, M.A., LL.B., R.B.,

Member of the Benares Hindu University.

Dated the 21st January, 1918.

APPENDIX B.

To

The Superintendent of Works,
Benares Hindu University,

Benares.

Sir,

Most respectfully I beg to bring to your kind notice the fact that a bill for Rs. 2,491 was made on the 22nd of November, 1917, for 128 pairs of doors, 124 pairs of skylights, and 34 windows. The articles were inspected and taken over charge of by Mr. Kedar Nath, Assistant Engineer, and were entered on the measurement Book. On the 7th of January, 1918, however, when the bill was going to be paid as I am informed, a fire broke out in the godown at the University grounds, and all these were burnt to ashes, together with many others—some complete, others in a state of preparation, the whole stock amounting to Rs. 6,000. It was, of course, my sheer misfortune that such a thing should happen, but I cannot help mentioning that the articles which were taken over were lying there at the risk of the University, and that I cannot with any justice be held responsible for anything that happens to them subsequently. If the bill in question had been paid before the mishap, it would not have been necessary for me to make this representation, and the University would of itself have suffered the loss. Now too it does not make any difference, if the bill was not paid, as the money for its payment was only kept in trust by the University. Besides this amount the fire also destroyed other articles which also should be paid for out of the mercy as the occurrence will otherwise put me in great financial difficulty. If required, I am prepared to produce written evidence to the effect that the godown

actually contained stock amounting to Rs. 6,000 as already mentioned.

Trusting on your kindness, and hoping to receive a favourable consideration.

I beg to remain,

Sir,

Your most obedient servant,

(Sd.) SHITAL PRASAD TAYAL,

Benares,
25th January, 1918. }

For Lakshmi Narayan,
Contractor.

Report on the application of Lala Lakshmi Narain, Contractor, dated 25th January, 1918, regarding payment for wood work destroyed by fire.

L. Lakshmi Narain of Dhanbad joined this department as a contractor in July, 1917, having tendered the lowest rates for door and window work of all the contractors who had so far tendered. His low quotations enabled me to reduce the rates of other contractors also. On arrival of his mistry and carpenters, they were utilized in preparing Takhats for the Central Hindu College which were urgently required. In August next, he was given contract for doors and windows required for 4 blocks of hostels, i.e., for preparing

128 doors $6\frac{1}{2}'$ by $3\frac{1}{2}'$ by $1\frac{1}{2}'$

256 windows $4'$ by $2\frac{1}{2}'$ by $1\frac{1}{2}'$

and 128 clerestory windows $3'$ by $1\frac{1}{2}'$ by $1\frac{1}{4}'$

On the 23rd of November, 1917, the Contractor submitted an account bill for 94 doors, 34 windows and 124 clerestory windows amounting to Rs. 2,491-8-0 on which the Assistant Engineer, Mr. Kedar Nath, was asked to verify the materials and enter running measurements. He made out a bill for Rs. 2,226-3-0 on 3rd January, 1918, which had undergone check in my Office and I was just going to pay the same when fire broke out in the contract-

or's godown on the 7th of January, 1918 and burnt nearly all these door and window leaves besides others in course of preparation. Besides the doors and windows prepared for the hostels there was some stock of timber collected by the Contractor and there were also nine Takhats prepared for the Central Hindu College boarding house which have been paid for but left with the contractor as there was no space in the Central Hindu College for them. A report of this accident has already been made to the Hon'ble the Vice-Chancellor in this office No. 181-C-1 dated 15th January, 1918.

20. Mahamahopadhyaya Pandit Lakshman Shastri Dravida.

1. Dr. Ganesh Prasad proposed and Professor Seshadri seconded that Mahamahopadhyaya Pandit Adityaram Bhattacharya, M.A., do take the Chair. The resolution was passed unanimously.

2. The following resolution was put from the Chair and passed, all members standing :—

‘The Faculty of Arts places on record its profound

sense of the irreparable loss sustained by the Benares Hindu University in the death of the first Vice-Chancellor, the Hon'ble Dr. Sir Sundar Lal, Kt., C.I.E., B.A., LL.D., who laboured strenuously for its establishment and organization and guided its affairs with distinguished ability, loving care and zealous enthusiasm and the Faculty requests the Pro-Vice-Chancellor to convey its deep sympathy to Lady Sundar Lal and other members of his family."

3. The minutes of the last meeting of the Faculty held on the 27th October, 1917, were then confirmed.

4. On the motion of Mr. Keightley, seconded by Professor Batheja, it was resolved to postpone the election of the Dean of the Faculty till after the next meeting of the Court.

5. On the motion of Professor Seshadri, seconded by Professor Adhikari, it was resolved to accept the report of the sub-committee appointed under resolution No. 3 of the meeting of the Faculty of Arts, held on the 27th October, 1917, to consider the scheme of studies in Domestic Economy proposed by Miss K. Browning, M.A. (*vide* Appendix A).

6. Resolved that the Senate be requested to establish two more Boards of Studies, one in Domestic Economy and the other in Teaching.

7. Professor Jadu Nath Sarkar, M.A., P.R.S., convener, of the Board of Studies in History, then laid the following proposals regarding the alterations in the History Course before the Faculty on behalf of his Board. His note containing these proposals had already been circulated.

(a) Resolved that the following two points, numbered VI and VII in the note, be referred to all Boards of Studies, which have to prescribe M.A. and M.Sc. Courses.

(I) At the M. A. examination a thesis on an approved subject may be submitted in lieu of any two papers.

(II) To put a discount on mere memory work and to encourage depth of thought and range of reading, the time limit for a written paper should be extended to four hours.

(b) The rest of Professor Jadu Nath Sarkar's proposals were passed as amended (*vide* Appendix B).

8. Professor Batheja, convener of the Board of studies in Economics laid before the meeting the following proposals regarding the alterations in the Economics Course, on behalf of his Board.

(a) It was resolved that as had been done already in the case of History Courses, the following two proposals of Professor Batheja be referred to all Boards of Studies that have to prescribe M.A. and M.Sc. Courses.

"We suggest that a thesis may be offered in lieu of any two papers. We also think that the time allowed for answering an M.A. paper should be extended to 4 hours."

(b) Professor Batheja proposed that Elementary Economics and Indian Administration be made an optional subject at the Intermediate Examination. It was opposed by Dr. Ganesh Prasad, who suggested that its consideration might be postponed till the annual meeting of the Faculty. After some discussion the proposal was carried.

(c) Read the courses of study in Economics and Political Philosophy proposed by Professor Batheja (*vide* Appendix C). The Faculty accepted the course proposed for the Intermediate Examination.

As regards the B. A. Courses, Papers I and III (Pass Course) were accepted, but the introduction of Paper II (Pass Course) was opposed by Mr. Keightley, on the ground that it was far too intricate and difficult for the B.A. Pass Course.

Professor Seshadri supported Mr. Keightley.

Professors Sarkar and Chablani having replied to Mr.

Keightley, Dr. Ganesh Prasad moved the amendment that the consideration of the subject matter of Paper II (Pass Course) and Paper IV (Honours) be postponed to the annual meeting of the Faculty.

Professor Batheja opposed this proposal very strongly, because, the whole course, he said, hung together, being an organic whole, and a part could not be taken out without destroying the value of the whole.

The sense of the meeting was however against him, and on votes being taken Dr. Ganesh Prasad's amendment was carried by 9 votes to 5.

The Faculty accepted the course proposed for the M.A. examination.

Resolved that the new courses in Economics be taught for the M.A. Previous examination of 1919 and for all other examinations of 1920.

9. Pandit Ram Narayan Misra, B.A., convener of the Board of Studies in Hindi, placed before the meeting the proposals of his Board regarding the changes in the Hindi Course.

While the Hindi Course for the Admission Examination was being discussed, some of the members present expressed their disagreement with the proposed scheme, and it was resolved to postpone the consideration of the proposals of the Hindi Board of Studies to the next meeting of the Faculty of Arts.

ADITYARAM BHATTACHARYA,

Chairman.

APPENDIX A.

Minutes of the meeting of the sub-committee appointed by the Faculty of Arts at a meeting held on the 27th October, 1917, to consider the scheme of studies in Domestic Science proposed by Miss K. Browning, M.A.

FRIDAY, THE 15TH OF JANUARY, 1918.

Present :

1. Professor P. Seshadri, M.A.,
2. Professor Phani Bhusan Adhikari, M.A.,
3. Pandit Ram Narayan Misra, B.A., and
4. The Registrar, (*Convener*).

The following resolutions were passed :—

1. The sub-committee recommends that an alternative course in Domestic Science, specially suitable for Indian women candidates, be allowed in the Intermediate, B.A. & B.Sc. Examinations.

2. In the Intermediate Examination, it may alternate with any one of the six subjects in II Group A (d & e.) or with the subjects in II Group B (c).

While generally approving of the scheme of studies suggested by Miss Browning, for the Intermediate, the committee recommends the formation of a Board of Studies in Domestic Science to lay down the courses in detail.

3. With regard to the B.A. and B.Sc. Courses, the committee does not approve of the formation of new courses for women in Psychology, Ethics, Political Economy and Biology, as the University has already provided for their study, but suggests that the Board of Studies in Domestic Science may be asked to lay down a more advanced course in Domestic Science, suitable for these examinations, as an additional optional subject.

To

The Registrar,

I have the honour to forward herewith a report of the sub-committee, appointed by the Joint meeting of the Faculties of Oriental Learning and Theology on March 12, 1918, to consider Resolution No. 6 of the new Ranavira Samskrit Pathshala Committee, dated December 2, 1917, referred to the said Faculties by the Syndicate Resolution No. 8, dated December 23, 1917, and to request that this report may be placed before the next meeting of the Faculty of Oriental Learning to be held on March 30, 1918.

1. It was unanimously resolved that students who have passed the Shastri Examination of the Ranavira Samskrit Pathshala may be admitted to the Shastri course of this University without being required to pass the Madhyama Examination, in view of the fact that the

courses of reading for the Shastri Examination of the Ranavira Samskrit Pathshala are in no way inferior in standard to that of Madhyama Examination of the Queen's College, Benares, which has been recognised as equivalent to the *Madhyama* of this University (*vide* Regulation 23 Chapter XL).

2. With regard to the Acharya Examination of the Ranavira Samskrit Pathshala, it was further resolved that students who have passed this examination may be admitted to the *Shastracharya* course of this University, as the courses of reading of the Acharya Examination appear to be in no way inferior in standard to those of the Shastri Examination of this University.

19. Pandit Manohar Lal Zutshi, M.A.

1. Before the proceedings commenced the Pro-Vice-Chancellor made a brief reference to the death of the Hon'ble Sir Sundar Lal, Kt., C.I.E., and placed the following resolution before the Senate :—

‘The Senate places on record its profound sorrow at the irreparable loss sustained by the Benares Hindu University in the death of the first Vice-Chancellor, the

Hon'ble Dr. Sir Sundar Lal, Kt., C.I.E., B.A., LL.D., who laboured strenuously for its establishment and organization and guided its affairs with distinguished ability, loving care and devotion, and the Senate requests the Pro-Vice-Chancellor to convey its deep sympathy to Lady Sundar Lal and other members of his family.'

The resolution was carried unanimously in silence, the whole assembly standing.

2. Rai Bahadur G. N. Chakravarti proposed that the minutes of the meetings of the Senate held on the 27th and 30th October, 1917, be confirmed.

The motion was carried.

3. Rai Bahadur G. N. Chakravarti said that he had a proposal to place before the Senate relating to the constitution of a board of studies in Teaching. Gentlemen of the Senate would remember that the late Sir Sundar Lal had mentioned that he was taking steps for constituting a board of studies in Teaching and for starting a Training College in connection with the University at an early date. Things had matured since then and while he (the speaker) was in Allahabad, he spoke to the Principal of the Training College and the Director of Public Instruction on the subject and they were willing not only to help them in starting and organizing the college but also in giving recognition to their graduates. Mr. Chakravarti indicated that they would be able to start the college in July next. The cost, he said, would not be very much. They would make an humble beginning with, say, 30 students. They would require only one Principal and a couple of Professors. The buildings were ready and schools were also ready. The first thing they had to do was to constitute a board of studies in Teaching. The Faculty of Arts at its meeting the previous day passed a resolution to the effect that the Senate be requested to establish two or more boards of studies, one in Domestic Economy and the other in Teaching. His present proposal related only to the establishment of a board of studies in Teaching. It would be for

the Faculty to constitute the board. All that they had to do was to empower the Faculty to do so. He, therefore, moved : That under Regulation 1, Chapter IV, the Senate authorises the constitution of a board of studies in Teaching consisting of not more than seven members.

Dr. Ganesh Prasad seconded the motion.

The Hon'ble Pandit Madan Mohan Malaviya said that a scheme for a Training College had been prepared and they should be able to start it in July next. The advantage of having this and the Law College was that they would enable the public to see that their graduates were admitted on a footing of equality with those of other universities. He hoped that their Training College graduates would be taken by Government and their Law graduates would be admitted by the High Court. Mr. Malaviya also mentioned that the Hon'ble Dr. Tej Bahadur Sapru had agreed to be the honorary Principal of the Law College.

Mr. Chakravarti's motion was put to the meeting and was carried.

4. Rai Bahadur G. N. Chakravarti moved : That in Regulation 2 of Chapters XXVIII, XXIX and XXXII the following words be added in the beginning : "Save on the recommendation of the Syndicate and by the special order of the Senate." Mr. Chakravarti said that the object of these proposals was to give the Senate the power, in very special cases, to allow candidates to go up for different examinations. In the Indian Universities Act this power was given, but either by oversight or for some reason with which they were not conversant no such provision was made in their Regulations. So, as their Regulations stood at present, they could not make an exception in any case. He, therefore, proposed to have this power in the case of the Intermediate, B.A., and B.Sc. Examinations.

Mr. P. Seshadri said that the Regulations covered all special cases and this further relaxation might give rise to

suspicion which was not desirable in the early stage of their career.

Dr. Ganesh Prasad : May I ask you, Mr. Pro-Vice-Chancellor, whether Mr. Chakravarti's proposition has been seconded ?

Mr. B. Keightley then seconded the proposal.

Mr. Chakravarti said that it was not clear whether seconding was necessary.

Dr. Ganesh Prasad drew attention to Regulation 13 of Chap. 1 which said that a motion "shall be open to discussion on being moved and seconded."

Rai Bahadur G. N. Chakravarti said that there was some force in what Mr. Seshadri had said. The Indian Universities Act mentioned the condition he proposed but it also contained the words "subject to the Regulations in force." His proposal did not say the permission should be 'subject to the Regulations in force.' It gave them almost a free hand to do what they liked. Although he was in favour of his proposition, he was prepared to accept the word of caution and would suggest that a committee be appointed to consider the question of changes in the Regulations.

The Hon'ble Pandit Madan Mohan Malaviya said that theirs was a residential University and residence in the University should be a very important factor in determining whether they should give a diploma or a degree to a student. He therefore thought that at this stage they ought not to relax their rules. They might see how they worked and if in future any special case came to their notice they might then consider the matter.

Mr. Keightley said that if the rules stood as they were at present, they could not consider any special case.

The Hon'ble Pandit Madan Mohan Malaviya said that theirs was a residential university and he could not contemplate with satisfaction the University granting a diploma or degree to a student who had not been through

the course of discipline which they expected of him to undergo by being a resident of the university.

Mr. Keightley pointed out that the Universities of Oxford and Cambridge had a general power. For instance, if a student migrated from one university to another, the latter university could allow the student to count the term of residence at the former university from which he migrated, as though he spent that term at the latter. But that power was exercised very, very rarely.

Dr. Ganesh Prasad said that he thought that Mr. Chakravarti had not been able to make out a strong case for any change in the regulations at that stage. Although the Allahabad and Calcutta Universities had certain discretion so far as B.A. and B.Sc. were concerned that special power had not been exercised at any rate it had not been exercised in the Allahabad University. As regards candidates coming from other universities, they had a provision in Regulation 2 of Chapter XXIX. It was perfectly clear that the gentlemen who framed the Regulations kept in mind the special nature of their University and they insisted on the students prosecuting a course of study in a constituent college of the university. He thought that it was not proper for them to go behind the explicit terms laid down there. As regards future there was ample time to consider what might be desirable or necessary.

Rai Bahadur G. N. Chakravarti said that for the present he would withdraw this motion and the next (No. 3 on the agenda) *viz.*, "To regulation 3 of Chapters XXX and XXXIII add the same words in the beginning and also the word "Only" after the word "Open" in line 1."

5. Rai Bahadur G. N. Chakravarti moved that in Chapter XXXI delete the words "Of the University." He said that the object of the proposal was to allow persons who had taken the M. A. degree in other Universities to offer themselves as candidates for the degree of Doctor of Letters of the Hindu University.

Prof. Jadunath Sarkar seconded the proposal.

Mr. P. Seshadri moved the following as an amendment to Mr. Chakravarti's proposal: "Add the words 'or of other universities when specially permitted by the Syndicate' after 'Any Master of Arts of the University' in Regulation 1 of Chapter XXXI." He said that there was some difference between his proposal and that of Mr. Chakravarti. According to his amendment, the M. A.'s of other universities could offer themselves as candidates for the degree of Doctor of Letters only with the special permission of the Syndicate.

Rai Bahadur G. N. Chakravarti accepted the amendment.

Prof. Sarkar said that the principle underlying the proposals was one which had been accepted by all the universities in the West. The University of Paris, for instance, had accepted it. It was not necessary that the student should be in residence in the University then or that he should pass a lower examination. Therefore, in introducing this change they would be only acting in accordance with the highest educational opinion in Europe.

Dr. Ganganath Jha said that under the proposal they would admit to the Doctorate of Letters a graduate of another university who had not spent a single week in the Hindu University and who sent up a thesis. He would say that that man had not undergone the discipline this University laid down. He doubted the wisdom of giving high credentials to men who had not undergone the course laid down.

Dr. Ganesh Prasad moved the following amendment: "Read 'or of any other University when specially permitted by the Senate' for 'or of other Universities when specially permitted by the Syndicate' in Mr. Seshadri's proposal. The speaker said that he had considerable sympathy with the attitude taken up by Dr. Ganga Nath Jha. Their University had certain traditions. Doctorate was

the highest distinction which they could confer on any man, and if they made it easy for people who were not brought up in the traditions of the Hindu University to go there merely for the sake of taking away that very high distinction they would be doing a thing which was not tolerated in any university. Let them take for example the neighbouring universities of Allahabad and Calcutta. What did they find there? In the case of the Allahabad University there was absolutely no provision permitting outsiders to go up for the degrees of D.Litt., D.Sc., or LL.D. In the case of M. D., however, a change had recently been introduced and the new regulation only emphasized the attitude that he took up. In the University of Calcutta also the regulations did not allow a man who was not an M.A. or M.Sc., of that university to go up for a higher degree. He must say in this connection that a few years ago an exception was made in the case of one gentleman, Dr. Ram Das Khan. That gentleman took a high degree in America and he was permitted by the Calcutta University to go up for Ph.D. and he succeeded in obtaining that degree. The University authorities then made it perfectly clear that in no circumstances would the case of Dr. Ram Das be regarded as a precedent. He knew of a case in which a graduate of the Bombay University applied to the Calcutta University for permission to go up for the D. L. degree of that university, but the application was rejected. They would thus see that those two universities were very, very careful about this matter. They were not desirous that a man, who had not been brought up in their own traditions, should take away the highest distinction they could give. There was good reason, therefore, for their being very cautious in regard to this matter. They ought not to make their university a mere examining one, a university which simply gave out degrees right and left. As he said before, he had considerable sympathy with the attitude taken up by Dr. Jha and he was inclined more towards his

attitude than towards that of Mr. Seshadri, and it was only as a sort of compromise that he brought forward this amendment since all such special concessions were granted by the Senate.

Mr. Lakshminarayan seconded the amendment.

Mr. Keightley said that if the mover of the amendment accepted a modification requiring of candidates' residence and research work in the University for a period of one or two years before they presented themselves as candidates for the degree that would remove all objections. It would be a distinctly better attitude to take up than to shut their doors against advanced students who might be really willing to reside in the university and do research work.

The Hon'ble Pandit Madan Mohan Malaviya said that he agreed with what Mr. Keightley had said, but his was a proposal which required to be discussed after proper notice. He suggested that they might take it up in proper form at a subsequent meeting. Speaking generally he said that they should be zealous of the conditions they laid down for the grant of degrees. The University was in an infant stage and they should not do anything which would expose them to the charge that they were trying to gain popularity by cheapening degrees.

Mr. Keightley suggested that Mr. Seshadri might withdraw his amendment and that a committee be appointed as suggested by Mr. Chakravarti, to consider the question of changes in the Regulations.

Mr. Seshadri withdrew his amendment.

Dr. Ganesh Prasad then proposed that a sub-committee consisting of the undermentioned gentlemen be appointed to consider the question of opening the doctorate in arts and science to graduates of other universities than the Benares Hindu University :—

The Vice-Chancellor,

The Pro-Vice-Chancellor,

The Hon'ble Pandit Madan Mohan Malaviya,
Prof. Jadunath Sarkar,
Prof. P. Seshadri,
Prof. Bertram Keightley,
Dr. Ganesh Prasad,
Rai G. N. Chakravarti Bahadur (*Convener*).

The Hon'ble Pandit Madan Mohan Malaviya seconded the motion and it was carried.

6. Rai G. N. Chakravarti Bahadur moved :

That in Chapter XXVIII the following two regulations be added after regulation 2 and the regulations following be renumbered :

(a) Notwithstanding anything contained in Regulation 2, inspecting officers of an educational department, school-masters teaching in schools recognized by the University, demonstrators serving in the University or colleges affiliated to the University, may be admitted to the Examination by the special grace of the Senate provided that by the date of the examination not less than two academical years shall have elapsed since the dates of their Matriculation and that the period of continuous service shall have been not less than 18 months."

(b) "Before a candidate is permitted by the special grace of the Senate to present himself in any science subject he shall produce a certificate from the principal of the University or a college affiliated to this University or some other University established by act of Legislature to the effect that he has completed the required course in the College laboratory."

The mover said that he had taken these bodily from the regulations of the Allahabad University. He thought they ought to give the same facilities to their teachers as the Allahabad University gave to its teachers.

Dr. Ganganath Jha: May I enquire what the term "Educational Department" means in this case? Does it mean Educational departments throughout India?

Mr. Chakravarti: Yes.

Professor Nag seconded the proposal.

The Hon'ble Pandit Madan Mohan Malaviya suggested caution in this matter.

Mr. Chakravarti then suggested some modifications in his proposals and they were accepted by the Senate in the following form:—

(a) "Notwithstanding anything contained in Regulation 2, school-masters teaching in schools recognized by the University, demonstrators serving in the University or any of its constituent colleges may be admitted to the examination by the special grace of the Senate provided that by the date of the examination not less than two academic years shall have elapsed since the date of their Matriculation and that the period of continuous service shall have been not less than 18 months."

(b) "Before a candidate is permitted by the special grace of the Senate to present himself in any science subject he shall produce a certificate from the principal of a constituent college of the University to the effect that he has completed the required course in the college laboratory."

7. Rai Bahadur G. N. Chakravarti moved that in Chapter XXIX after regulation 2, regulation (a) (as modified above) be added and that the words "passing the Intermediate Examination" be substituted for the word "Matriculation."

After it had been duly seconded it was put to the meeting and carried.

8. Rai Bahadur G. N. Chakravarti moved that in Chapter XXXII after regulation 2, the regulation (a) (mentioned above in item No. 7.) and regulation (b) (mentioned in item No. 6.) be added. The mover said that this proposal related to the B.Sc. examination. The Allahabad University had not so far allowed school-masters to appear at the B.Sc. Examination. At the last meeting of the Faculty of Science of that University he (the speaker) moved for a change and the Faculty approved that

change. What he proposed there that day was in conformity with that proposal of the Faculty of Science of the Allahabad University which would have to be passed by the Senate of that University at its next meeting.

The Pro-Vice-Chancellor interrogated as to how long the Allahabad Science Faculty had existed and when the last change about the matter in question had taken place.

Professor Nag said that the Allahabad University was not changing the rule ; it was only explaining the meaning of the rule.

Mr. Chakravarti said that it was not a question of age. The reason why the Allahabad University had not made this change so far was that their school-masters, as they stated, were spread all over the province and they could have no facilities for the study of science. He then pointed out that there were some institutions, such as Queen's College, where they could have facilities. But there could not be any such difficulty in the case of the Hindu University.

The Pro-Vice-Chancellor (to Dr. Ganesh Prasad):—
What is the practice in the Calcutta University ?

Dr. Ganesh Prasad said that the Calcutta University interpreted the rules in a more liberal manner.

Professor Nag seconded Mr. Chakravarti's proposal and it was put to the meeting and carried.

9. Rai Bahadur G. N. Chakravarti moved that in Regulation 1, Chapter VIII under (a) after the words "Pro-Vice-Chancellor" the words "the University Professors" be added.

The mover said that the Library committee as constituted at present consisted of the Vice-Chancellor, the Pro-Vice-Chancellor, the Registrar, the Librarian and eight other members appointed by the Senate of whom not less than four should be professors or other members of the teaching staff of the University or principals or professors of constituent colleges. It seemed to him eminently desirable that their University professors also should be on the committee.

Dr. Ganesh Prasad seconded the motion.

Mr. Seshadri said that Mr. Chakravarti's proposal would make the committee unwieldy. He would therefore propose the following as an amendment: That the number of members to be elected by the Senate be raised from 8 to 12 with a view to secure better representation of the subjects of the University courses, and the minimum number of professors be raised to 8.

Professor Dutt seconded the amendment.

Mr. Keightley suggested that 'resident professors' should be substituted for "University professors."

After some discussion the Hon'ble Pandit Madan Mohan Malaviya proposed that the proposal to enlarge the Library Committee with a view to securing the representation of all departments be referred to that Committee itself for opinion.

The Hon'ble Pandit Madan Mohan Malaviya's proposal was accepted by the meeting.

10. Mr. Seshadri moved the following resolution "Notwithstanding anything to the contrary contained in the regulations, Samskrit shall not be one of the compulsory subjects of study in the B.A. course for such students as are now in the Intermediate Arts classes of the Central Hindu College and have not taken up Sanskrit as one of their subjects for the Intermediate course."

The mover said that the proposal was somewhat in the nature of a transitory regulation. The Senate had made a provision some time ago to enable the present students of the Central Hindu College pursuing the Allahabad University courses to appear at their examinations. Some difficulties which came to light now were not anticipated when they passed that regulation. At present in the Intermediate class of the C. H. C., on the Arts side, there were a number of students who had not taken Sanskrit as one of their subjects. According to the course of the Hindu University those students who had not taken Samskrit would be compelled to take Samskrit as a compulsory subject in the B. A. class. That would be a great hardship

to them. He, therefore, asked the Senate to grant them the concession proposed.

Prof. Rane seconded the proposal.

Prof. Batheja said that it was too drastic a step to make Samskrit compulsory at that early stage. There were also practical difficulties in the way. There were many provinces where Samskrit was not taught to the students. If they made the study of Samskrit compulsory they would exclude people from other provinces from the University. It was however possible there might be other ways of making the study of Samskrit popular. So he would propose the following amendment :—

That a committee consisting of :

Mahamahopadhyaya Pandit Aditya Ram Bhattacharya, M.A.,

The Hon'ble Pt. Madan Mohan Malaviya, B.A., LL.B.,

Pandit Baldev Ram Dave,

Rai G. N. Chakravarti Bahadur, M.A., LL.B.,

Professor Jadunath Sarkar, M.A., P.R.S.,

Professor P. Seshadri, M.A., and

Professor N. C. Nag, M.A.,

with Pandit Madan Mohan Malaviya as convener, be appointed to consider the difficulties alleged to have been created by the regulations making Samskrit compulsory for the B.A. and F.A. Examinations and to recommend the best method which the University can adopt to popularise the study of Samskrit without sacrificing its general efficiency, and that until such recommendations are received and considered by the Senate, B.A. and F.A. Students may be permitted to offer in lieu of Samskrit any other optional subject allowed by the regulations.

The Hon'ble Pandit Madan Mohan Malaviya suggested that the proposal of Mr. Seshadri be accepted and that Mr. Batheja's proposal be withdrawn for the present.

Dr. Ganganath Jha said that he fully remembered the motives that led them to include Samskrit as a compulsory subject in the Arts course. They considered it as a sacred

trust and so they had to preserve that trust. There were a few students who had not read Samskrit and he thought it would be wise and in keeping with the spirit of the University if for those few students they prescribed a special course in Samskrit, an elementary course which it would not take more than six months to master. That would be a proper course to follow having regard to the motives that lay behind the regulations.

Dr. Ganesh Prasad suggested that with the permission of the chairman, Dr. Jha might move an amendment on the lines he suggested.

The Pro-Vice-Chancellor said that speaking as a member of the Senate he had a great amount of sympathy with the course suggested by Dr. Jha. In Calcutta, for instance, Samskrit was not compulsory before 1864. In 1864, a rule was introduced making Samskrit compulsory in Intermediate. The authorities then introduced a light course in Samskrit to enable students to master it. Subsequently, however, the course was made heavy. The same thing could be done in the Hindu University also.

Mahamahopadhyaya Pandit Hara Prasad Shastri said that they had done the same thing in the Faculty of Oriental Learning. Some courses were found to be heavy, and they lightened them. They might do the same thing here.

After some discussion the Hon'ble Pandit Madan Mohan Malaviya moved that the consideration of the proposal be postponed till the next meeting.

The motion was put to the vote and carried, 7 voting for and 6 against it.

11. Mr. Seshadri moved : Regulation 4 of Chapter X, regarding the annual fee to be paid by registered graduates, shall apply only from the date from which the Court confers upon them the privilege of electing fellows to the Senate as contemplated by Statute 19 (Cl. 11b).

The mover said that according to the regulations the graduates had to pay a certain fee for getting their names

registered; they were also required to pay an annual fee of Rs. 2. According to the statutes the right of electing fellows would be conferred on the registered graduates by the University at a certain stage at some future date. He, therefore, proposed that the regulation relating to annual fee be kept in suspense until the privilege of electing fellows was conferred on the registered graduates.

The Hon'ble Pandit Madan Mohan Malaviya opposed the proposal. He said that so long as a graduate did not get himself registered he would not be required to pay the annual fee. If the privilege of electing fellows was conferred on them after many years and if there was a hardship, then they might discuss the matter. At present they could not say when the privilege would be conferred.

Mr. Seshadri withdrew his proposal.

12. Prof. Jadunath Sarkar proposed certain changes in the History courses of the Intermediate, B.A. and M.A. classes.

The mover said that the reasons that led the Board of Studies to suggest these modifications in the courses had been set forth in the introduction to his note and he would not, therefore, take up the time of the Senate by going through them now. He, however, wanted to explain, if any such explanation was necessary, that no reflection was cast upon those gentlemen who at considerable expense of time drew up the old course. The revised course, he said, was proposed only from the point of view of teachers and students. They could not amplify their staff as much as the teachers would desire and so they must put the teachers to the best use. Further, they had in view the higher ambition of encouraging their staff, each to specialise in his own department. They wanted also to encourage a deeper study among their M.A. students. With these objects in view they had proposed some changes in the courses. They had suggested no change in the I. A. course. In the B.A. (pass) course also no change was made. In the B.A. (honours) course a slight

change was suggested. In the M.A. course they suggested many changes. Several text-books had been retained and in some cases later works had been prescribed without making any departure from the standard. Thus, the changes were not so revolutionary as they appeared on paper. The principles followed in revising the M.A. course had been detailed in his note. Prof. Sarkar explained that the board of studies met by compartments and in an informal manner. They could not always summon Pandit Hara Prasad Shastri to all the meetings of the Board. So all the local members of the Board met together and discussed the scheme in great detail. Then he went to Bankipore to discuss it with Shastriji. The speaker also said that this change implied no censure on any one. The Calcutta University, he pointed out, had three different courses in the course of three years.

Prof. Batheja seconded the resolution.

Mahamahopadhyaya Pandit Hara Prasad Shastri said that in the case of the Calcutta University he found that one course was in force for 10 years and thereafter a change was made in the course. In the present case one course was only formulated, and not even acted upon, and still a change had been made. In framing that course great care was taken to intensify the study of the history not only of lesser India but of greater India, also. They suggested that the histories of the countries surrounding India, in the west and in the east should also be read by students. In the revised course much of what they suggested had been taken away and a good deal of European history with which they, in India, had nothing to do was put in. There they were dealing with a new ideal of Indian history, an ideal with which the Hindus were more conversant. If they simply imitated the courses of other universities he did not think it would be quite proper to call that course a 'Hindu University course.'

Prof. Batheja explained the considerations that led the Board of Studies to make the changes in the courses.

He said that they considered the old courses and found some defects in them. Their aim was specialisation and with that end in view they followed a different course in grouping the subjects. For instance, if a man wanted to specialise in ancient history, they required him to study the 'ancient group' and if a man wanted mediæval history, they required him to read the 'mediæval group' and so on. He would ask the Senate to say whether this principle which they followed was not more useful.

The Hon'ble Pandit Madan Mohan Malaviya suggested some changes in the proposed course.

Prof. Satyavrata Bhattacharya said that the salient feature of the existing course was that it provided for specialisation in Indian history. The old Board of Studies was impressed by the view that everything should be done to encourage the study of Indian history in this university and therefore they tried to make the study intensive as far as possible. At the same time, they believed that to send out from the University an M. A. history student who knew nothing of the history of other countries would be farcical. So, what the board attempted to do was to make the Indian history course very intensive and to provide for a surface study of the histories of other countries, as well. This year, the Board of Studies changed the course in certain respects. They left the Indian history course practically as it was, but they thought that a mere surface study of the histories of other countries would not do and therefore provided for intensive study of certain periods of the histories of other countries also. This was the difference between the existing course and the proposed course.

Prof. Sarkar briefly replied to the criticisms. Referring to the remarks of Pandit Hara Prasad Shastri he said that they had provided in the revised course for the study of the history of further India also. He was as keen about the glory of their ancestors beyond the boundaries of India as any one could be and he might mention inci-

dentially that he got permission to order by telegram some very rare books of a celebrated orientalist which were being sold and he hoped he would be able to secure them for the University. He next explained in detail the changes made in the course for the M. A. and agreed to make certain changes suggested by Pandit Madan Mohan Malaviya.

Dr. Ganga Nath Jha said :—‘ If it is found necessary to make any important changes in the proposals of the Faculty then I propose that these proposals with the proposed changes be sent back to the Faculty for opinion.’

After some discussion Dr. Jha withdrew the motion, and the Senate adopted the course with some modifications. (*Vide Appendix A*).

13. Prof. Batheja brought forward proposals for instituting Economics as an option in the Intermediate course and making certain changes in the Economics courses of the B.A. and M.A. degrees.

The mover said that the Board of Studies in Economics had held several meetings, always formally convened, and had spent considerable time in framing the new courses. Mr. Manohar Lal, who could not attend, had been consulted by correspondence, and the Board had given the very best consideration to his suggestions and adopted them as far as possible. The Board had also the satisfaction of knowing that the new course was approved by the gentleman who had framed the old course. The new revised course was laid before the Faculty of Arts on the previous day and passed by the Faculty with certain modifications. He was now placing before them the course as it had been amended by the Faculty.

Professor Satyavrata Bhattacharya seconded the motion and it was passed (*vide Appendix B*).

Resolved that the new courses in Economics should come into force from July 1918 with respect to the next Previous Examination of 1919 and all Examinations of 1920.

14. Prof. Nag moved :

‘Resolved that an additional course in Chemistry fully covering the requirements of the Preliminary Scientific examination of the medical degree of the Allahabad University should be provided and it should be optional for candidates appearing for the Intermediate examination to take this course in addition to the ordinary course.’

‘Resolved further that the syllabus prescribed by the University of Allahabad for the Preliminary Scientific examination be adopted for this additional optional course in Chemistry.’

The mover said that their Intermediate students had to read a course which was lower than the course prescribed by the Allahabad University for students who wished to go up for the Preliminary Scientific examination.

In order to enable their Intermediate students to appear at the medical examinations, he had proposed an optional course, and his proposal had been accepted by the Faculty of Science.

Dr. Ganga Nath Jha seconded the proposal and it was passed.

15. Dr. Ganga Nath Jha pointed out that there was some overlapping between the following proposal (item 16 of the Agenda) and resolution No. 4 (2) of the Faculty of Oriental Learning passed that morning, and he therefore proposed that its consideration be postponed to the next meeting of the Senate and in the meanwhile both of them be referred to the Syndicate.

“Resolved that the Senate be requested to add the following proviso to Regulation 15, Chapter XIV of the Regulations :—

Provided that any one who has passed the Traivarshika, Shastri and Acharya examinations of the Ranavira Samskrit Pathshala or the Tirtha examination of Behar or the Tirtha examination of Bengal, shall be eligible for admission without being required to pass the Praveshika examination.”

The Hon'ble Pandit Madan Mohan Malaviya seconded the proposal and it was passed.

16. The Senate next considered the following resolution of the Syndicate passed on the 28th November, 1917:—

“Read resolution No. 3, passed by the Faculty of Oriental Learning at the meeting held on 5th May, 1917, and resolution No. 6 passed by the same Faculty at the meeting held on 28th October, 1917 (*vide* Appendix C), as well as the notes of Mahamahopadhyaya Dr. Ganga Nath Jha, dated 22nd November, 1917, regarding the separation of Kavya Sahitya from Vyakarana. Resolved that the matter be referred to the Faculty of Oriental Learning and to the Senate, and copies of Mahamahopadhyaya Dr. Ganga Nath Jha's note (*vide* Appendix D) as well as of any note which may be received on the subject from the Pro-Vice-Chancellor (*vide* Appendix E), should be sent to both the bodies.”

Mahamahopadhyaya Pandit Hara Prasad Shastri moved:—‘that at the Shastri stage Vyakaran-Sahitya combined in the old regulations be separated as two different subjects, *viz.*, Vyakaran and Sahitya and that the Government be moved to accept the recommendation.’

Mr. Seshadri seconded the proposal.

Dr. Ganga Nath Jha opposed the motion. He said that from the inception of this University the ideal before him was that the courses of study and methods of examination in this University should be an improvement on the courses of study and methods of examination prevailing elsewhere in the country and he had always fought for that ideal. One of the great evils of the examination system at present had been to lower the standard of scholarship of Pandits. Even though the system had been in vogue for 30 years there had not been a single man who had been classed as a first class Pandit. Considering all that, they combined the two subjects, *viz.*, Grammar and Literature, in the curriculum of the Hindu University. He pointed out that the combining of the two was not an imitation of any current terminology; it was a deliberate thing put in with

a view to remove a great drawback. It was only a feeble attempt at undoing the wrong that had been done to Samskrit scholarship by the system of examination that had been in vogue throughout the country during the last 30 years. Ever since the proposal of separating the two subjects had been brought forward in this University, he had tried his best to fight against it. Therefore it was that he was opposing it even then although on principle he was opposed to upsetting the decisions of a Faculty. He would be proving false to himself if he did not oppose it. As regards the procedure that had been adopted in regard to this matter the speaker said that the resolution of the Syndicate was that the matter be referred to the Faculty of Oriental Learning. When the matter was considered on the 10th March, 1918, it was not considered by the Faculty of Oriental Learning but by a joint meeting of the Faculties of Theology and Oriental Learning. The previous day the Faculty of Oriental Learning considered the matter and it said that the subject should not be re-opened as it had been considered once.

The Hon'ble Pandit Madan Mohan Malaviya among other things put special stress on the following two reasons in favour of the change which he placed before the meeting in his reply to Dr. Jha.

(a) The first was that having allowed the alternative courses in Vyakarana it was only just and consistent not to demand a knowledge of the higher grammatical merits as was included in a combined course such as has been or would be prescribed.

(b) Dr. Ganga Nath Jha himself suggested separate courses of Sahitya and Vyakarana in the Allahabad University, why then his opposition here.

The Pro-Vice-Chancellor then described at length the history of the question and gave his own reasons for supporting the proposal of Pandit Haraprasad Shastri. He observed that he was not behind any body in his desire to improve the study of Samskrit in the Hindu University.

He referred to his note (*vide* Appendix A of the minutes of the Faculty of Theology dated 15th February, 1917) on the lines on which Sanskrit should be studied in the Hindu University. His remarks on Dr. Ganga Nath Jha's note in connection with this separation of Sahitya and Vyakarana, had dealt with fully all that Dr. Ganga Nath Jha had stated in his note and he (the speaker) would not repeat them here. As to the technical objection that the question was not discussed in the meeting of the Oriental Faculty but in a joint meeting of the two faculties of Oriental Learning and Theology, he observed that the joint meeting was convened under a resolution of the Syndicate (*vide* resolution No. 6 (b) of the meeting of the Syndicate held on 27th January, 1918) and all the fourteen members who attended the joint meeting had voted in favour of the separation of the study of Sahitya and Vyakarana at the Shastri stage. Of these fourteen all were members of the Faculty of Oriental Learning, some of them being common to both the Faculties.

Dr. Ganesh Prasad in the course of his speech supporting the proposal of Pandit Hara Prasad Shastri said that he saw nothing incorrect in the procedure of the Joint meetings of the Faculties of Oriental Learning and Theology to which exception has been taken by Dr. Ganga Nath Jha and that considering all that he had heard on both sides he would vote for the proposal.

The resolution was finally passed by the Senate, Dr. Ganga Nath Jha voting against.

17. Read resolutions Nos. 5 (II) and (IV), 6 and 8 (*vide* Appendix C) of the joint meeting of the Faculties of Oriental Learning and Theology of the Benares Hindu University held on the 10th March, 1918.

Resolved that the recommendations be accepted.

His Honor Sir Harcourt Butler, K.C.S.I., C.I.E., I.C.S., Lieutenant-Governor of the United Provinces of Agra and Oudh, Visitor of the University, also kindly attended the meeting.

His Highness the Pro-Chancellor in opening the proceedings of the meeting said :—

“Gentlemen, we meet to-day under the gloom of a great loss and deep sorrow. The death of our worthy and universally esteemed Vice-Chancellor, Sir Sundarlal, while he was still in full possession of his physical and mental powers, has been a blow which might well stagger the University. The late Dr. Sundarlal had the rare combination of practical common sense with goodness of heart in an eminent degree and this wonderful admixture shone forth, both in his private and public life. I am sure I am voicing the general sentiment, without in any way casting any reflection upon the many eminent and worthy gentlemen in our midst, when I say, that it will not be an easy thing to fill his place.

" Though he is dead, his spirit and good example will remain to inspire us to be actuated by the high ideals that moved him, and to follow, to the best of our ability, in his footsteps. Gentlemen, this is a heritage of no mean value.

" I think I may also be permitted, on behalf of the University, to offer to Lady Sundarlal and those nearest to him our heart-felt sympathy.

" Gentlemen, now it is my pleasant duty to offer to Sir Harcourt Butler, the Ruler of these Provinces and an Ex-officio Patron of the Benares Hindu University, not only on my own behalf as the Pro-Chancellor but on behalf of the University as a whole, our heart-felt welcome. I welcome Sir Harcourt Butler, not only as an old and esteemed friend, but as one who has taken an active part in promoting the cause of Indian Education in general and of this University in particular. We all know how much the success of our University Act through the Imperial Legislative Council was due to his valued and friendly interest and advice and active help. It is a good augury for the future well-being of this great Institution that during its infancy, it should have the fostering and parental care of Sir Harcourt Butler. We may also rely, in times of stress and difficulty, upon his sympathy, and even I make bold to say, within the limits permitted to him, upon his help. Sir Harcourt has sown the seed and the plant that has grown out of it will engage his tenderest care.

" Since we met last, the construction of some of the necessary buildings has begun. The Arts College, the Science College with its Physical and Chemical Laboratories, a certain number of residences for Professors, and hostels which will accommodate 600 students, are in the course of construction or about to be taken in hand. Other buildings are being planned. Difficulties arising out of the War will somewhat delay the work, but the Engineering Staff is working hard to expedite the construction as much as circumstances permit.

“I understand that since we last met, Sir Sundarlal had matured proposals for the starting of a Teachers’ Training College here from July next. I am pleased to hear that the proposals are being considered by the Council and the Finance Committee. The establishment of such a College seems desirable not only because it will provide a vocational training to our graduates and open a useful career to them, but also because it will partly meet a want which is keenly felt. Trained teachers are everywhere in demand, both in British India and Indian States, and I hope the College will soon be brought into existence. We may expect that some of the States will send their graduate-teachers here to receive the benefit of a regular course of training and thereby to enhance the value of their teaching. In this matter also, as in others which our University is expected to undertake, our aim should be the highest and we should endeavour to produce a type of trained teachers who will be the Indian counterpart of the famous masters of some of the public schools in England. In this connection, I am glad to learn that the learned Director of Public Instruction of the United Provinces and the Principal of the Government Training College, Allahabad, have kindly offered to help us with their advice and co-operation. They are entitled to our thanks.

“I understand that proposals for establishing a Law College also are under consideration. In my opinion it can wait till the more pressing needs of the country are satisfied. As I suggested to the late Dr. Sundarlal some time ago, it is of the utmost importance that instead of purely theoretical Science and Law, the University substituted Agriculture and Commerce until such time when the University could afford to have them all. I attach no end of importance to Agriculture and Commerce, and I trust the Senate will be good enough to take this suggestion into their serious and close consideration.

“But the most important advance which it gives me

pleasure to bring to your notice, has been in the direction of the formation of the Faculty of Technology. I am glad to mention the handsome grant of Rs. 24,000 a year, in addition to the lump grant of Rs. 2,00,000 made by His Highness the Maharaja of Jodhpur as an endowment for the Jodhpur Hardinge Chair of Technology. You will also rejoice to learn that my esteemed friend His Highness the Maharaja of Patiala, has been pleased to sanction the handsome grant of Rs. 5,00,000 non-recurring and Rs. 24,000 per annum recurring to promote the teaching of electrical and mechanical engineering at our University. And our Chancellor, His Highness the Maharaja of Mysore, also has in addition to his lump grant of Rs. 2,00,000 sanctioned an annual grant of Rs. 12,000 for ten years. I am sure you will desire me to convey our warmest thanks to all those generous donors for their very liberal and timely donations. Evidently these three grants totalling Rs. 60,000 a year have made it possible for us now to start a Faculty of Technology. I am informed that Sir Sundarlal has actually taken some steps towards the formation of this Faculty. A scheme is now under preparation, and, when it is ready and has been duly considered and passed by the proper University authorities, it will be submitted to our Visitor for his sanction, which is required under the Act.

“Gentlemen, if Technology has received so liberal a support there is no reason why a similar good fortune should not attend the Faculties of Agriculture and Commerce to the early creation of which I have already drawn your attention. What is wanted is to get a scheme prepared by experts and to announce the cost, both initial and recurring which it may involve. I feel sure that an appeal for them backed up by facts and figures will meet with the same ready response as the one for Technology.

“I ventured in my two previous addresses to lay certain matters before you for consideration, and I am sure they will all receive due attention from those in whose hands lies the difficult task of administering the affairs of the

University. I venture to think that it would be helpful if it were made known publicly or privately what fate has attended the various suggestions that may have been put forward or may be put forward in the future and in the case of their non-adoption, the reasons for such a conclusion.

"I have detained you long, but I cannot conclude my address without making a reference to the most important business on the agenda of this meeting, namely, the election of a new Vice-Chancellor. I will not anticipate the result of your voting but can only ask you to weigh carefully the "*pros*" and "*cons*" in respect of each of the names that may be proposed, so as to ensure your choice falling on a worthy person under whose capable and thoughtful guidance our infant University will make sound progress and attain prosperity.

"In conclusion, let me, gentlemen, exhort you not to be discouraged by adverse circumstances. In holding on steadfastly to a high purpose you will find your greatest support. You have undertaken the enlightenment and uplifting of the rising generation of your countrymen without distinction of caste or creed, and through the blessings of the Almighty God, so long as this great ideal and high purpose remain your goal, without any selfish motive to shake your purpose and unnerve your resolve you have every reason to hope and none to despair."

On the conclusion of His Highness' address, the Pro-Vice-Chancellor Mahamahopadhyaya Pandit Adityaram Bhattacharya, M.A., said that His Highness the Pro-Chancellor had already referred to the lamented death of the late Vice-Chancellor, the Hon'ble Dr. Sir Sunderlal. His heart was too full to permit of his expressing either their sense of sorrow at the loss they had sustained in the death of their most esteemed Vice-Chancellor, or their appreciation of his most valuable services to the University. He would not attempt to do more than to move the following resolution :—

“That the Court of the Benares Hindu University places on record its sense of profound sorrow at the sudden death of the Hon'ble Sir Sundarlal and of the great and irreparable loss which the University has sustained thereby. The Court further records its deep gratitude for the distinguished ability, wisdom and devotion with which he laboured to bring the University into existence, and, as its first Vice-Chancellor, to organise it and place in on a sound basis. The Court requests His Highness the Pro-Chancellor to convey its deep sympathy to Lady Sundarlal, Pandit Baldev Ram Dave and the other members of the family in their sad bereavement.”

The Hon'ble Pandit Madan Mohan Malaviya seconded the motion. He was visibly overpowered by emotion as he made the following short speech :—

“I cannot express in words what I feel. No one has worked harder for the University, none has contributed more to its establishment by his ability, wisdom and unflagging devotion to duty than did our dear departed friend. In reality, Sir Sundarlal has contributed more to it than I can tell. I have every reason to hope that the Hindu University will be served in the long future that lies before it, by a line of distinguished Vice-Chancellors. But I believe that none will excel Sir Sundar Lal in the invaluable work which he did in bringing about the establishment of the University and in placing its foundations on a firm and sound basis. Truly has he deserved well of the University, and I hope and trust that as long as the University will last, the memory of Sir Sundar Lal will be cherished with reverence and gratitude as that of a most unassuming, unselfish and indefatigable worker in its cause, of a wise friend and guide, of a noble-minded servant and benefactor.”

Rai Gyanendra Nath Chakravarti Bahadur, M.A., L.L.B., in supporting the resolution said :—

“When I was asked by certain friends here to say a few words on the sad event, I hesitated because I felt that

certain feelings are too deep for expression and words cannot express the fulness of the heart, but lest my silence may be liable to misinterpretation I have acceded to the request ; but I shall be brief and will not detain you long. Sir Sundar Lal and myself were brought up together within the walls of the same college and grew under the fostering care of that eminent educationist Augustus Harrison. There was no student in the whole college who enjoyed greater esteem, affection and care of Augustus Harrison than Sundar Lal. Then, later on in life, I was intimately associated with the great man in the work of the Allahabad University. I think it was left to the genius of our present Lieutenant-Governor, Sir Harcourt Butler, to discover him and then to advise his Government, when he was Secretary, to appoint Sir Sundar Lal as the Vice-Chancellor of the Allahabad University. He was the first non-official Indian Vice-Chancellor appointed in the history of the Indian Universities. Sir Harcourt Butler made a bold experiment and its success is borne out by the history of the Allahabad University. There was no one whose advice was more valued, whose guidance was more helpful, than that of Sir Sundar Lal. We have an impression here that some of the Indian members who serve on Committees with European chairmen always say ditto to what may be said by the latter. But I can tell you that in the meetings of the Allahabad University Sir Sundar Lal enjoyed so much confidence and commanded so much weight that there were many Europeans who would not force their own opinion against his, concerning University matters. I remember one occasion which is notable, as no less a person than the Chief Justice of the Allahabad High Court had expressed strongly certain opinions and then he turned to Sir Sundar Lal for an expression of his views. It so happened that Sir Sundar Lal expressed a different opinion and immediately the Chief Justice said that in the light of the remarks he withdrew his previous opinion and agreed with Sir Sundar Lal.

"As to the work which he has done for the Hindu University it is not for me to say much, because all of us were associated with him. The great loss we have suffered and the difficulty of filling up the gap he has left, bear eloquent testimony to the great service he rendered to the University."

The Hon'ble Dr. Tej Bahadur Sapru, M.A., LL.D., supported the resolution.

Dr. Ganesh Prasad, D.Sc., further supported the resolution and said:—

"Your Highness the Pro-Chancellor, Your Honour the Visitor, Your Highness the Maharaja of Benares and the members of the Court, I rise as a student and as a scholar to pay my humble tribute to the great worth of our late revered Vice-Chancellor, Sir Sundar Lal. I may say that in my experience in India and in countries outside India I have come across a good many scholars but I have never seen a man of such an equable temperament as Sir Sundar Lal, who may be said to have covered an iron hand in a velvet glove. He was always amenable to reason and willing to receive good advice even from his opponents. It was his indefatigable zeal, his great industry and his vast learning that enabled him to do a good many things and to discharge his multifarious duties to the greatest satisfaction of all reasonable men. Thus, in spite of a very heavy practice, he managed to perform his duties as the Vice-Chancellor of the Allahabad University and as Vice-Chancellor of the Hindu University. It was a terrible loss to the Hindu University when Sir Sundar Lal was snatched from us at a time when we expected to receive from him the best possible advice and guidance. Our feelings are too deep for utterance. I beg, therefore, to resume my seat after having paid my humble tribute to the memory of that great man."

The resolution was carried unanimously, the whole assembly standing in silence.

II. The Hon'ble Pandit Madan Mohan Malaviya then

moved that the minutes of the meetings of the Court held on the 29th and 30th October last, printed copies of which were already in the hands of the members, be confirmed.

Pandit Baldev Ram Dave seconded the motion and it was carried unanimously.

III. The Hon'ble Pandit Madan Mohan Malaviya said that there was a vacancy among the members of the Court caused by the resignation of Babu Jwala Prasad who was elected by the Court under clause (f) of sub-section 1, Class III, of Statute 14, of the University. He was grateful to Babu Jwala Prasad that he had sent in his resignation at his request, in order to create a vacancy to permit of the Hon'ble Sir Siva Swamy Aiyer of Madras being elected a member of the Court that day. It was necessary that he should be so elected before he could be proposed for election as a Vice-Chancellor. He therefore moved his election as a member of the Court.

Pandit Baldev Ram Dave seconded the motion, and it was unanimously carried.

IV. The Hon'ble Pandit Madan Mohan Malaviya then moved that the Hon'ble Sir Siva Swamy Aiyer, B.A., B.L., K.C.S.I., C.I.E., Ex-member of the Executive Council of the Governor of Madras and at present Vice-Chancellor of the Madras University, be elected Vice-Chancellor of the University. In moving the resolution he said :—

"It is unnecessary for me to speak of the great loss which the University has sustained by the death of Sir Sundar Lal. That loss is irreparable. For many reasons which it is hardly necessary to dilate upon, he was most fitted to guide the affairs of the University in its present stage. But he is gone, and the work of the University must be carried on. After having consulted several fellow-workers, and after having given the matter my most earnest consideration, I came to the conclusion that the best man whom we could select as the successor of Sir Sundar Lal was Sir Siva Swamy Aiyer. By his distinguished ability, experience, character and position he

seemed to me to be eminently fitted to fill the place vacated by our lamented friend and to guide the affairs of the University in its present stage. He is a distinguished scholar not only of English but of Sanskrit also. For many years he was the Advocate-General of Madras. Subsequently he was a member of the Executive Council of the Governor of Madras, and he is at present the Vice-Chancellor of the Madras University. His scholarship of Sanskrit is of a high order. He has been the President of the Examination Board for Sanskrit in Madras for many years. He has always taken a keen interest in the cause of education. When it was first proposed to ask him to accept the Vice-Chancellorship some friends thought that being placed at such a great distance he would not agree to do so. But I am glad and thankful to be able to say that in response to my request he has agreed, if elected, to serve the University as its Vice-Chancellor.

“The only point urged at any time against my proposal was that Sir Siva Swamy Aiyer will not be able to reside on the spot. When I consulted His Highness the Chancellor, he too was pleased to say that though he had no objection to the election of Sir Siva Swamy Aiyer, he thought that the interest of the University would be better served by a whole-time Vice-Chancellor who would always be on the spot. To that opinion every one must bow assent. But I have informed His Highness, and the Court will be glad to know that Sir Siva Swamy has been good enough to promise to spend from 10 to 15 days at Benares every second month from July to December and to spend at least one month between January and April in Benares. In his last letter to me he says that he can pledge himself at present to at least 90 days in the year, but that he cannot promise more until he knows more about the climate of Benares and the work he will have to do. I consider this satisfactory and sufficient at present, and feel that it is a great advantage to the University to have a distinguished scholar of the ability and experience of Sir Siva Swamy to guide its affairs.

"Several friends have done me the honour of pressing me to agree to be elected Vice-Chancellor. One of these friends has given notice of a resolution to propose me as such. I fully appreciate the honour and am deeply thankful to all these friends for it. But so far as I am concerned my services already are, and will remain throughout my life, at the disposal of the University. My being elected Vice-Chancellor will not mean the accession of any new strength to the University. The election of Sir Siva Swamy Aiyer will. We must also remember that our University is an all-India institution. We have launched it as such. It is in that character that it has been supported by the public of every province of India; it is in that character that it has received generous support from our honoured Ruling Princes of all parts of India. It is in that character that it has received support from the Government of India. It is highly desirable, therefore, that its Vice-Chancellors should come, one after the other not from one province only but from every province of India. From all these points of view I think that the election of Sir Siva Swamy Aiyer is most desirable. To me it seems to be a matter for sincere congratulation that we should be able to secure the co-operation of so distinguished a scholar and educationist as our proposed Vice-Chancellor. I, therefore, hope that the proposal will commend itself to the Court and be carried unanimously."

The motion was seconded by Mahamahopadhyaya Pandit Adityaram Bhattacharya, M.A., and was supported by Dr. Ganesh Prasad, D.Sc. and the Hon'ble Pandit Gokaran Nath Misra, M.A., LL.B., of Lucknow and carried unanimously.

His Honor the Visitor expressed his approval of the election of the Hon'ble Sir Siva Swamy Aiyer as Vice-Chancellor of the University.

V. The Hon'ble Pandit Madan Mohan Malaviya next intimated to the Court that Sardar Lila Ram Singh who was elected under clause (e) class III sub-section 1 of

Statute 14 had resigned; also that Babu Brijnandan Prasad, M.A., LL.B., of Moradabad, who was elected under clause B, class III, sub-section 1 of Statute 14, had also resigned. The matter was recorded.

VI. Babu Ajit Prasad, M.A., LL.B., of Lucknow, stated that there was a vacancy among the representatives of the Jain Community who were elected by the Court, under Clause (e) Class III sub-section 1 of Statute 14, due to the death of Rai Bahadur Chaggan Mal of Ajmer. He had given notice of a proposal that Lala Parmanand, B.A., Vakil, of Kasur, be elected a member of the Court in place of Rai Bahadur Chaggan Mal under Clause (e) Class III sub-section 1 of Statute 14. He therefore proposed his name for election. He added that the name of the gentleman had been recommended to him by the "Swetambar Sthanakvasi Jain Conference."

The motion was seconded by Babu Jnanendra Nath Basu, B.A., of Benares and was carried unanimously.

VII. Babu Ajit Prasad, M.A., LL.B., then stated that he was the Convener of a Sub-Committee appointed at the last meeting of the Court "to consider and make definite proposals for the religious instruction of Jain students of the University and to report what funds have been provided for the purpose." He said that his report was not ready, and asked that the consideration of the matter be postponed to another meeting.

The Pro-Chancellor acceded to his request.

VIII. The next items on the Agenda were certain proposals standing in the name of Babu Shiva Prasad Gupta and Babu Bhagavan Das, M.A., and notices of amendments to those proposals given by certain other members of the Court. But as Babu Shiva Prasad Gupta and Babu Bhagavan Das were not present at the meeting, the Pro-Chancellor ruled that those resolutions should be deemed to have been dropped.

The Hon'ble Dr. Tej Bahadur Sapru enquired whether

they were dropped finally, or whether they would be put up on the Agenda of the next meeting of the Court.

The Pro-Chancellor ruled that they were dropped finally and would not be put up on the Agenda paper.

Babu Ajit Prasad, MA., L L.B., enquired whether any other member of the Court, then present at the meeting was at liberty to move any of the aforesaid proposals.

The Pro-Chancellor ruled that he was too late to make that enquiry, as the proposals had already dropped.

The meeting then dissolved

* The correction has been made in the minutes.

on their behalf. The meeting approved of the proposed alteration in the draft of the minutes and confirmed the minutes.

3. On the motion of Dr. Ganesh Prasad, D.Sc., seconded by Professor H. R. Batheja, M.A., it was resolved that the Hon'ble Sir Siva Swamy Aiyar, M.A., B.L., C.I.E., K.C.I.E., be elected the *Dean* of the Faculty in place of the Hon'ble Dr. Sir Sundar Lal, Rai Bahadur, Kt., C.I.E., B.A., LL.D., deceased.

4. Read resolution No. 3 of the meeting of the Senate held on the 30th March, 1918.

On the motion of Dr. Ganesh Prasad, D.Sc., seconded by Professor Lakshmi Narayan, M.A., it was resolved that a Board of Studies in Teaching consisting of the following gentlemen be constituted under Regulation 1, Chapter IV of the Regulations:—

1. The Hon'ble Pandit Madan Mohan Malaviya, B.A., LL.B.,
2. The Hon'ble Mr. C. F. dela Fosse, M.A.,
3. Rai G. N. Chakravarti Bahadur, M.A., LL.B.,
4. Dr. Ganesh Prasad, D.Sc.,
5. Pandit Ram Narain Misra, B.A.,
6. Professor R. L. Chabiani, M.A., and
7. Pandit Manohar Lal Zutshi, M.A. (*Convener*).

5. Pandit Ram Narain Misra, B.A., convener of the Board of Studies in Hindi, placed before the meeting the proposal of his Board regarding the changes in the Hindi course.

After some discussion it was resolved that the following course be prescribed for the Admission Examination in Hindi:—

(1) Ramayan Balkand (by Tulsidas), Nagri Pracharni Sabha Edition from "Avadhpuri Raghukulmani Rau Ved Vidit Tehi Dasarath nau" to the end.

(2) Satya Harischandra (by Bhartendu Harishchandra) published by the Kashi Nagri Pracharni Sabha and

(3) Hindi Grammar.

At this stage Dr. Ganesh Prasad, D.Sc., moved under regulation 15 (b) of Chapter I that this meeting be

adjourned to 7 A.M., on the 28th April, 1918. He stated that by so doing the Pro-Vice-Chancellor will get the opportunity of thoroughly acquainting himself with books prescribed by the Hindi Board and there would be time enough for the Board of Studies in Teaching constituted to-day to send its report to the Faculty to be passed on to the Senate.

Professor Lakshmi Narayan, M.A., seconded the motion.

Professor H. R. Batheja, M.A., opposed Dr. Ganesh Prasad's motion of adjournment on the ground that he had to bring up the subject matter of Paper II and Paper IV of the Economics courses held over for consideration at the last meeting of the Faculty as an urgent measure required in the interest of the students and the college. He pointed out that if the meeting were adjourned there would be such a heavy and controversial agenda that it would perhaps be difficult to finish it at the adjourned meeting and many important matters would thus be left unrectified for 3 or 4 months to come. He emphasised the necessity of getting everything ready before the college dispersed for the vacation so that there might be no inconvenience to the Registrar's Office and to the teaching department. On being given an assurance by the Pro-Vice-Chancellor and the Faculty that the proposals of his department would be taken up first, Mr. Batheja withdrew his opposition to the proposal for adjournment and the motion of Dr. Ganesh Prasad was carried.

2. Professor H. R. Batheja, the convener of the Board of Studies in Economics, moved that the subject matter of Paper II (Pass course) and Paper IV (Honours course) of the B.A., degree examination (*vide* Appendix C of the minutes of the meeting of the Faculty of Arts, held on the 29th March, 1918) be passed.

Professor H. L. Chablani seconded the motion.

Dr. Ganesh Prasad said that in the last meeting of the Faculty he had proposed the postponement of the proposal (*vide* resolution No. 8 of the Faculty of Arts dated 29th March, 1918) as a matter of caution in order to give more time to the Faculty for its consideration. He, however, now supported the proposal.

After some discussion the motion was carried.

It was also resolved that the new courses in Economics be taught for the M.A. Previous Examination of 1919 and all other examinations of 1920.

3. Rai G. N. Chakravarti Bahadur laid before the meeting the report of the Board of Studies in Teaching recommending the adoption of the (1) Regulations and (2) course of study for the degree of Licentiate of Teaching.

Professor Seshadri suggested that in the proposed regulations instead of mentioning the names of various universities, the words "by some other Indian University established by Act of the Legislature" be substituted.

The suggestion was accepted

Professor Satyavrata suggested that relation between the teachers and pupils according to Hindu ideals should also be one of the subjects of study.

Dr. Ganesh Prasad in support of the suggestion said that the Hindu University should teach what our own ideal of reverence to teachers was.

Professor Seshadri moved that the Board of Studies in Teaching be requested to amend the syllabus of the paper on the History of Education so as to include a knowledge of Hindu Educational ideals. After some discussion the Faculty itself accepted the proposal of Professor Seshadri without referring it back to the Board of Studies.

The report of the Board of Studies in Teaching, as amended above, was then adopted (*vide* Appendix A).

4. Pandit Ram Narain Misra, the Convener of the Hindi Board, laid before the meeting the report of his board recommending revised courses of study in the Intermediate and B. A. Examinations.

On the motion of Pandit Somnath Jharkhandi, seconded by Professor Seshadri, the recommendations made by the Hindi Board (*vide* Appendix B) were accepted.

प्राचीन न्याय (शास्त्री) में व्युत्पत्तिवाद नहीं है। क्या 'पदवाक्यरत्नाकर' रख सकते हैं।

APPENDIX A.

Note of Agricultural Scheme placed before the Meeting of the Council of Hindu University on the 1st of May, 1918.

The scheme herein outlined has been prepared in consultation with Rev. Higginbottom of Nainee Farm, Allahabad who was kind enough to come to Benares at my invitation, although he received a very short notice. Both he and I are of opinion that while keeping as our ultimate goal the development of an Agricultural College of the United States of America, our first task lies considering the apathetic and litigious habits of the zamindars, in taking such steps as may be necessary to create in the zamindars of these Provinces an interest in the productiveness of the land, by showing them, by actual demonstration, that with a proper supply of best seed obtainable, the potentialities of land are immense and are not to be judged by area, but by the quantity of fertilisers, labour, and brain that we can put in it.

Therefore our first requirement is a decent plot of land on which we can colonize the ordinary tenants, but they should be huddled in our own huts constructed on the most sanitary and up to date lines, so as to obviate any chance of litigation with them owing to their building huts of their own.

Next thing to do is carefully to contour and survey the land, and divide it into rectangles on the Punjab system, each rectangle being 1100 feet by 990 feet comprising an area of 25 acres exactly. This area is again to be divided into 25 one-acre plots, by dividing each side into five parts; thus each one acre plot will be in the shape of a rectangle and will be 220 feet long by 198 feet wide = 43,560 square feet. This plot of land should not be less than 1,200 acres.

Taking for granted that such a plot of 1,200 acres or thereabouts is available in front of the University grounds,

our next step will be to pump up water from the Ganges sufficient to give one water in the *Kharif* during March and April to enable cotton being sown, and two waters in the *Rabi* to enable wheat being matured.

The quantity of water required for this purpose will be 6 cusecs, *i.e.*, 6 cubic feet per second, and a 12" centrifugal pump will be all that is essential, but to be on the safe side, I recommend a 14" pump so as to give 8 cubicfeet per second. This water will be pumped up to the highest watershed from which earthen distributaries can be made to gravitate water to each field by flow. This proceeding alone will show to the *zamindars* and the tenants as well how profitable it is to follow Agriculture as a profession. The Hon'ble Pandit Madan Mohan Malaviya has taken upon himself the responsibility of arranging, with His Highness the Maharaja of Benares, the acquisition of this area on perpetual or long term lease. In the event of such area not being available the whole scheme collapses.

Having acquired the land, having constructed the canal, and the necessary pumping works being set up, we should start two classes for instruction. One of these classes will be meant for the sons and relatives of well-to-do *zamindars* for whom there will be no rigid rules of age, or school or college qualifications. If the Officer in charge thinks that the applicant is competent enough to profit by the course of instruction available, he will be admitted. For the present the number of students admitted to this class may be fixed at 30, and the course may extend to 9 months. It is hoped that such a process will create a keen interest in Agriculture among the *zamindars* of these Provinces. The other class will be meant for passed or failed Matrics, the object being to help those who are otherwise helpless, and thus are in a mood to take to hard manual labour, and worship mother Earth to win from hersuitable rewards for their labour. The course of this class should extend from two years to four years, and the number of admissions should, for the present, be limited to 40.

To achieve these results we require a competent staff of devoted workers at moderate emoluments, and the following is a tentative list of the members of the staff.

			Rs.	a.	p.
(a) One Farm Manager on	500	0	0 p. m.

For this post Rev. Higginbottom suggests the name of Pandit Nand Kishore Sharma who is an alumni of Cawnpore College, and who is now Assistant Director of Agriculture somewhere in Bundelkhand. Rev. Higginbottom thinks that his services can be secured as a lent officer. Including his extra pay and pension contribution etc. he will cost about Rs. 500 p. m.

			Rs.	a.	p.
(b) One Graduate from Poona on	150	0	0 p. m.
(c) One Graduate from Lyallpur on	150	0	0 "
(d) Two Assistants on Rs. 80 p. m.	160	0	0 "
(e) Two Jamadars on Rs. 40 p. m.	80	0	0 "
(f) Menial Staff	100	0	0 "
(g) Four pairs of Bullocks for Experimental Farms (their maintenance only)	60	0	0 "
(h) Office Establishment, Chaprasis etc.	100	0	0 "
(i) Unforeseen and extra expense	200	0	0 "
Total	1,500	0	0 "

In order further to extend the benefits of improved Agriculture to *zamindars* of these Provinces, it is proposed to start a seed Depôt. with a capital of Rs. 25,000, and *palika godowns*, at a cost of Rs. 50,000, and if we can also get facilities for borrowing a capital of two lakhs at a reasonable interest, the cost of management can be more than covered by the profits.

In order to colonize and irrigate 1,200 acres of land the initial cost will be as follows:—

			Rs.	a.	p.
Cost of plant	25,000	0	0
Cost of works and erection of plant	13,000	0	0
Cost of making distributaries, roads, culverts and channels	25,000	0	0
Implements, live stocks etc.	1,00,000	0	0
Hutting the tenants	12,000	0	0
Huts for Jamadars, and Munshis' quarters	5,000	0	0
Farm shed, and implement sheds etc.	20,000	0	0
Temporary Educational buildings	25,000	0	0
Total	2,25,000	0	0
Add for Seed Depôt : as detailed above	75,000	0	0
Total	3,00,000	0	0

Thus the entire scheme will be workable with a non-recurring expenditure of Rs. 3,00,000 and with a recurring expenditure of Rs. 1, 500 a month or Rs. 18,000 a year.

The cost of pumping water from the river will be Rs. 2 per acre, per watering which will be easily recoverable from the tenants as water rates.
